GIRL POISONED PREACHER IS THROWN IN JAIL

Prisoner About to Be Married to Another Young Woman.

HE BOUGHT DRUG

Wedding Postponed, But Fiancee and Family Defend Him.

BOSTON, Oct. 20.—A narrow cell in Charles street jail tonight holds Rev. Clarence Virgil Thompson Richeson, the young pastor of the Immanuel Baptist church, Cambridge, who was arrested tonight for the alleged murder of Avis Linnell of Hyannis, Mass., to whom he had been engaged.

His commitment to jail this afternoon on a charge of first degree murder marked a temporary end to a chain of circumstances which police detectives have followed since the death of Miss Linnell last Saturday by cyanide of potassium poisoning.

Miss Linnell, who was 19 years of age and a student at the conservatory of music, was found dead in the bathroom of the Young Women's Christian Association home here. At first the police believed that she had committed suicide, but later developments indicated that she had unknowingly taken cyanide of potassium sent her by some other person, in the belief that it would remedy her embarrassing physical condition.

HE BOUGHT DRUG.

For several days the police inquiry made little progress, but information received early today that Richeson had purchased cyanide of potassium at a drug store in Newton led the officials to decide upon his arrest. A dozen officers, headed by Superintendent Watts, were forced to maintain an all-night vigil outside the fashionable home in Brookline of Moses Grant Edmands, where the clergyman had been staying during the last week, before Richeson was taken into custody. Frequent pulls at door bells, rappings and shouts failed to bring any response from those within the house and the police, who were without a warrant, were unwilling to make a forcible entrance.

Edmands is the father of Miss Violet Edmands, for whose marriage to Richeson on October 31st cards had been issued. These invitations were recalled today. The Edmands family, however, maintain faith in Richeson, and the only announcement in connection with the withdrawals of the cards was that the marriage had been postponed. Even when faced by William Hahn, the Newton druggist, who declared that Richeson had purchased cyanide of potassium from him a week ago Tuesday, the minister was apparently unperturbed.

TO KILL DOG.

Facing the clergyman, Hahn, who had known Richeson for several years, told how Richeson walked into his store Tuesday evening, October 10, and said:

"I have a dog at home that is creating a disturbance. She will be a nuisance unless I can kill her soon."

Hahn said that he responded to Richeson:

"I never knew you had a dog," and that Richeson replied that he kept it in his room.

Inquiry by the police where Richeson roomed developed the presence only of a male dog owned by the landlord, who said Richeson had never owned a dog during the eight months he had lodged there.

QUICK ACTION WANTED.

Hahn said further that he suggested chloroform to Richeson but the minister wanted "something that would act quick." Cyanide of potassium was mentioned as acting instantly, and the druggist said he gave Richeson enough to kill three dogs, but the minister asked for more, and the preparation finally amounted to enough to kill ten men.

In a statement regarding Richeson's arrest, Superintendent Watts said he found the minister in bed and awake, but looked disturbed. He trembled as he dressed after he had been told he would be charged with the murder of Miss Linnell. He was allowed to talk privately with Edmands and later went into the room where Violet Edmands lay ill and unnerved by the shock, to say farewell. The girl burst into tears and threw her arms about his neck. Richeson comforted her, saying:

"Don't cry, dear; don't cry; everything will be all right."

According to some friends of Miss Linnell at the Y. W. C. A. home here, she had dinner in her apartments with a man friend on Sunday before her death. The police have worked on the theory that the paper containing the poison powder was handed to her at that time, but so far as known, they have not determined that her companion at dinner was the clergyman.

"THANK GOD," SAYS MOTHER.

HYANISS, Mass., Oct. 20.—"Thank God, I believe no mistake has been made."

With this exclamation, Mrs. Edgar Linnell, mother of Avis Linnell, received the news that Rev. Clarence V. T. Richeson had been arrested for the alleged murder of her daughter.

Mrs. Linnell later, however, voiced the belief that Mr. Richeson was not accountable.

"He must have been out of his mind," she said, and then told of peculiarities of Richeson, which she noticed while he was a caller at her home.

"Mr. Richeson; whom I loved as a son even before he became formally engaged to Avis, worried us often by attacks which he had at our house," she said, "and once broke his engagement with Avis, giving his physican condition as the reason."

THREATENS JORDAN WITH RECALL FOR HIS PAPER DEAL

Neylan of Control Board Answers Secretary of State Regarding Los Angeles Supplies

SACRAMENTO, Oct. 20—In answer to Secretary of State Frank Jordan's statement at San Francisco today that through the interference of the State Board of Control in refusing to confirm his contract with the Zellerbach Paper Company, no ballot paper can now be procured in time for the Los Angeles city primary election, John Francis Neyland, one of the members of the Board of Control, declared tonight that if the elections are delayed because of lack of ballot paper, then Jordan should be recalled from office.

Speaking of the Board of Control, Neylan continued:

"Within an hour and a half after his request for ballot paper had been submitted to the Board of Control, the board authorized him to purchase forty reams of paper, enough, according to his own figures, for the Los Angeles primary.

"Mr. Jordan has known for three months exactly what elections would take place. He is charged by law with procuring ballot paper. If Mr. Jordan desires to delay the purchase of this paper, that is a matter the blame for which he will have to shoulder.

"Were this the first attempt of Mr. Jordan to make the state buy this excess stock from the Zellerbach Company, the circumstances would not be so glaring. But it is only three months since the Board of Control was forced to curb Mr. Jordan's desire to unload this identical paper on the state at an outrageous price.

"He pleaded three days ago with the Board of Control to allow him to withdraw from an embarrassing situation in which he found himself.

"The board gave him every opportunity to save his dignity, but his desire to unload the Zellerbach paper seems to have carried him away again."

FOWLER TO CONTINUE HIS EASTWARD FLIGHT

Disagreement With Manager Threatens to End Aviator's Journey.

PASADENA, Oct. 20—Aviator Robert G. Fowler will resume his eastward transcontinental flight early tomorrow morning.

For a time today it seemed as if the flight would be called off owing to a disagreement between Fowler and his manager. The latter wanted Fowler to return to Los Angeles tomorrow and make a flight over the motordome. Fowler objected strenuously, and announced that rather than do this he would call the flight off entirely.

Later Fowler and his manager came to an agreement, and the proposed flight to Los Angeles will not occur. Fowler said he would follow his original route eastward along the Santa Fe tracks.

WILLING TO CANCEL BIG STEEL LEASE

Hill Comments on Gary Corporation's Lack of Holdings.

ST. PAUL, Oct. 20.—James J. Hill, chairman of the Great Northern, made it plain today that if the United States Steel Corporation wants to cancel its lease of the Great Northern ore properties in Minnesota, it is welcome to do so.

"Do you think that the United States Steel Corporation can afford to let up on the Great Northern properties after the big sums spent by it in developments?" he was asked.

"If they can afford to, we certainly can," he replied. "If the steel corporation wants to cancel its lease that is its privilege. The ore is there; the stuff to make steel of.

"Outside of our properties, the steel corporation has not enough ore to run it for twenty-five years."

QUEEN CROWNED FOR SACRAMENTO FESTIVAL

SACRAMENTO, Oct. 20.—Miss Lucy Clemens was crowned queen here tonight to reign over the greater Sacramento annexation jubilee which started today. Today's program consisted of a card of motorcycle races in which seven nationally known riders were entered. Tomorrow's program will include a huge industrial parade, automobile parades, band and various other contests, a barbecue at which over 25,000 visitors are expected to be fed and a closing street carnival and ball tomorrow night.

INDIAN WAR VETERAN STRANGELY DISAPPEARS

SAN JOSE, Oct. 20.—Louis Hebbron an 80 year old veteran of the Indian uprising, has been mysteriously missing since August from his home at Madrone, this county, and the sheriff today flooded the state with circulars describing him. He carries two medals awarded for bravery at Cawnpore and Lucknow. He had $60 in cash with him when he left home and relatives fear foul play.

DIFFICULT TO GET JURORS UNPREJUDICED

Many Declare They Would Not Hang on Circumstantial Evidence.

LOS ANGELES, Oct. 20. — Out of eleven talesmen who sat in the jury box at the McNamara murder trial at opening of court today, only six were left there when court adjourned tonight until Monday. Of these six, however, it is considered more than possible that two or perhaps three will find themselves on the jury as it is sworn in.

Those locked up tonight after being passed for cause by both sides were:

Seahorn Manning, rancher; F. D. Green, orange grower; Robert F. Bain, carpenter.

It is possible that all of these will become members of the jury, no animus against any of them on each side being found today. The other jurors occupied all sorts of official statuses.

A. R. McIntosh, challenged by the state because of his opposition to the infliction of the death penalty on circumstantial evidence, will be questioned by the court before he is held of excused. George W. McKee, who says he is firmly convinced that the Los Angeles Times was blown up by dynamite, was under the interrogation by the court at the close of today's session. He is not wanted by counsel for the defense, who assert that James B. McNamara could not have dynamited the building and caused the death of Charles J. Hagerty, for which he is being tried, because the building was blown up by gas. They therefore challenged McKee, and are awaiting a ruling from Judge Bordwell. McKee says he has no opinion as to the guilt or innocence of the defendant.

"INDIRECT BIAS."

A. C. Robinson, after being challenged because of his opposition to conviction on circumstantial evidence, was held by the court, the challenge being disallowed for the time. T. W. Adams, Ernest F. Becker, E. J. Shower, Otto A. Jessen and H. Y. Quackenbush, all were excused under challenges for indirect bias. This is the closest the state could come, under California statutes to formal challenge because each man said he would not inflict the death penalty upon circumstantial evidence, and Judge Bordwell's efforts to learn if this was their real state of mind seemed to show that it was.

"Would you obstinately persist in your opinion in the face of all evidence to show that it was unfounded?" the court asked Otto Jessen, and Jessen said he would.

"You're excused," said Judge Bordwell.

The case of Adams created lively interest because the examination ran much along the lines of his socialistic beliefs.

McIntosh stretched the ingenuity of both sides in their efforts to find out whether he would or would not be willing to inflict the death penalty on circumstantial evidence.

"First he says he will; then he won't. He blows hot and cold. Who shall say what are the facts?" asked Chief Trial Deputy D. Ray Horton of the court.

"The people are entitled to a jury of twelve men who will inflict the death penalty," asserted District Attorney Fredericks; "to twelve men who will go the limit. This man won't."

"How do we know he won't?" queried the court.

"He says he won't," replied the district attorney.

The court mused over the tangled record.

"I'm not so sure he said that," he said, and ruled that Robinson should stay. "If I find my ruling's wrong, I'll change it," he added.

DETECTIVE KILLS DRUG VICTIM WHO RESISTS ARREST

SEATTLE, Oct. 20.—Police Detective Joseph Bianchi shot and killed Walter Stanbridge, alias Frank Harris, aged 38, who fled when the detective attempted to arrest him. Bianchi came upon Stanbridge when he was attempting to dispose of a curtain for the possession of which he could not give a satisfactory explanation.

Stanbridge's home was in Memphis Tenn. He was recently released from the city hospital where he had been treated for the drug habit.

THREE STATES OPPOSE PLAN OF TOBACCO TRUST

Proposed Dissolution Will Give No Relief, Declare Attorneys.

WILL INTERVENE

Virginia, North Carolina and South Carolina to Take Action.

NEW YORK, Oct. 20—After thoroughly studying the plan of disintegration filed by the American Tobacco Company with the judges of the United States Circuit Court, the attorneys-generals of Virginia, North Carolina and South Carolina, who have been in conference here on this matter for two days, reached the conclusion late today that the scheme proposed will offer no relief to the tobacco growers. They express belief that should this plan be adopted the victory of the government resulting from the decision of the Supreme Court of the United States would be "barren."

The conferees decided to file tomorrow a petition in the United States Circuit Court asking that the Southern states represented at the conference be permitted to file written objections to the plan of dissolution and to be heard in a hearing set for October 30th.

WOMEN EAGER FOR CHANCE TO VOTE ON SALOON QUESTION

(Special to the Republican.)

WOODLAND, Cal., Oct 20—The registration of women as voters began here yesterday. The registration when the day closed was 450, and fifty women were still in line. There was quite a rivalry for the honor of being first to register. When the office was opened, Mrs. Halyon Love, court reporter, was at the head of the line, but when she noticed Mrs. E. C. Laughenour, pioneer, in the county equal suffrage campaign, in line, she yelled to Mrs. Laughenour and accorded her the privilege of being the first to register. All the other work of the clerk's office was abandoned yesterday. Registration continued brisk today. Women want a chance to vote at a possible early election on the saloon quesiton.

DEFENDS SUFFRAGE EFFECT IN COLORADO

Denver Man Predicts Movement Will Sweep the Country.

LOUISVILLE, Ky., Oct. 20.—The next great transition that is destined to sweep the country will be the "Political Emancipation of women," is the opinion of Omar E. Garwood of Denver, who addressed the National Woman Suffrage Convention here today. Gorwood told of conditions in Colorado during the eighteen years that equal suffrage has been practiced there, and declared that women's interests in matters political had resulted in placing the state among the leaders of progressive commonwealths. He said:

"Complaint has been made that the women of Colorado have made a poor showing in procuring laws relative to children and yet the members of the inter-parliamentary union who made careful personal study of childrens laws in all parts of America, said that Colorado has the sanest, most humane, most progressive and most scientific laws relating to children to be found on any statute books in the world. "The strongest men in Colorado believe in Equal suffrage.

"It is ridiculous to claim that there is any relation between Equal suffrage and divorce in Colorado.

"Judges and lawyers all agree that no divorce case has ever arisen in Colorado which could be traced in the remotest way to the existance of equal suffrage.

"Women who have held office in Colorado have done so with great credit to themselves. There has never arisen a single instance where a Colorado woman office holder has been accused of any irregularity, much less corruption, in the administration of her office. As office holders and as voters women acquit themselves more creditably than do the men.

"Women are shown every respect at the polls and as a prominent Colorado man said 'I would feel less anxiety in seeing my wife or daughter in the worst polling places in Denver on election day than to see her on Broadway in certain portions of the theatrical districts in New York after 10 p. m.

"The men who are in charge of great political movements in Colorado realize that the women's vote must always be reckoned with and no nominating convention dares to flaunt a known rascal's name in the face of the women.

"Equal suffrage will always exist in this state. It is right in principle and practice and is bound to become universal in America."

WASHINGTON, Oct. 20—Alfred H. Brooks, who recently was offered the position of chief of the United States geological survey, has requested Secretary of the Interior Fisher to allow him to remain as head of the Alaska division of the survey and his wish has been granted. Frank B. Van Horn is acting chief geologist.

JUSTICE COURTS TO CONTINUE IN OFFICE, DECIDED

Supreme Court of State Passes Upon Constitutional Amendment.

QUICK APPEAL MADE

Case Carried Up From Superior Court on Same Day.

LOS ANGELES, Oct. 20—The Supreme Court of California, sitting in Los Angeles, today upheld the decision of Judge Willis of the Superior Court, which declared that constitutional amendment No. 18 carried at the late election, did not abolish justice courts.

The decision of Judge Wills came in the case of J. A. Woods, who was held to a justice court on a charge of threatening to kill his wife. Woods pleaded that the justice court had no power to hold him inasmuch as constitutional amendment No. 18, abolished those courts. He asked for a writ of habeas corpus directed against Sheriff Hammel, praying for his release.

In ruling that the justice courts of the state still exist, Judge Willis stated that where there were two interpretations of any measure, it was his duty to follow the one which would not work mischief.

He declared that it was not intended by the law or the constitutional amendment that any complete system should be replaced by any incomplete system. He held that the term "inferior courts" used in the amendment meant "justice courts," and asserted that the amendment merely gave the legislature the power to establish more of such tribunals as it saw fit. To rule otherwise, he said, would mean to abolish more than 2000 of what he called the "Poor man's courts."

Counsel for Woods at once appealed to the Supreme Court, asking for a writ of habeas corpus directing Sheriff Hammell to release Woods. The court immediately denied the writ and remanded Woods to the custody of the sheriff.

COOK CALLED TO SUCCEED JEFFREY

Professor of Biology to Be State Horticultural Commissioner.

(Special to the Republican.)

LOS ANGELES, Oct. 20—Dr. Albert J. Cook, head of department of biology at Pomona college, Claremont, received a private letter today from Governor Johnson asking him to come to Sacramento immediately to receive the appointment of State Horticultural Commissioner. Dr. Cook left for the north tonight. Cook, who is 68 years old, has been connected with Pomona College eighteen years, and for a long time had charge of the University extension work in Southern California.

REITERATES POSITION ON THE SHERMAN LAW

President Taft Spends the Day in Northern Wyoming.

NEW CASTLE, Wyo., Oct. 20—President Taft again made it clear in a speech here tonight that it was his intention to enforce the Sherman anti-trust act, no matter how much offending combinations appealed for mercy.

"The Supreme Court," said Taft, "has rendered two decisions—one against the Standard Oil, regarding it to be broken up and disintegrated into parts and the other against the American Tobacco Company. There are other companies that are charged in the same way; some of them are coming in voluntarily to divide themselves up. And just as we are about to reach a proper and successful administration of the law, we begin to find that there are some people that object to the administration because of the fact that we are prosecuting these trusts and enforcing the law.

"It is a case where the administration is in the situation of being damned if it does, and damned if it doesn't. But our understanding in the administration is that when the President lifted his hand and swore to defend the constitution and enforce the law, it meant something and when there was a law upon the statute books for twenty years to suppress these combinations against interstate trade to monopolize and to interfere with that that to trade and to control prices, it was his business and the business of all under him to enforce the law and that is what we are doing. And that is what we propose to do, no mater whether we be damned or not. The prosecution of these great combinations that have been engaged in trying to prevent competition must go on until either the law is repealed or the law is so enforced that no combinations shall ask which shall be able to prevent competition and establish a monopoly; and that is the policy which the administration had adopted and intends to carry through."

The President spent the day traveling through Northern Wyoming. He started at Sheridan in the morning with the mercury down around 25 and stopped for the night in New Castle. Not much improvement in the temperature was noted. For hour after hour today his train passed through country half covered with snow at times the clouds overhead spat snow enough to make a blizzard look imminent.

His speech here was begun just as snow began to fall. It was not a heavy fall, but it came fast.

At Sheridan the President was taken for a three mile ride to Fort McKenzie. It was cold enough to make buffalo robes and heavy overcoats comfortable and Taft stopped for a few minutes in post headquarters to get warm. He spoke there in the tabernacle under canvas to several thousand persons on peace and arbitration.

DR. DAY WINS IN SYNOD

Conservatives Plan to Keep Up Attack on Him.

LONG BEACH, Oct. 20.—The Presbyterian Synod of California and Nevada, after an all-day argument over alleged heterodox teachings of Professor Thomas H. Day, teacher of Hebrew and Higher criticisms in the theological seminary at San Anselmo, tonight voted down the recommendation of the seminary directors that Professor Day's teachings be limited to the last year of the course. The vote was 141 to 97.

However, the tide of opposition against Professor Day is said to be very strong and tonight there was talk among his opponents of making an attempt to elect a board of directors that will oust him. It was pointed out by others that this plan could not be successful in its purpose for at least another year as the directors are elected by rotation.

Among the teachings of Professor Day to which exceptions are taken are said to be his position regarding the Mosaic authorship of the Pentateuch; his alleged failure to teach that the Old Testament prophesies clearly foretold the coming of Christ; his laying too much emphasis on the critical research by those who are said to be opposed to Christianity, and his failure, it is claimed, to teach his students that Jonah was a reality, of flesh and blood. In connection with this last charge, it was pointed out here today by friends of Professor Day that the synod last year voted that he did not need to say whether he thought Jonah was Jonah or not. Professor Day announced today that this latter question did not interest him.

The arguments today for a time waxed warm, "yellow dogs" and other uncomplimentary terms being hurled back and forth.

LABOR LEADER DIES

STOCKTON, Oct. 20.—Moses G. Barnhard, a charter member of the Stockton carpenters union, for ten years third vice president of the state building trades council, died tonight following several days illness.

2 BRIGHT COMETS NOW IN THE SKY

One Easily Seen in Evening; the Other Before Sunup.

SAN JOSE, Oct. 20.—The following from Dr. R. G. Aitken, of Lick Observatory:

At the present time astronomers are enjoying the unusual experience of observing two bright comets, one in the western sky shortly after sunset, the other in the eastern sky in the early morning. The former, discovered by Belasky, on September 28, has just passed its point of nearest approach to the sun, almost grazing its surface, and is now traveling rapidly away from it. At present it is a conspicuous object for naked eye observation, having a very bright head and a trail about seven degrees long. It should be looked for a little north of the sunset point. Immediately after dark. It will probably remain visible for at least a week longer.

The head of the other comet, discovered by Dr. Brooks last July, is brighter now than that of Halley's at its brightest, and as it is still traveling toward the sun, it should increase in brightness during the next ten days. Last night, in spite of moonlight, the tail could be traced with the naked eye through about 20 degrees. For the remainder of the month it will be a brilliant object in the morning sky, northeast of Venus, the morning star. The best time to see it is a little before 5 o'clock.

In addition to these two bright comets, at least four others, visible only with the telescope, are known to be in the neighborhood of the sun. One of these, Encke's comet, returns to the sun at regular intervals of about three and one-half years, and has been observed at more returns than any other comet. Another is now making its second known visit to the sun. The remaining two, like the two bright comets, move in what astronomers call parabolic orbits, and are now seen for the first time, as far as is known.

BIG SUIT WITHDRAWN.

SAN JOSE, Oct. 20—A big legal battle in the Superior Court of this county has been averted, the suit of Charles Morris Yates, Jr., of San Francisco against other heirs of the late Charles M. Yates Sr., who left an estate of $150,000, being withdrawn. The terms of the settlement are not stated. The action was to annul a purported deed made by the elder Yates in 1909 and filed the day after his death with the county recorder.

MANCHU FORCE IS BEATEN BY INSURGENT ARMY

Peking Government Has Small Hope of Success

Imperial Leaders Wait for Reinforcements From the North.

REVOLT SPREADS TO NEW PROVINCES

Disturbances Ruin Credit and Banks at Seaports Suspend.

The Imperial Chinese forces met with defeat Wednesday at Hankow, being driven back by the rebels. The extent of the defeat is not known but the government forces are supposed to be entrenched seven miles north of Hankow awaiting reinforcements.

The warships that took part in the engagement, with one exception, retreated down the river. One of the vessels, it is reported, went over to the revolutionists.

Consular dispatches received at Peking from the province of Yunnan report the troops there are threatening to mutiny.

The Chinese government admits a serious situation at Chang Sha, province of Huna, and this admission is believed to indicate that the people there have joined the revolt.

It is feared by the legations at Peking that news of the repulse of the government forces at Hankow will utterly demoralize the troops now mobilizing and also that the provinces south of the Yangtze and some of those north of that river will secede.

Although the Peking government reports that War Minister Yin Tchang has about completed the mobilization of the army with which to put down the rebellion, the foreign minister alone seems to have confidence in its proposed attack against the enemy. The fear generally seems to prevail that he will reply on proclamations and negotiations with the enemy, being fearful to move his army.

Financial crisis is threatened at Shanghai, where several native banks have suspended payments.

PEKING, Oct. 20.—It is apparent here tonight that the imperial government knew the result of the battle at Hankow between its forces and the rebels more than twenty-four hours before it became public. Reports of the rebel victory gradually leaked out during the day, but the first positive account of the defeat of the imperial troops was delivered to the foreign legations tonight by the Associated Press. It caused a profound impression.

The success of the revolution has been considered here to hinge upon the result of the first encounter as its moral effect would be far reaching. When the fugitive imperialists reach the main army, now mobilizing near Sin Yang Chow, knowledge of the repulse it is believed, will utterly demoralize the troops, while as the news travels along the Yang Tse river it probably will cause important adhesions to the rebel cause.

FURTHER UPRISING EXPECTED.

The foreign legations here believe that today's news from Hankow and Yunnan will mean that the provinces south of the Yang Tse and also some on the north side of the river will secede sooner or later.

The government acknowledges that there is a serious situation in Chang Sha, province of Hunan, which it is believed in Peking means that Chang Shs has joined the revolt.

Foreigners whose business it is to study China, think the northern provinces, which are not deeply affected by sedition, may rally around the Manchus. Everything, however, seems to depend on an immediate and successful advance by Minister of War Yin Tchang, who now commands twenty thousand men within 100 miles of Hankow, but only the foreign ministry pretends to enjoy confidence in his promised attack. Already Yin Tchang is issuing proclamations offering pardons to all who desert the rebel standards, and it is believed he will rely on proclamations and negotiations, fearful of being unable to move his army.

At midnight the report from Yin Tchung was published in the Official Gazette. It does not refer to Wednesday's fight at Hankow. It says the Twenty-Second Regiment arrived at Hankow Sunday; that the rebels attacked twice, but were repulsed, and that three rebels were captured. His aides report that the rebels are preparing for a defense of Wu Chang and Hankow. Many desertions in the rebel ranks are reported.

Yin Tchung says he has made Sin Yang Chow his temporary headquarters and will proceed southward after the arrival of the fourth division of troops.

AID FOR PEOPLE.

An edict, which also is published, sanctions Yin Tchang's proposal, and hopes he will lose no time in suppressing the rebels. Another edict expresses compassion for the people in those provinces that are suffering from drought and rebellion, and orders 200,000 taels from the late empress dowager's hoard to be paid to Yuan Shi Kai, who will arrange for its distribution among the distressed people.

MONEY HARD TO GET

SHANGHAI, Oct. 20—Despite alarmist rumors, trustworthy information received here is that all is quiet at Kin Kiang, Wu Hu, Nanking, Soo

(Continued on Page 2)

OREGON DEFENDS INITIATIVE LAW

Answer Filed in Supreme Court to Bell Telephone Company.

WSHINGTON, Oct. 20—Oregon's defense of the initiative and referendum method of legislation has been presented to the Supreme Court of the United States in the shape of a brief by Attorney General Crawford of that state. The brief is a reply to the attack by the Pacific States Telephone and Telegraph company on the constitutionality of the methods.

According to Crawford, the question of whether the initiative and referendum method violates the clause of the federal constitution which guarantees to each state a republican form of government is a political one for congress and the president to pass upon and not a judicial one for the courts to decide.

The attorney general argues that the political branch of the federal government has already decided that the referendum and initiative method is constitutional.

"Senators and representatives from states reserving those powers are seated in the senate and house of representatives without protest," he argues in this connection.

"When new states are admitted the president and congress pass upon the form of government presented by the proposed state and decide whether the same is in harmony with the constitution of the U. S. They have in several instances approved state constitutions reserving the identical powers attacked in the case at bar, notably Oklahoma and Arizona and other states have changed their constitutions to include those powers, to wit: South Dakota, Utah, Colorado, Arkansas, Maine and Oregon, without objection from any federal authority."

WILL ASK CONGRESS TO PROVIDE VICE ADMIRAL FOR PACIFIC FLEET.

WASHINGTON, Oct. 20—The humiliating position in which an American naval commander can be placed in a case involving international joint action, by lack of sufficient rank, has been emphasized, in the view of the Navy Department, by the present situation of the American Commander in China. As a result it is confidently expected that Secretary Meyer will make a strong appeal to congress to act upon the recommendation he has already for the creation of the rank of vice admiral.

If Congress sees fit to approve this recommendation it may be that when Reginald F. Nicholson hoists his flag of the Asiatic fleet early next year, he will do so with the rank of vice admiral and thus be placed in a position of at least equality with the commanders of the Japanese, British and German fleets in Chinese waters.

MONETARY COMMISSION IS MEETING AT CHICAGO

CHICAGO, Oct. 20—The first sitting in the West by the National Monetary Commission opened here today. Edward B. Vreeland, chairman of the sub-committee, which is holding the sessions in the West, said he expected the hearing would continue over two days and that during that time any one having suggestions relative to monetary systems useable by the United States was invited to air his views before the sub-committee. From here the sub-committee expects to move to St. Paul, Des Moines, Denver, Kansas City and possibly to San Francisco before returning to Washington. The sessions are open to the public.

MRS. NAT MOORE MARRIES BROOKLYN MAN

NEW YORK, Oct. 20—Mrs. "Nat" F. Moore, widow of the son of J. Hobart Moore, Chicago millionaire was married yesterday to Lemuel Hasting Arnold, Jr., member of a prominent Brooklyn family. The wedding took place at the summer home of Wm. Congdon Fargo, the bride's father, near Seabright, N. J.

Mrs. Arnold was made a widow two years ago when her husband died under sensational circumstances in Chicago.

Make Your Home Pretty

There is nothing that makes a home more attractive than pretty wall paper. No matter how the furniture looks, if the walls are prettily papered the general effect is one of beauty. We have the largest assortment of wall paper that can be found in Fresno and are constantly receiving new shipments of the latest patterns.

NEXT DAT GOODMANS

MANCHU FORCE IS BEATEN BY INSURGENT ARMY

(Continued from Page 1)

Chow and Hang Chow. There has been a large exodus to Shanghai from these places, but reports of imminent trouble are almost all traceable to interested Chinese.

The worst feature of the situation is the stringency in money due to a demand for silver in exchange for even the best paper. Several banks in Shanghai have suspended payments.

The loan of $3,000,000 in new currency of Nanking sent to the official banks here has partially relieved the situation, but business is at a standstill and a crisis threatened unless negotiations are begun by the bankers with the merchant guilds to avert it.

HURRYING TO SHANGHAI

WASHINGTON, Oct. 20—Rear Admiral Murdock, commander-in-chief of the Asiatic fleet, today cabled to the Navy Department that he was leaving Manila for Shanghai to be nearer the scene of the Chinese disturbances. He announced that he was leaving on the Rainbow and that his flagship, the Saratoga, would follow him.

SAM SMALLS ARIZONA PAPER SEIZED FOR DEBT

PHOENIX, Ariz., Oct. 20—Sheriff Hayden today took charge of the Phoenix Sun, a morning Democratic daily paper established July 4 of this year by Rev. Samuel W. Small, the evangelist.

The seizure was in satisfaction of an attachment for $1,200, secured by creditors. Editor Small announced he would make no effort to resume publication.

RAILWAY MEETINGS

CHICAGO, Oct. 20.—Annual meetings of the directors and stockholders of the Chicago and Northwestern railroad company were held today. The following directors whose terms expired were re-elected: Wm. K. Vanderbilt, Frederick W. Vanderbilt, Byron L. Smith, Cyrus McCormick, Chauncey Keep, Wm. A. Gardiner.

Wm. K. Vanderbilt, Jr., was elected a director for the unexpired term of Frank Work, deceased. The present executive committees were re-elected.

WEALTH IN DRIED FISH

Thrifty Chinese in California Are Doing Thriving Business.

At Santa Monica, Cal., a great fish-drying establishment is engaged in catching and drying hundreds of tons of fish of various kinds, which are finding a ready sale in inland mining camps and in certain foreign ports.

The industry is a Chinese one, the labor all being performed by the people of that nation. The greater portion of the fish are quite small, and are caught in minnow nets, which are placed in the waters frequented by this kind of fish. They are carried ashore and placed on great wire screens stretched over the hot sands, and the rays of the sun, which shines almost constantly, so completely remove all moisture from the fish that they can be packed in boxes and shipped to the mining camps all through the Western States, and especially where the laborers are mostly Chinese or Japanese. They find a ready sale and are considered a staple article of food. The dried fish are also shipped to foreign ports and sold in vast quantities.

Among other fish caught for this sort of trade is the shark. Its flesh is cut in thin strips and placed on the nets in the sun to dry. Layer upon layer is so placed an a liberal quantity of sugar is sprinkled between them. The heat of the sun and the sugar cure the meat, which is said to be very tender and of a pleasing flavor. The product is often called candied shark, and when it is cured successfully it is certain to command a high price among the foreign population that inhabit the mining centers in the Western States. Many Americans have found the meat so cured is very appetizing, and it is predicted by some it will soon become a fancy article of food throughout the entire world.

Certain specialists in the fish packing business are also drying some kinds of small fish with fruit, and it is said by those who have had an opportunity to taste these fancy preparations that they are peculiarly delicious.

Another peculiar industry along some of our Western coasts is the drying of eggs laid by thousands of birds that lay their eggs on high cliffs and on the sand of numerous islands. The dried egg preparation is shipped to foreign cities, where it is used as food, and especially for cooking and preparing certain kinds of foods.—From the San Francisco Chronicle.

GIN FIZZ IN SURGERY.

Physician's Novel "Operation" on Girl Who Had Swallowed a Bone.

That the popular beverage, gin fizz, in certain ailments, may be used as a substitute for the surgeon's knife, was demonstrated by Dr. Robert S. Adams, house physician of the Waldorf-Astoria, when he was called to the apartment of Miss Dorothy Gresham Parsons of Seattle, Wash., who had swallowed a squab bone while crossing the Atlantic on board the Lorraine, of the French line. Through the aid of the gin fizz. Dr. Adams forced the squab bone from the throat of Miss Parsons and ended her suffering.

Dr. Adams admits that his discovery of this particular use of the famous New Orleans beverage was an accident. When he went to the apartment occupied by Miss Parsons, he found that the squab bone had become lodged in her throat in such a way that an operation might be necessary. While he was talking with her a waiter rapped at the door to speak to Dr. Adams. The waiter was carrying a gin fizz to another room.

Sight of the gin fizz gave Dr. Adams a happy thought. It occurred to him that if he could produce hiccoughs in Miss Parsons the bone might be dislodged without the use of the surgeon's knife. He requested his patient to drink the gin fizz, informing her that it would cause hiccoughs. The gin fizz, together with the physician's suggestion, produced hiccoughs, and the bone, which had been in the young woman's throat for three days, became dislodged, and by using pincers the physician extracted the offending squab relic.

Dr. Adams said that he would not advise the swallowing of squab bones by persons who wish a legitimate excuse for drinking gin fizzes.—From the New York Herald.

LAYING A SUPERSTITION.

Scientists are not the only ones who occasionally lay the ghost of an ancient superstition.

Bill Hicks, an unlettered but garrulous authority on all subjects, was discussing with some old cronies in the postoffice of a north Missouri town the best time to plant potatoes. One old fellow maintained that Good Friday is the right time.

"Now, I tell you, boys," said Bill positively, "there ain't nothing in this Good Friday superstition. I used to think I couldn't raise potatoes unless I planted them on Good Friday. But I remember one year Good Friday come on Sunday, so I had to plant the next day; and I raised as fine potatoes as you ever saw."—Norman E. Mack's National Monthly.

MUNSEY DENIES AIDING M'NAMARA

All Attempts to Secure a Statement From Wife Fail.

SALT LAKE, Oct. 20.—In the presence of his wife and an attorney, Munsey was interviewed late tonight regarding the charges, which, it is declared, have been preferred by the Los Angeles authorities implicating him in the McNamara case.

Munsey reiterated his previous denials of all allegations that he played a part in concealing J. B. McNamara from the detectives. He asserted that he had never to his knowledge met the man who is now on trial for his life in Los Angeles.

If his wife had signed a statement tending to implicate him in the case, said Munsey, she could not have realized its import; she had never signed such a statement, he believed, and could only have been prevailed upon to do so under duress.

This opinion likewise was expressed by Munsey's attorney, who also claimed to be speaking for Mrs. Munsey.

All attempts to obtain a statement from Mrs. Munsey tonight proved unavailing. She protested that she had been greatly upset by the publicity given the case as it concerned herself, and declined to talk.

CHILD FATALLY BURNED IN MOCK "WAR DANCE"

BERKELEY, Oct. 20—Joseph Harris, aged 3 years, was fatally burned and his mother and two older brothers painfully injured today at their home here following an imitation "war dance" about a bonfire. The youngest child danced too close to the flames and his clothing caught fire. He lived but a few hours. The mother and two brothers were burned in attempting to save the baby.

COMMISSION WORKING ON A LIABILITY LAW

WASHINGTON, Oct. 20—Under instructions to present its final report to Congress by the first of January next, the employers' liability and workmen's compensation committee, appointed last March to devise a plan for insuring compensation to injured employes, is preparing to enter on the final stages of its work and will meet next Monday to formulate a tentative recommendation. Senator Sutherland of Utah, who is chairman of the commission, said today that after the commission had decided upon the terms of the measure to be suggested, the doors would be thrown open and the interested public invited to express an opinion.

TUBERCULOSIS INCREASING IN NEW YORK CITY; PROBLEM SERIOUS ONE

NEW YORK, Oct. 20—Tuberculosis is increasing in New York City despite every effort against it, according to the annual report of Leopold Plant, president of the United Hebrew Charities.

"Notwithstanding the propaganda against consumption," his report says "the number of those who have applied to us for aid because of the disease has increased 20 per cent. Our only hope lies in a radical change of working and living conditions."

SAN FRANCISCO VOTE

SAN FRANCISCO, Oct. 20—Woman suffrage gained twelve votes in San Francisco today when the result of the day's official computations of the election commission was announced.

The commission figures that 78,911 votes were cast at the election September 26th, James Rolph, Jr., successful candidate for mayor, receiving 47,437, and P. H. McCarthy, 27,067.

STRANGE BEARDED ESKIMOS.

Theory That They are Descendants of Franklin Survivors.

Whatever may be said against it, there is certainly something very fascinating about the theory advanced by Mr. Stefansson, Arctic explorer for the American Museum of Natural History, that the fair-haired, beard-wearing Eskimos he recently saw in Victoria Land are descendants of the survivors of Sir John Franklin's lost party.

Franklin's two ships, the Erebus and Terror, were shut in by the ice in the fall of 1846, twelve miles north of King William's Land. Here the party remained all winter, and here, in June, 1847, Sir John died. Another year passed, and Captain Crozier, now in command, seeing no immediate prospect of getting out with the ships, deserted them with 105 men. They started southward, hoping to reach some outpost of the Hudson Bay Company or some shelter established by Sir John on previous expeditions to the Arctic shores. Not one of these men is known to have escaped, and, though thirty-nine rescue parties in all were sent out to find them, not nearly enough evidences were found to account for the deaths of all of them.

It is very pleasant to think that all of these gallant men did no perish miserably of starvation and cold, but found friendly Eskimos, and, despairing of rescue, settled down to live out their lives among the kindly natives. This view of one of those ever-interesting mysteries of history is supported by the fact that among these people, Stefansson found persons named with the names of white men. With the caution of the true scientist, Mr. Stefansson gives his view with no more confidence than that they explain the existence of a remarkable people. True theory or not, it is important and interesting.—From the New York Times.

INDIAN CAPTIVE FOUND

J. B. Baker, a Comanche county farmer, believes he has found William Love Brown, who at the age of 12 was captured by the Comanche Indians July 19, 1842.

Mrs. Carrie Jayne McFarland, of Port Lavaca, Texas, a sister, wrote to Indian agents in Oklahoma asking them to look for such a man.

A few days before an old man had come to Baker's farm, with a hay camp, where he tended stock and did odd jobs. The man could neither read nor write, and said he believed he was about 80 years old.

He said he had been captured from his parents near Austin, Texas, when a boy. He escaped from the Comanches, he said, by riding off with the chief's horse.

He remembers a sister, older than he, and a brother, whom he does not remember whether he was older or younger. He does not know his name, but called himself Vaughan, after a relative he remembers.

The story tallies with that written by Mrs. McFarland. Baker will keep the old man until he hears from supposed relatives.

NOT SO BAD.

Stella—Did she ask for bread and get a stone?

Bella—She asked for dough and got a solitaire.—New York Sun.

TOYS.
Our toy department is open with full stocks all the year.... Our stocks are by far the largest in this city.

Gottschalk's

Premium Certificates
One with Every 25 cts. You Spend.

To that great community of women whose choice of apparel is governed solely by their individual tastes, regardless of price, as well as to those women whose expenditures have a limit, we send this invitation—Come here and view the splendid, carefully made garments we have assembled in our several departments, we can please you both....There is style, luxury & absolute dependability at prices that show the closest co-operation between manufacturers & ourselves.

Superb Ink-Blue Serges —Suits Worth $25 for $19.75

Choice of nearly one hundred very fine suits priced to us away below their value, and from us to you accordingly..... There are both plain serges, and neat hairline stripes in the popular ink-blue shade. Mannish coat, single or double breasted with patch pocket, lined with Skinner satin..... Skirts are gored and paneled.... Any woman will notice that they are something extra the moment she slips into one of these smooth fitting, natty little coats..... The price, $19.75, is very unusual.

Scotch Mixture Coats

For Misses' 14 to 18, only 13.75

This is the coat the stylish miss is looking for and buying it when she finds it, of rough gray and olive mixtures with wide collar and big gauntlet cuffs ,worth not less than $18, our price, **13.75**

TRUSTEES DECIDE TO LEVEL AND OIL ON BELMONT

Engineer and Superintendent Are Asked to Furnish Cost Estimate.

Permanent Improvement Declared Impossible Until Owners Agree.

An agitation that has been before the city trustees for over six months for the improvement in some manner of Belmont avenue resulted last evening in a unanimous vote on a motion of Trustee Cobb that the city engineer and street superintendent go over the avenue to ascertain for an estimate the cost of levelling and oiling the thoroughfare for its full length from east to west where needed. Trustee Pottle was absent.

Before this motion was made, Trustee Collins moved that Belmont avenue throughout its length be widened to 80 feet from First to Palm and that the entire city be included in a district for the cost of the improvement. There was no second.

The temporary improvement contemplates levelling of the street surface, oiling and then covering the oil so as to give a street that can be travelled over and the dust is laid down. Contractor Donleavy, who laid the sewer will be called upon to level the ridge left on the line of the trench.

The subject came up on the petition of E. A. Fortheamp and others to cause the necessary steps to widen the avenue 10 feet on each side from Fortheamp to Palm.

The discussions lasting over two hours related mainly to that portion of the avenue west of Blackstone and how to straighten the jogs over a comparatively small but thickly settled portion of the avenue varying from 60 to 77 feet between Blackstone and Fortheamp, east of Blackstone the avenue being of a uniform width of 60 feet. Among the property owners that addressed the board were W. M. Harrah, Louis Einstein, James Wilson, S. and H. G. Persons, A. H. Wahlberg, and Messrs. Mann and Easterbrook.

Trustee Collins summarized the arguments when as he stated it appeared that the owners of improved property are those that do not favor the avenue widening, while those that have acreage and unimproved property favor the widening for what the future may bring about in the advancement of their holdings.

Messrs. Wahlberg and Mann brought out one new feature, Mr. Mann representing a frontage of 2500 feet opposite Roeding Park and between the city limits and the cemetery. They stated that out there they favored widening and are ready to give 10 feet for a sidewalk to have a street wide enough for a railroad. They are outside of the city limits so that their readiness to make concessions did not affect the matter before the board.

Louis Einstein advised his neighbors to take up the question in a broader spirit than they have done, and after all the arguments the Mayor again gave it as the sentiment of the board that it has been ready to do something on the avenue but has been awaiting some decision on grading and paving plans, the construction of the sewer and hoping for some solution of the problem with regard to the jogs. As there seemed no likelihood of an agreement, the best that could be done would be to make a good road for a year, because under the present conditions it would be futile to attempt a permanent improvement, when so many conflicting interests and plans are to be placated. The mayor said that the city is ready to do anything reasonable but it is not immediately possible to open and widen the avenue because of the immense expense and the straightening out of the jogs.

During the course of the evening, Trustee Collins suggested that hereafter inspectors be placed to supervise street grading work the per diem fee of $3 to be included as a charge against the property in the costs for incidental expenses. It was thought the charge could be made to include contracts already let. No action was taken.

LICENSES TRANSFERRED

The board granted the application for a transfer by C. L. Meiln of a half interest to Richard Hill of the retail liquor license for 1020 I street, and also Fred J. Stone of the Bodega to Milan, Samuel and Milan Yucovich, Jr.

COUNTY HEALTH LEAGUE IS GIVEN TEMPORARY ORGANIZATION

Dr. Aiken Gives Startling Figures on Diphtheria Epidemic.

W. W. Phillips Announces He Has Enlisted in Fight for Clean City.

W. W. Phillips announced last night that he was enlisted in the campaign of cleanliness against filth when he was chosen temporary chairman of the Fresno Health League at a meeting in Judge Brigg's court. N. J. Levinson was elected as secretary, and a committee was named on permanent organization to report next Thursday evening, at the same place.

The feature of the evening was an address by City Health Officer Aiken who gave startling figures of the toll in money and suffering of unsanitary surroundings.

Dr. Aiken in outlining the work of the city health department was hampered by lack of funds, but chiefly held back because of lack of public support. Generally he divided the work of the city department into the general cleaning of streets and backyards, pure food inspection, especially of milk, work in the public schools, and contagious diseases.

Dr. Aiken said that the diphtheria epidemic of last year started in a filthy fruit packers camp beyond town, resulting in 115 cases, 16 deaths and costing the city $6000. In spite of the fact that contagious diseases can be caught by clean persons, only 15 of the 115 cases were found in homes of proper sanitary surroundings.

The one thing, said the doctor in which the Fresno Health Department had concentrated its efforts was in pure milk and it is recognized that the milk supply here is the best west of the Rocky mountains. Touching on enteric diseases of infants, the doctor said that in 1904, with a population of 18,000, there were 23 deaths of children under 5 years, while last year, with a population of 30,000, there were only 20 such deaths, that is with nearly doubled population there was a fewer number of deaths. For the 10 months of this year, there have been only 10 deaths.

Dr. Aiken said a voluntary organization of the kind proposed to be organized could do a great deal of good, both in educating public sentiments and in actually carrying out work as aid to the Health department.

The health officer commended the use of fly traps, saying computations of the number of flies caught gave most startling results. Each fly caught in the early spring, he said, prevented the propagation of two million flies.

Professor Cochran of the Normal school told of the filthy habits of the fly. Other addresses, chiefly commending the health league idea, were made by Chester H. Rowell, N. J. Levinson, and Dr. Hare.

All present were voted members of the league, and the committee on permanent organization was named as follows:

Rev. Thos. Clayton, W. W. Phillips, N. J. Levison, Dr. G. W. Aiken, Dr. W. P. Miller, Dr. G. A. Hare, Chester Rowell, Mrs. McNulty, Mrs. Aiken, Miss Eugenia Miller.

COMMONWEALTH CLUB TO MEET AGAIN TODAY

Frank H. Short to Deliver Address on Development of Resources.

Frank H. Short will address the Commonwealth club at its luncheon at the Hughes hotel this noon on "Development." In his address, he will deal with the development of the resources of the San Joaquin valley, bringing in reclamation, irrigation, power and other projects. The meeting of the Commonwealth club today will be the first in three weeks but it is expected that the weekly luncheons will be resumed. The luncheon will be given at 12:15 o'clock.

CHRISTIAN MINISTER UNABLE TO BE HERE

Rev. H. O. Breeder Detained in Northern California on Business.

Dr. H. O. Breeder, who was to officiate at the First Christian church tomorrow, will be unable to be in Fresno on that date. L. O. Stephens, who is a member of the general board of the church, yesterday received a telegram from Dr. Breeder stating that the services at Vacaville, Solano county, had been continued but that he would be able to arrive in Fresno before the following Sunday.

Dr. Breeder is fairly well known in this city, as three years ago he conducted revival services at the Christian church here. Dr. Breeder was coming to Fresno to fill the pulpit at the Christian church for an indefinite length of time. If his services are satisfactory to the congregation he will probably be appointed to fill the vacancy made by the resignation of Rev. Roy O. Miller.

FRESNO COUNTY MEN ON RAILROAD BOARD

Tidewater and Southern Is to Increase Directors to Twenty-One.

At the annual meeting of the stockholders of the Tidewater & Southern Railroad, held on Thursday in Stockton, Ward B. Minturn of Fresno was re-elected one of the directors of the company and D. S. Snodgrass, president of the First National Bank of Selma, was chosen one of the members of a committee of fourteen, appointed to act as an advisory committee for the directors.

A recommendation by the secretary that the board of directors be increased from seven to twenty-one members, by amending the articles of incorporation, was unanimously carried. The fourteen men, named as an advisory committee, will be made directors as soon as the articles of incorporation are amended.

Great interest was manifested in the meeting by the stockholders in view of the progress being made in the construction of the railroad. A large force of men is now engaged laying rails through Turlock toward Modesto, while another crew is building culverts and bridges ahead. There is another large force of teams and men completing the grading on Sharp's Lane, preparatory to laying rails from Stockton to Modesto.

The following directors were chosen: Byron A. Bearce, Karl C. Brueck, George F. Schuber and J. L. Craig of Stockton; J. A. Coley of Escalon; T. J. Wisecarver of Modesto and Ward B. Minturn of Fresno.

The advisory committee of fourteen has twelve bankers.—The personnel is as follows: J. N. Stuhr, president of the First National Bank of Newman; E. C. McCullough, president of the First National Bank of Crow's Landing; C. H. Wente, president of the First National Bank of Livermore; D. S. Snodgrass, president of the First National Bank of Selma; P. M. Droge, president of the Bank of Tracy; Claus Johnson, vice president of the People's Bank of Turlock; G. B. Garibaldi, vice president of the First National Bank of Merced; G. M. Colton, vice president of the Bank of Elk Grove; R. B. Tidy, cashier of the San Joaquin Valley Bank of Stockton and W. G. Wallace, also of the San Joaquin Valley Bank.

WHAT WILL BECOME OF INDEPENDENCE LEAGUE?

With Hearst as a Democrat Can His Separate Organization Survive.

NEW YORK, Oct. 20—Wm. R. Hearst's announcement that he was back in the regular Democratic fold caused much speculation in political circles today regarding the fate of the Independence League. This organization was founded by Hearst-and-nominated candidates, supported by him in the last National and State campaigns. The question now is, to what extent, if at all, he will use it in coming political battles.

Mr. Hearst declared himself last night at the opening rally of the local campaign in the first public address he has made since his return from abroad.

"I am speaking" he said, "as a good citizen, I hope, and also as a good Democrat. Mr. Murphy and his kind drove me out of the Democratic party five years ago, but the commendable course of the National Democracy has brought me back into the fold."

He declared he would continue his fight against the "Undemocratic principles" of Tammany Hall, but that the greatest benefit local Democrats could confer on the National Democracy was to free it of the hindrance and handicap of Tammany Hall and Murphy."

Mr. Hearst's audience was composed almost entirely of Republicans and members of the Independence League and his declartaion caused surprise and widespread comment. The fusion movement here with which Hearst's adherents have allied themselves in opposing the regular Democratic candidates to be voted on this fall for the assembly, the judiciary and county officers.

LARNED JOINS ALL-STARS

NEW YORK, Oct. 20.—William A. Larned, former tennis champion, it was announced tonight, has arranged his affairs so that he will head the team which America will send to Australia to regain the Davis cup.

It has been feared that America would be represented in the matches at Christchurch, New Zealand, only by Maurice McLoughlin and Beals C. Wright.

AVIATOR'S BODY SHIPPED.

MACON, Ga., Oct. 20.—The body of Aviator Eugene Ely, who was killed by a fall with his aeroplane here yesterday, was sent to Davenport, Iowa, today.

The cause of the accident has not been ascertained and it is hardly probable that it ever will. The machine was in perfect condition when Ely left the ground with

TEAMSTERS' UNION TO BECOME REALITY TODAY

Charter Arrives in Fresno; Bootblacks and Street Workers to Organize.

The Fresno Teamsters' Union, with a membership of 300, will be installed tonight at Union Hall. Yesterday the charter arrived from the State Federation of Labor, with which the new union will be affiliated. P. H. Seaward, vice president of the state federation, has been instrumental in the organization of the teamsters.

Seaward stated last night that there will be three new unions in Fresno within the next month. The teamsters is one and the others are bootblacks and street workers. The bootblacks, 25 strong, will organize next Tuesday evening in Union Hall. Later in the week, the street workers and basement diggers will gather for the purpose of organizing under Seaward. The membership of the street workers' union will not be known until the prospective members assemble in Union Hall.

FRESNO CHURCHES ARE TO HOLD GIDEON DAY

Traveling Men's Society to Place 800 Bibles in Local Hotels.

W. H. Henderson, national secretary of the Gideons, an organization of Christian Commercial Travelers, arrived in Fresno yesterday and will spend several days in this city in the interests of the Gideon Bible movement, which is country-wide in its scope.

The churches of Fresno will hold a Gideon Day tomorrow, when a general movement will be started looking to the raising of money to purchase Bibles for distribution.

The Gideon Society is now engaged in placing Bibles in the guest rooms of every hotel in the United States. Henderson expects to place 800 Bibles in the guest rooms of hotels and lodging houses in Fresno.

"By placing a Bible in the rooms of every hotel, I can say that we place before the guests a library of sixty-six of the best books ever published," said Henderson yesterday, in speaking of this work.

TO DEDICATE BIBLES

A week from Sunday it is planned to have dedication services when the 800 Bibles to be distributed in Fresno will be formally dedicated to their service. No arrangements have yet been made for the occasion, but in San Jose the dedication service was held in one of the public parks and was followed by a long triumphal procession.

Miles O. Humphreys and A. L. Munger, members of the local Gideon Society, will have charge of the arrangements for securing money to purchase Bibles, and they will attend to the distribution. Each Bible distributed in Fresno will contain a directory of all the churches in Fresno.

When the matter is presented to the churches tomorrow, each pastor will appoint a committee of three to raise money for this cause and to arouse interest in the movement.

Since July 20, the Gideon Society has placed 106,466 Bibles in hotels and lodging houses. California leads in the number of Bibles placed, 25,200 having been distributed in this state.

Henderson took two carloads of Bibles to San Francisco at the time of the International Sunday School convention and distributed 12,000 in the guest rooms of hotels and lodging houses.

He tells of numerous incidents where the presence of a Bible in a hotel guest room has prevented many a man and woman from going wrong, and he said yesterday that an Episcopal clergyman of San Francisco had informed him that he had heard of good being done by the presence of these Bibles in several instances.

RAILROAD TO MODESTO PRACTICALLY ASSURED

Promises of Right of Way on West Side Said to Have Been Secured.

An electric railroad from Fresno to Modesto by way of Kerman and Madera is now practically assured, according to an announcement made yesterday following the departure of M. S. Bruckett, general manager of the San Joaquin Valley Electric Railroad, from this city.

It was further given out that sufficient capital has been secured on the West Side and sufficient promises of right of way have been secured, to make the venture almost a certainty in the very near future.

It is said the purpose in the building of this line is to have a tidewater railroad by way of Stockton and positive assurance is given that the line will be built.

IRON SNUBBING POST FOR PANAMA CANAL

WASHINGTON, Oct. 20—The "snubbing post" with its shining rope worn grooves, familiar to persons who travel on the low path and used to check the headway of barges entering canal locks will be in evidence along the Panama canal route. Like everything else connected with that enterprise the "snubbing post" will be of gigantic proportions and strength. Instead of being of locust or cedar, the Isthmian "snubbing post" will be a cast iron shell one quarter inch thick and of a diameter of from 22 to 26 inches, the interior being filled with concrete.

It would never do to allow a great thirty thousand ton ship to grind along the bare sidewall as the ordinary canal boat frequently does to check its headway in entering a lock or when lying along an approaching wall awaiting her turn to go through.

DIES FROM ACCIDENT.

STOCKTON, Oct. 20. — Frank L. Launmeister, a carpenter, died here today from injuries received when he fell from a scaffolding two days ago.

The Wonder's

Special Line of Five Dollar Hats

We call your attention today to our special line of $5.00 Hats, as we want you to know that you can get a very smart little hat here at this small price.

For exclusiveness, smartness and quality, they cannot be excelled. In fact they are hats that are equal to values up to $9.50. We ask you to inspect them today.

Muslin and Crepe Gowns at 98c

The muslin gowns are made of good grade longcloth, elaborately trimmed with lace and embroidery beading, run with baby ribbon. Some have all lace sleeves.

The crepes are very pretty and serviceable. Trimmed with narrow linen lace run with baby ribbon, colors white, pink and blue. These are unusual values.

Messaline Petticoats 98c

Made of a good grade black and white striped messaline silk. The pleated flounce is 11 inches wide and has very pretty 5-inch Persian border.

$1.50 White Lawn Waists $1.15

On sale today only. Made of a good grade lawn. Trimmed with pretty embroidery and lace. Have the new side effects, long sleeves anad high necks.

Beautiful Reversible Coat $20

Practically two coats in one. The inside can be worn for evening, being a light shade of silk. Outside is of black broadcloth and can be worn for afternoon.

Evening shades are gold, blue, green, old rose and purple.

White Serge Dress $15

Made of fine white serge in a very desirable style. Fastens in front with row of large pearl buttons to bottom of dress. Has round neck with lace collar, long sleeves trimmed with black satin

Special Today!

$20 Grey Mixture Coat $12.75

Very stylish: made of the new rough effect material in black and white. Buttons up high at the neck—has two outside pockets, strap at the back, deep cuffs, and is trimmed with pretty buttons.

$7.50 Grey Mixture Coat $5.95

An excellent value at $7.50, but we will offer them today for $5.95. Made of neat gray mixture material, well tailored. Has three quarter fitting back and is trimmed with large buttons and two outside pockets.

Navy Serge Dress $12.50

A very pretty little dress of navy blue serge. Has row of large smoked pearl buttons all the way down the front. High waist line effect. Round neck with lace collar. Cuffs trimmed with black satin.

Basket Weave Suit $25.00

Made of the new novelty basket weave forming square effects. Is plain tailored — three quarter fitting jacket. Skirt has panel front and back with high girdle effect.

Stylish Grey Suit $35.00

We would call particular attention to the material in these suits, which is a regular men's wear fabric. A little heavier in weight which makes it keep its shape well. A good, plain man tailored suit, Skinner's satin lined.

IN TROUBLE

Isn't it queer that the only two departments of the state government that are constantly at war with the Board of Control are the Secretary of State's office and the State printing office? All the other departments are subject to the same rules and have no trouble abiding by them. In fact, many of the departments had long imposed similar rules on themselves, and in these cases the Board of Control sometimes gets the credit of establishing a system which was practically already in existence. In some other cases, the transition to the newer business methods has made slight temporary inconvenience and friction, but never enough to be serious. Always, it has been found possible to obey the law, to get bona fide bids and to buy of the lowest bidder. Only these two offices find that they can not run at all if they must obey the law and pay only the market price. And perhaps they can't. But, if so, it is by virtue of entanglements which the law does not and should not recognize.

In the case of Shannon, it would seem that his latest move would furnish an opportunity to vacate his office. It was given out some days ago that the state printer had suffered a nervous breakdown from overwork and the worry incident to the investigation of his office, and had been removed to a sanitarium. But no sooner had he arrived at his retreat than the manager thereof gave out the statement that he was not being treated for "nervous breakdown" at all, but for alcoholism. In other words, Shannon was drunk, and had been drunk so much that his friends thought it necessary to have him locked up for protection and treatment. Now, drunkenness may be a disease, but the law treats it as an offense. Certainly no large printing establishment would be left in charge of a man who had to be locked up to keep him sober. The other offenses charged against Shannon are inferential, and not always susceptible of conclusive proof. This is a minor one, but it is definite and can be proved. There ought to be some way, on that proof, to do to a drunken as well as otherwise notoriously incapable and unfaithful public servant exactly what would be done to a private employe in the same circumstances.

THESE SETTLE IT

If there ever was any reasonable ground to dispute the importance of the passage of a presidential preference direct primary law by the coming session of the legislature, that question has been conclusively settled by two amendments just passed—women suffrage and the initiative. No one can pretend that a law is just which leaves the instruction and selection of national delegates to conventions chosen two years ago, now that the electorate has since that time been doubled. And no one can delude himself that the legislature has any choice in the matter, now that the people have reserved the right to pass the law themselves if the legislature does not. This is the legislature which submitted these amendments to the people, and now it can not complain if it is the first to take its own medicine. For that matter, there is no reason to suppose that it does complain. This law, which it is now proposed to amend, was not passed by the present legislature, but by its imperfectly reformed predecessor. This legislature could not undo in one session all the wrongs of all its predecessors, and it is therefore no reproach that this particular reform still remains to be accomplished at the next session. And, anyhow, whether the legislature likes it or not, the law is going to be passed, and the legislature might as well save trouble, as well as gain some credit, by passing it itself.

This initiative really turns out to be a great thing, in preventing political manipulation and forcing all issues on their merits. It has been fifteen years since a legislature had submitted a women suffrage amendment. Now it was already certain that if it had not passed this time it would have been submitted at every election until it did pass. So the legislatures have been very chary of the degree of power they would grant the people in direct primaries. Now it is certain that the coming legislative session will grant a direct presidential primary, and it would be almost as certain if this legislature were a bad one which did not want to grant it as it is with the present good legislature which does want to grant it. The initiative has not been invoked and will not be. It will rarely, if ever, be needed. But the mere existence of it, as a reserved power, prevents legislatures from evading issues, and renders it certain that in determining them it will take a position on which it would be willing to face a referendum. And then, because the initiative and referendum are both there to be used, it will ordinarily turn out that neither needs to be used.

HEALTH LEAGUE

The organization of the Fresno Health League is a welcome and useful step forward.

Fresno is, to be sure, a place in which it is easy to be carelessly optimistic about such things. By the common standards, our condition is good. We have demonstrably the best milk supply west of the Rocky mountains—are, in fact, the only Western city in which nothing but high-grade "certified milk" is permitted to be sold at all. We have, in spite of a hot climate, a phenomenally low infantile death rate from enteric diseases. Our people are prosperous, and there are no crowded slums in which the people are packed beyond the possibility of fresh air and cleanliness. Nature has done much for us. We have so much sunshine and fresh air that we can not go beyond a certain degree of filthiness even when we try, as some of us do. We have a good health board, and good sanitary administration, as far as it goes. Dr. Aiken estimates that perhaps one-fourth of the houses have good sanitary conditions. Another fourth are fair, and half are from poor to bad. That is saying little enough to our credit, but most cities can not say even so much. Our streets, alleys, back yards, and garbage receptacles are nowhere near good enough, but most cities have them much worse. So, if we take standards ready-made, we are doing well enough to make it easy to be careless. The organization of—a health-betterment body is not a revolt against anything intolerable. It is rather a step forward to better things.

But if we take for our standard things as they should be, rather than things as they generally are, the step is not only desirable, but badly needed. There is no section of this city in which sanitary conditions are perfect, and there are sections which constitute a constant menace to the health of all the sections. Clean as the town is, none of it is clean enough, and some of it is much too dirty. Good as the health administration is, it is nowhere near good enough. Much as the schools are doing in the way of training in cleanliness and hygiene, a lot more is needed to be done. Intelligent as the people generally are, in understanding the difference between science and superstition, on health matters, there is far too great a prevalence of both the educated and the ignorant varieties of superstition. In other words we need a higher standard, and some organized way of coming up to it.

VACCINATION FOR TYPHOID.

Is Not Painless, but Reduces Susceptibility to the Disease.

Typhoid fever is prevalent in practically every part of the United States, according to officials of the public health and marine hospital service. In view of the grave danger to life from this dread disease, Surg. Gen. Wyman and his assistants have made a thorough study of the efficacy of antityphoid vaccines, and are advising vaccination as a preventive. They are conservative in their approval of vaccination and advise simply that it is "useful," and they suggest that it in no wise supplants the measure already employed to prevent the spread of the disease. Antityphoid vaccine is not as easily procurable as diphtheria antitoxin and the vaccines for smallpox, and the surgeon general publishes a list of concerns which have been licensed by the Secretary of the Treasury to produce and sell antityphoid vaccine in interstate traffic. The surgeon general is giving publicity to a report of the commission appointed by the Academy of Medicine of Paris to study vaccination in connection with typhoid.

Although the same person may have typhoid fever twice, medical men point out that this occurrence is rare, and, in fact, in Algeria, where the disease is rife, only 1 per cent of second attacks was observed. Vaccination is founded upon the same principle. The process is not painless, and a person who is exhausted or overworked experiences a particularly severe reaction after the inoculation. Nevertheless, the Royal College of Physicians of London concludes that vaccination has reduced susceptibility to the disease and largely reduced the frequency of cases, and is accompanied by no direct danger except a temporary increase in the susceptibility to the typhoid bacillus. Because of the painful symptoms following inoculation, and following a protest of certain medical journals, antityphoid vaccination was suspended for a year in England, but was resumed later in consequence on a very favorable report by the College of Physicians.—From the Boston Transcript.

EXTRAVAGANCE AND DIVORCE.

Money Problem Is a Fruitful Cause of Domestic Infelicity.

Fifty men in Pittsburgh in one day applied for divorce on the ground that their respective wives are extravagant. The majority of these men are in fairly comfortable circumstances, or would be, according to their contentions, if their wives had any idea of the value of money. One, a salaried man getting $70 a week, stated that in a year his wife had bought forty-four hats and twenty-nine gowns, eating up entirely $1000 he had saved besides using up all his salary. Others reported similarly.

The money problem has undoubtedly become one of the principal reasons for dissension in families, and is one of the most fruitful causes of domestic infelicity. An extravagant wife can work havoc with a man's peace of mind, but there are two sides to the story. Many men are not so frank with their helpmeets as they should be. The wife oftimes knows little of her husband's financial condition. She sees the money come in regularly and, feminine-like, argues that there is always more where it came from. In a great many instances, too, men have married women who were accustomed to having more than their husbands can give them.

Where real affection exists reason, of course, can be used. Absolute frankness on the part of a husband may bring to a wife a realizing sense of the wreck she is making of the happiness of both. Where love does not exist the conditions are different and it appears that there is but one of two courses to follow. Either the husband must take a firm grip of the reins himself or they must go their separate ways.

Candor in the first place, however, would save the divorce courts a lot of work. If marriage were looked upon not only in the light of a partnership, for mutual return of affection but as a business agreement as well, and a thorough understanding were reached before the twain were united there would be few requests for divorce in which the dollars and cents figure as the principal cause. But then this may be too much to expect. Love is blind and the sordid, vulgar question of money has no place in the scheme of destiny which the average man and woman figure out for themselves—before marriage. After it—well, that's just what we have been trying to explain.—Philadelphia Enquirer.

THE WAY OF THE RICH

"That overcoat is made out of $5 bills."

"Yes; and when it wears out the old fox takes it to the mint and redeems each bill, thus making the government keep him in coats."—From Life.

BRIEF EDITORIAL FANCIES SELECTED

Japanese Chauffeurs

Wealthy owners of automobiles in Los Angeles are discharging their white chauffeurs, and are having their Japanese servants take the places.

Their declaration that they are forced to do this because the chauffeurs will insist on "joy-riding" in machines not theirs, is considerably weakened by the fact that these millionaire hug-pinchers are getting the Japanese to do double service for one salary—be cook and servant at home and drive the machine when desired.

Out of the parsimony of the pocket the mouth frequently speaketh.—Sacramento Bee.

With or Without

Once more Colonel Bryan rises to remark that he will not again be a candidate for the Presidency, but he neglects to say whether he will insist upon naming the Democratic candidate. If Colonel Bryan follows his usual course of knocking any candidate not proposed by himself, the Democrats may as well give up hope of electing their candidate for President next year. Bryan is strong enough to defeat any Democrat he disapproves of, and it will be quite impossible for the Democrats to elect a candidate who will be known as Bryan's man. It seems to be a case of the devil or the deep sea with our Bourbon friends.—Oakland Tribune.

Women Voting

This thing of mere man undertaking to coach the average woman as to how she shall vote is as superfluous as to attempt to drive snakes out of Ireland or carry coals to Newcastle. The average woman knows as much about voting aright as the average man, and whatever lacking in political knowledge she may have she soon will make up.—Long Beach Press.

Railway Magnates Have New Plan

Railway magnates are supposed to be wise in their generation, but somehow they have yet failed to realize that the people will not be thwarted in their efforts to regulate transportation rates. From Washington comes word that the transcontinental carriers are planning to rob the Pacific Coast and the inter-mountain States of expected benefits from the rulings of the International Commerce Commission in the long and short haul cases now pending before the United States Supreme Court. In the orders to which the magnates object are not annulled they will seek to get around the law by establishing commodity rates so devised as to increase existing charges and assure a return practically equal to that enjoyed by the carriers and suffered by the people before the Interstate Commerce Comission interposed a restraining hand. If the orders at issue are set aside the old discriminatory schedules will be restored.

In such a tangled state of affairs only one thing is plain. Whatever the Supreme Court does there will be more litigation, and while lawyers wrangle and judges split hairs the people must wait for relief from the burdens imposed by a combination of greedy corporations. Yet there must be an end to this juggling. The people are determined to control the railroads, and if they cannot accomplish their purpose in any other way they will surely resort to government ownership.—San Francisco Bulletin.

State System of Highways

California's progressive State administration is now completing its plans for a great system of highways. Such an improvement is desired by the electors of the State, and they so expressed themselves when the matter was submitted to a popular vote. At the time the proposed bond issue hung in the balance it was taken for granted that its object was primarily to give the people of California better highways and thus bring country and city into closer union. Now we are informed by a local newspaper that the sole object which moved rational persons to favor a system of State highways was to attract tourist travel.

Of course, California is anxious to attract tourist travel, but surely this was not the sole object of all or even a majority of the voters who favored a great bond issue for the purpose of giving their State better roads. No one will be more surprised than they by the declaration that they really wanted highways to points of scenic interest and were of the opinion that the building of roads to facilitate the moving of crops to shipping points was to be ignored by the officials who were to decide on the details of the State's highway system. Plainly, those voters expected some immediate benefits. Therefore the State should, and no doubt will, establish a system which will meet with the approval of a majority of the voters. Highways running to scenic points would please tourists in automobiles, but what is needed is highways that will appeal to visitors who are susceptible to inducements to invest their money in California farms or orchards.—San Francisco Bulletin.

Anent Dynamiting

The dynamiting of an employment agency in Spokane immediately following the attempt to dynamite the president's special near Santa Barbara, in the wake of other real and alleged dynamiting cases, should call the attention of the nation to the fact that we have among us some of the very worst anarchists in the world and that such a grave situation requires immediate and grave treatment.

First of all laws should be enacted which will strictly govern the sale of dynamite and other high explosives and the books of those authorized to sell the same should show to whom, when and where it was sold and for what purpose. None should be sold except for stated purposes and then only to responsible parties.

Secondly, special legislation should be enacted to apply to those who are convicted of using dynamite successfully or unsuccessfully. It should be made a misdemeanor for anyone to have such explosives in his possession unless authorized by law.—Porterville Recorder.

LOCATED.

Willis—What became of the fellow who constructed the watch with 10,000 separate pieces?

Gillis—I think I've got one of his automobiles now.—From Puck.

MILWAUKEE HIRES THE RIGHT KIND OF MUNICIPAL EXPERTS

Usually when a city decides to eliminate all unnecessary expenses of government it hires an expert whose principal interest in the matter is to get the greatest possible personal remuneration for the least possible effort. Such an expert, in the words of the Western man who expresses his views in an article in La Follette's Weekly, "is a fly-by-night man who comes when he is called, stays a few days, does his work, departs and sends a big bill by mail for the later astonishment of the common council."

Milwaukee is an exception to the rule. It has made an alliance with the University of Wisconsin through which it gets the services of the best brains of that progressive educational institution as often and as long as such services are needed. Milwaukee has established a Bureau of Economy and Efficiency, headed by Professor John R. Commons, a student of municipal problems, whose published writings were conclusive evidence that he was the master of the subject to which he had devoted his talents.

The new bureau has been in operation only a few months. Among its achievements in that time is the formation of a system for garbage collection which will save the city $16,000 a year, a combined fire and police alarm system which will cut the expenditure for such service almost in half, and a paving system which will result in an annual saving of more than a quarter of a million dollars. And this is not all. The Bureau of Economy and Efficiency is going right down the line, everywhere reducing the cost and improving the service and pointing the way to reforms which, if adopted, will give Milwaukee the cheapest and most efficient government of any city in the United States.

In the long list of subjects taken up by this bureau are garnishment of wages, women's wages, free legal aid, accidents to workers, housing conditions, administrative organization, water works efficiency, water rates, organization of the public works department, street construction, street cleaning, construction and operation of sewers, management of public structures, purchasing methods, public recreation and amusement, licenses and permits, health and sanitation, milk supply, sanitary inspection, communicable diseases, infant mortality, foods, municipal education and free employment agencies. Nothing is to be overlooked. Milwaukee's municipal experts are making every branch of the people's business their business, and if the people do not profit by their work and recommendations it will be the people's fault, not theirs.—San Francisco Bulletin.

VIRILE CHARACTER OF ENGLISH COMMON LAW IS DEFENDED

Sir Frederick Pollock, in his sixth lecture at Columbia University, entered a vigorous protest against the assertion that the common law has not been a success when compared to other systems of law. He said that the most ancient system of law had overcome all obstacles in England, later forming alliances, and still later starting out on a conquest of assimilation in the colonies, and also legal systems of this country. The lecture was entitled "Alliance and Conquest," and the speaker said, in part:

"The common law, like the English language, contains a great deal of mixed and composite material, but has an individual structure and a character which are all its own, and also like the English language, has on the whole had the best of it in competition with rivals. There is no case, I believe, of the common law having lost ground in the presence of another system, while there are certainly many cases where it has gained, and the question is forced on an inquiring mind, to use the words of a recent ingenuous writer, 'To what is due the superiority of the Anglo-Saxons?'

"We can surely not be content to say that it is due to the intrinsic virtues of our race or altogether to the superior justice of convenience of our rules. The fact remains that the common law shows assimilative power, which, to all appearances, grows by what it feeds on. Therefore it must have started, even in its rude infancy, with some definite advantage. The suggestion I am about to put forward does not purport to give a complete explantation, but I hope it is sound as far as it goes.

"There seems to be no doubt that English criminal jurisprudence has an attractiveness which goes beyond the merits of its particular rules, and cannot be explained by purely judicial reasons. Questions as to the rights of the citizens and the powers and duties of the magistrates may arise in almost any kind of contention, proceedings, and, in fact, are not infrequent in civil jurisdiction. But in criminal matters they are often the only or the principal material issues; they involve graver consequences, and are presented with a more dramatic emphasis. Our fathers labored and strove chiefly to work out their ideals of public law and liberty which are embodied in the bill of rights and are familiar to American citizens in the constitutions of the United States and their several Commonwealths."—From the New York Tribune.

NEWSPAPER GOOD FAITH IS RARELY VIOLATED BY REPORTERS

When William E. Curtis died in Chicago this week at the age of 61, the thing which seemed most important in his life, crowded with incident, was that while he was still a stripling, a Missouri outlaw and desperado "took his word" as a newspaper reporter, when at the time it was a matter of life and death for both desperado and reporter.

This is what Jesse James thought of the good faith of the "newspaper business." It is a matter of Missouri history that after the worst faith possible failed to rid Missouri of outlawry, the confidence of outlaws in good faith of a newspaper writer they had never seen was decisive. It was the word of the late Frank H. O'Neil, who died in the service of the Post-Dispatch, on which the last member of the James gang relied for fair play when it was advertised that large sums of money would be paid for him, "dead or alive."

If such instances are no longer modern they do not seem exceptions to the rule of public confidence in the faith of newspaper writers. There are lamentable exceptions, as the public knows. But the public knows they confirm the rule of good faith.

No one needs to be told newspaper shortcomings. There are more than enough of them. Let them have all the publicity; it is "newspaper business" to give everything which can be given the public in "good faith." But men who can deserve the confidence the public feels in newspaper good faith, can also feel confident that no matter what is said of them, the public is not readily undervaluing them on their merits.—St. Louis Post-Dispatch.

PURE FOOD PROBLEM

Foreman in a reduction works is supervising a mixture of hoofs of horses and mules, horns of cattle, and fish scales. Pure food inspector drops in.

Inspector. What are you making?

Foreman—Can't say, till the firm gives me the labels, whether it is fertilizer for farmers, glue for furniture makers, or jelly for sick people!—New York Press.

PROPER TREATMENT FOR CATARRH

The first thing to be done in the treatment of Catarrh is to begin the use of a medicine that will have a direct effect on the source of the disease; in no other way can any curative progress be made. S. S. S. does this more quickly and satisfactorily than any other medicine. It is the most penetrating of all blood purifiers, thoroughly, yet gently, expelling all catarrhal matter and impurities from the circulation, and by its fine tonic properties strengthening and building up the system in such healthy manner that it is enabled to overcome the depressing effects of Catarrh. Some local treatment is often desired to open the air passages of the head and rose and relieve the congestion and "tickling" of the throat, and other unpleasant symptoms. There are many helpful measures which may be resorted to, and there are others which may be harmful, and to aid Catarrh sufferers we have prepared a special treatise on the disease which will be of great value to any who suffer with this trouble. This book together with any medical advice free to all who write and request it. Take S. S. S. regularly and according to directions, and it will certainly remove the cause and cure your Catarrh. S.S.S. is sold at drug stores.

Soda crackers are more nutritive than any other flour food. Uneeda Biscuit are the perfect soda crackers. Therefore, Uneeda Biscuit.

Five cents spent for a package of Uneeda Biscuit is an investment—an investment in nourishment, in health, in good eating.

Though the cost is but five cents, Uneeda Biscuit are too good, too nourishing, too crisp, to be bought merely as an economy.

Buy them because of their freshness—buy them because of their crispness—buy them because of their goodness—buy them because of their nourishment.

Always 5 cents. Always fresh and crisp in the moisture-proof package. Never sold in bulk.

GENERAL CONDITIONS

Over the western portions of the country there has been no material change in the relative positions of high and low barometric areas with the result that fair weather has continued over the Pacific states and intermountain region. This morning's reports given no evidence of any disturbance off this coast, in fact the pressure has risen considerably in California. Fair weather has also prevailed over most of the country east of the Rocky mountains attending a general rise in pressure and the passage to sea of the New Jersey depression. It is cooler over the great plains and the first killing frosts of this autumn are reported from Nebraska and the Dakotas. The temperature continues below the freezing point over the plateau, Rocky mountains and Canadian provinces to the north.

The pressure distribution on the Pacific coast this morning favors generally fair weather for tonight and Saturday, probably with some cloudiness at intervals.

W. E. BONNEFT, Local Forecaster.

LOCAL BREVITIES.

Harry Boyce was arrested at midnight by Patrolmen Pickens and Morris on a charge of vagrancy. According to the police Boyce is wanted on several charges and the police detectives will investigate his record this morning.

John W. Wise, native of Pennsylvania, aged 63 years, died last night at his home at 204 Sarah street. The remains were removed to Beall Bros.' parlors and the funeral arrangements will be announced later. The deceased leaves many relatives in this city.

Sparks from electric wires last night started a small fire in an automobile owned by T. C. White of 1559 I street. The auto was only slightly damaged as the small blaze was soon extinguished. White was passing the Hughes hotel at the time and an alarm of fire was turned in from Box No. 5.

Depositions have been received of Alonzo Griffin, J. A. Cross and Samuel Flores in behalf of the defendant, from Aberdeen, Wash., to be used in the case of H. A. Moore. The latter is awaiting trial on a charge growing out of alleged false representations made in the sale of town lots at Trinidad, Oregon.

The Union Co-Operative Association of Fresno yesterday filed articles of incorporation with a capitalization of $300,000 in 20,000 shares and $890 subscribed. O. V., and George C. Cobb hold each 12 shares, George H. and J. W. Wilson 10 each and Nick Fitzgerald 5 shares. The corporation is formed for investment purposes.

Petition was made yesterday for a reprobating of the will of Christina Miller, who died on May 9, 1907. Heirs are a son of Los Angeles and two daughters resident here. The reprobating is necessary to correct irregularities in the estate proceedings which make it impossible to pass title to lots in Banta's addition to Fresno.

PERSONAL MENTION

W. E. G. Saunders is in Los Angeles on a business trip.

H. V. Payker, department commander of the California and Nevada G. A. R., has returned from an extended trip through the East, following the national encampment of the G. A. R. held at Rochester, N. Y.

MARRIED

HARTMANN-STEITZ—At the German Lutheran church, Fresno, October 19, 1911, David Hartmann and Catherine Steitz, Rev. Hoernicke officiating.

DIED.

CASPARIA—In Fresno, at 242 C street, October 20, 1911, infant son of A. Casparis, a native of California, aged 3 days.

Funeral was held yesterday from Beall Bros.' chapel.

WISE—In Fresno, at 204 Sarah street, October 20, 1911, John W. Wise, a native of Pennsylvania, aged 63 years.

Funeral notice later.

BIG CROWD HEARS GOOD SERMON BY REV. BEAL

No Services Will Be Held at North Side Church This Evening.

The subject of the sermon by Charles Laurant Beal at the North Side Christian church last night was "Figs or Thistles." He said in part:

"My text tonight is found in the Gospel according to Matthew, seventh chapter and sixteenth verse—Do men gather grapes of thorns, or figs of thistles? Even a child knows they do not. If men could get grapes from thorns they wouldn't take the trouble to cultivate vineyards. If figs grew on thistles I wouldn't have to pay eight cents a pound for them. What an absurd question. All people get from thorns is scratches, and as for thistles, they seem to have no purpose except to worry farmers in whose fields they grow.

"And yet Jesus gave his hearers to understand that he was even then talking to people who were expecting as absurd and as impossible a thing to happen. That is to say that there were people who thought, or at least their actions indicated that they thought, they could sow one kind of a life and reap another. They were spending their time and efforts in securing all the pleasure they could for themselves without regard to any one else and still proclaimed with pride that they were the chosen people of God and would continue to receive abundant blessings from heaven. Jesus warned them to be beware, as they were not deceiving God and when the time came to settle accounts they would be utterly destroyed.

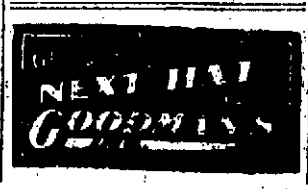

"If there ever was a time for the people to realize their true condition it is today. A worldly and selfish father seems surprised to find his children wild and reckless, while his neighbor's family seem so obedient and industrious. The mother who spends her time in society functions and card parties wonders why her children show her little respect and love. Young men and women are wasting time and strength in selfish worldly pleasures and seem to think they will escape the pain and heartache that always results from that kind of a life.

"God promised a heavenly home to those who are qualified to occupy it. When we find a tree on our place that is producing no fruit we cut it down and plant another. Yet a good many people seem to think God will transplant their fruitless lives from the garden of earth to the garden of heaven. But Jesus said, 'Not every one that saith unto me, Lord, Lord, shall enter into the kingdom of heaven, but he that doeth the will of my Father.' The awful harvest that this worldly generation is going to reap makes me cry out, 'Repent! Repent! Before it is everlastingly too late!'"

There will be no services tonight.

DISMISS CHARGES AGAINST STRIKERS

Upon motion of Attorney L. L. Cory for the prosecution charges of cutting the air hose on Southern Pacific cars, was yesterday dismissed against David Wright and J. H. Conn, by City Justice Graham. Attorney Cory expressed doubt as to the guilt of the defendants. Conn and Wright were arrested on complaint of Special Officer Ady of the Southern Pacific. The men at the time of their arrest denied their guilt. They were represented in court by Attorney D. T. Winne.

MEMBERSHIP CAMPAIGN IS INAUGURATED AT Y. M. BUILDING

Attempt Being Made to Bring 100 High School Boys Into Ass'n.

Orange and Gold Teams Will Be Hosts at Meeting This Evening.

A campaign to add more members to the Young Men's Christian Association of this city from among the Fresno high school students was inaugurated last night at the association by a banquet which was attended by fully seventy-five high school boys who are at present members of the association. Plans in general were discussed around the banquet table by the boys and W. D. Eastman, general secretary, made a few remarks and told the members of the contesting teams what was expected of them. Leaders of the teams made short addresses.

Immediately following the banquet the members of the six teams went to different parts of the building were in secret they discussed and made plans for the membership campaign. The campaign will be started early Monday morning and will be brought to a close Friday night at 9 o'clock at the association will also be thrown open to the general public next Tuesday night. It is estimated that there are about 300 boy students in the high school out of which number only 100 are members of the Y. M. C. A. It is the purpose of the campaign to add 100 more boys from the high school to the association and the boys of the various teams will wear buttons on which will be printed "H. S. 100."

Members of the team which brings the largest number of new members into the association during the campaign will be the guests at a banquet which will be given in their honor by the officials of the Y. M. C. A. Members of the various teams bringing new members into the association will be given one additional month on their membership card for every new member.

Tonight members of the Orange and Green teams will be the hosts at an evening house meeting at which every one is invited to attend. The following program will be carried out: basket ball by picked teams, hand ball by picked teams, wrestling match, sparring match and swimming exhibitions.

Following are the members of the various teams: Arthur Clark captain Red team: James Cutten, James Ralston, lieutenants; Roscoe Chandler, Lewis Moore, Herbert Jones, John Wheeler, Carl Ellithorpe, Byron Stebbins, Chestr White, Elwin Thornburg, Harold Shuck, Geo. Kemper, Paul Havener, Truy Murrill, Beverly Cutten, Claude Wilson.

Malcolm—Crawford, captain, Blue team: Louis Dodge, Fred Prescott, lieutenants; C. J. Owen, Revere Fisher, Eugene Bolton, Dresser Fuleston, Floyd Williams, John Haws, David Kamp, Wallace Farnshill, Robt. Correll, Emery Epperson, Harold Severns, George Wolf, Warren Johnson, Dilworth Pederson.

Roscoe Chandler, captain Green team: Ray Wakefield, Neil Keefer, lieutenants; Phillip Dieh, John Malcolm, James Bonnar, Fred Twinning, Cecil Lyons, Herbert Buchanan, Carl Stockholm, Ward Whitten, Kessler Hammond, C. Eichelberger, Willard Streatton, Julio Millar, Henry Waldron, Dick Olufs.

Victor Gede, captain Black team; Lyman Edgerly, Irving Toomey, lieutenants; Ralph Lingle, Robt. Nichols, B'anchard Johnson, Walter Harrel, Clarence Cowan, Frank Jack, Chas. De Toy, Harold Maxwell Walter Uridge, Bryan Grimmer, Geo. Benson, Bryant Pollard, Roy Bagby, Guy Bishop.

Will Hunter, captain White team; Geo. Hopkins, Homer Geese, lieutenants; Loyd Colt, Clifford Warner, Herbert Dunn, Glenn Hannar, Ernest Collins, Lloyd Austin, Clyde Beatty, Laurence Patterson, F. E. Torbit, Philip Gordan, Floyd Clapp, Wayne Clanton, Fred Michaelian, Ellsworth Wakefield.

Ray Prior, captain, Orange team; Frank Everts, Newton Byrd, lieutenants; Fred Tust, Raymond Lewis, Ed Gundelfinger, Guy Miller, Mark Whitney, Douglas Bridge, Irving White, Earl Washburn, Harry Sample, Claude Epperson, Earl Gearhart, Filmore Sample, Hugo Johnson, Wallace Hills.

WHAT'S BECOME OF MARCUS POLLASKY?

Lawyer Huebner Wants to Locate Him for Service of Summons.

Attorney F. C. Huebner secured yesterday orders for the publication of summons in two suits of J. M. Mendell to quiet title to town lots, with the last known directors and trustees of the San Joaquin Valley Railroad Company as among the defendants. Among the defendants to be haled into court by publication of summons are Marcus Pollasky and Arthur S. Clerk. Attorney Huebner submitted affidavits showing that he had consulted with a number of the oldest inhabitants and has been unable to locate the present whereabouts or residence of Pollasky, the promoter of the so-called Pollasky road, and last heard from as in Chicago, Ill., nor of Clerk, who ten years ago was with the Fresno Canal and Irrigation Company, but removed to San Francisco. A directory of 1903 did not help out Attorney Huebner save to start him on a false clue to find an Ira Clerk, who had never heard of an Arthur S. Clerk from Fresno. That a man who at one time was so much in the limelight as Marcus Pollasky should be lost to human ken in a few years is the feature brought out most strongly in the Huebner affidavit. As regards the railroad trustees, the only clue was as to their town residences in Eastern states, according to the articles of incorporation of fifteen or more years ago.

SCHOONER IN ACCIDENT

SAN FRANCISCO, Oct. 20.—The steam schooner Quinault, which left San Francisco late yesterday afternoon for Willapa harbor, struck a reef near Dreggs Bay at 9:30 o'clock last night and was temporarily disabled.

The lives of the nineteen members of the crew were in danger while a rudder was being improvised and the schooner steered into Drakes Bay where it is now anchored. The tug Dauntless left San Francisco today to tow the Quinault back to San Francisco for repairs.

SOCIETY

A delightful surprise was received by Fresnans yesterday, and particularly the younger set, in the announcement of the engagement of Miss Gladys Ostrander, a former Fresno girl, now residing in Berkeley, and Harvey Ghirardelli, of the well known Ghirardelli family of San Francisco. Miss Ostrander was a popular member of the local chapter of the Lambda Theta Phi Sorority, and it was a matter of regret, when the Ostranders moved to Berkeley. The following Berkeley dispatch tells the story:

Miss Gladys Ostrander, the beautiful daughter of Mr. and Mrs. F. G. Ostrander of this city, announced her engagement to Harvey Ghirardelli this afternoon at a card party given in honor of Miss Sheryl Merrill, the fiancee of Professor Richard Scholz. Ghirardelli is the son of the late Louis Ghirardelli and Mrs. Ghirardelli of Oakland. Both young people are former students of the University of California, and the romance had its beginning on the campus, where the couple have scores of friends. Ghirardelli recently gave up the college to enter business life. While at college he was active in the affairs of the Sigma Nu fraternity, while his fiancee was prominently identified with the affairs of the Alpha Phi sorority.

Miss Merrill, the guest of honor at the announcement party, is a graduate of the State University, and one of the most popular girls in college affairs. She is a sorority sister of Miss Ostrander. Miss Merrill's wedding to Professor Scholz will take place about December 7th, and the wedding of Miss Ostrander to Ghirardelli will also take place in the same month. Among the guests at the affair today were Miss Elva Ghirardelli, Miss Juanita Ghirardelli, Miss Carmen Ghirardelli, Miss Aimee Jorgensen, Miss Janey Torrey, Miss Marjorie Cook and the members of the Alpha Phi sorority.

* * * *

Mrs. Harold Leggett has as her guest for a few days, Mrs. James Brown, Mrs. Brown was formerly Miss Marequita Kirby, of Fowler, and since her marriage has spent most of the time in Boston. At present she and her little son are enjoying a visit at the home ranch near Fowler, and it is possible that Mr. and Mrs. Brown may establish their residence in Fresno.

* * * *

Miss Helen Clark, who has been spending a number of weeks in Fresno, as the guest of her aunt, Mrs. Frank Lyman, will leave this evening for her home in Columbus, Ohio. Miss Clark has been the inspiration for a number of delightful affairs during her visit here, and it is with reluctance that this popular visitor leaves her many friends in sunny California.

* * * *

Mr. and Mrs. A. S. Chartrand are sojourning for a short while in San Francisco.

* * * *

Miss Gertrude Swift is issuing invitations for a luncheon on next Saturday, at her home on M and San Joaquin streets.

* * * *

Hallowe'en affairs are cropping up on all sides, the latest one to be heard of being that to be given on next Friday evening in Fowler under the auspices of the Fowler Improvement Club. Kirby Clarke, the Ned Greenway of Fowler, is at the head of the managing committee. A number of Fresno people will motor out to Fowler for the evening.

* * * *

Mrs. A. G. Wishon is spending the week-end with friends in Exeter.

* * * *

The Friday Afternoon Card Club was delightfully entertained yesterday afternoon by Mrs. Charles H. Riege at her home on K street. Bridge in all its fascination absorbed the earlier part of the afternoon, the sessions at the card tables being followed by the service of delicious refreshments. The round table in the dining room about which the guests were seated was prettily ornamented with autumn leaves and roses of a dainty pink coloring.

Mrs. William J. Cleary, and Mrs. William W. Craycroft were the substitutes for the afternoon, the dainty cup and saucer given as trophy for the afternoon's playing being captured by Mrs. E. E. Manheim.

* * * *

Mrs. Truman G. Hart and Miss Cora Trowbridge will entertain about thirty friends today at a buffet luncheon, complimenting Mrs. John Sturk of Omaha, Nebraska.

* * * *

Friday afternoon seems to be very popular for the meeting of clubs and sewing circles, and yesterday afternoon scheduled two gatherings of the latter description, Mrs. Ralph Aten being the hostess at one, while Mrs. Willard Bates, entertained another group of congenial young matrons.

* * * *

The Friday Study Club met with Miss Ruth Dickenson at her home on Glenn avenue, and, devoted the afternoon to the study of German geography and history of the twelfth and thirteen centuries in preparation for the Nibelungenlied, which they will study later.

Mrs W. P. Miller will be with the club at its session, and will continue in her presentation of "Faust."

* * * *

Mr. and Mrs. George P. Beveridge will be the host and hostess at their annual "Joy-feast" on Hallowe'en night. The affairs are anticipated greatly by the invited guests, the quaint Scotch customs being extremely interesting to the American contingent.

* * * *

Mrs. Thomas W. Patterson is at home again after a sojourn of several days in the Bay cities, including a visit to Miss Dorothy, who is one of Miss Ransom's students in Piedmont.

* * * *

Mr. and Mrs. W. B. Holland are once more established in their Forthcamp Avenue home after a delightful tour of the eastern states during the summer and autumn months.

* * * *

Mr. and Mrs. W. J. Dickey, of this city, and their two children and nurse are at the Hotel Astor, New York, having returned a week ago on the Lusitania after a three months' visit to Europe, where Mr. Dickey took the cure at Bal Maubelm. When coming East, Mr. and Mrs. Dickey had their automobile shipped to Chicago from which place they motored to the Eastern states, where they passed several weeks touring the summer resorts of New York and the New England states. Mrs. Dickey says that in all their travels they have found New York City about the best summer resort of them all.

* * * *

The ladies of St. Paul's M. E. Church held a successful first day of their rummage sale yesterday, and will continue the sale for several days. The location is excellently chosen, being on J street between Kern and Inyo.

* * * *

St. Margaret's Guild of the Episcopal Church will hold a delicatessen sale this afternoon at the home of the Guild's president, Mrs. E. A. Walrond, 1743 L street. Each girl has been asked to make some article of cooked food, in which she is especially adept, and a lengthy list of tempting articles will be displayed. Tea and wafers will be served during the afternoon.

* * * *

The younger branch of the Tokalon Club enjoyed a jolly little banquet last night at the Y. W. C. A. rooms on I street. The remainder of the evening was informally spent.

* * * *

Mrs. S. P. Glasgow has as her guest, Mrs. Clara Castlemen, of Stockton.

* * * *

An informal reception was tendered Rev. Samuel Hughes, of the Grace M. E. Church last night, upon his re-appointment to this pastorate at the recent Methodist conference held at Los Angeles. An impromptu program was the principal entertainment for the evening, the list of numbers including recitations and musical numbers.

* * * *

Mrs. Lawrence Bunker Morton and little daughter, accompanied by the former's mother Mrs. Led Winchell, left yesterday for their home in San Francisco, after an enjoyable visit with friends in Fresno. Mrs. Morton was Miss Adele Winchell before her marriage.

* * * *

Mrs. Alva Posner was the hostess at a jolly sewing bee yesterday afternoon, at her cozy apartments in the St. Andrews. The dainty sewing bags furnished the entertainment and at the later part of the afternoon, tempting refreshments were served.

The guest list included Mesdames Floyd Burks, M. Sater, Frank McMahon, F. Lawrence, White Frank Reilly, William G. Wharton. Misses Clara Granz and Floy Long.

* * * *

Mrs. T. J. Bowen and Louis M. Kilner were the complimented guests at a very successfully arranged surprise party on Wednesday evening, given at the home of the former on Nielsen Avenue. The occasion for the affair was the joint celebration of the birthdays of the two guests of honor, and an enjoyable evening of informality was indulged in, concluding with the serving of refreshments.

In the party were Mr. and Mrs. Lovell, Mr. and Mrs. J. H. Kilner, Mr. and Mrs. Kolmann, Mr. and Mrs. J. J. Bowen, Mr. and Mrs. Goodwell, Mr. and Mrs. Tedric, Mr. and Mrs. T. J. Bowen, Mrs. A. A. Holmes, Mrs. Glenley, Misses Nora Bowen, Lela Bowen, Jessie Bowen, Mary Bowen, Mary Turner, Annie Hanson, Carrie Hanson and Emma Kolmann, and Messrs. Ralph Kilner, Louis Kilner, Fred Kilner, W. L. Bowen, Garland Bowen, Tollie Bowen, Cecil Bowen, Perry Bowen, Herbert Bowen, Homer Brown, Bertie Nelson, Otto Kolmann, Emil Kolmann, Harold Holmes, Kenneth Holmes, Frank Marberry, and Leland Vorce.

* * * *

Mrs. A. B. Smith, entertained very happily for her little daughter Violet on Thursday afternoon, celebrating the youngster's sixth birthday. Games and music furnished entertainment until the most important part of the afternoon when refreshments were served, and the big birthday cake cut. In the party were John Winblad, Allen Kerr, Ruth Coppin, Bernice Wilson, Ruby Paddock, and Harriet Compton.

TRAVELERS ASKED TO ATTEND Y. M. MEETING

New Yorker Here to Place Bible in Every Room in the Hotels.

Members of the Young Men's Christian Association are asking the Commercial Travelers to be their guests at their men's meeting Sunday afternoon at 4 p. m. in their building to listen to an address on the topic "My Traveling Companion," which will be delivered by W. E. Henderson, national secretary of the "Gideons," a commercial travelers' association, with headquarters in New York.

Henderson is in Fresno for the purpose of having placed in every room in every hotel and rooming house of any size a Bible. This will make something over 800 Bibles. All men are invited to be present on Sunday afternoon to hear this strong speaker. Miss Myrtle Paris will sing during the meeting.

Fellowship lunch will be served at the close of the meeting, after which the Long Table Discussion Club will take up the discussion under the leadership of E. W. Lindsay. "The Young Man and His Friends" is the subject. Strangers are especially invited to be present at the lunch and long table class.

ANOTHER $10,000 GOES INTO TREASURY

Tax Collector Has Helped Out Available Funds By $30,000 Cash This Week.

Tax Collector Smith is helping out the county and city treasury with cash remittances through the banks out of the daily accumulations of tax money payments. He paid in another $10,000 yesterday, making a round $30,000 paid in this week. The city is particularly interested in these cash payments, enabling it to meet long held up claims for supplies furnished.

Yesterday was another heavy day for collections, the total being $10,814.06 for the office hours between 2 o'clock on two days, the hour named being the one when bank deposits are made. The collections were made up as follows: State and county, $5,473.22; Fresno city, $3,045.55; Selma, $257.10; Coalinga, $1,569.45, and Kingsburg, $103.74.

Among the individual large taxpayers yesterday were these: California National Supply Company of Los Angeles, $1,427.76; Ben Epstein, $886.23, and Sig Wormser, $557.79.

Y. M. C. A. MEETINGS AT EASTON SUNDAY

Churches Will Unite to Hear Addresses By Officers of County Union.

The Easton churches will devote tomorrow in considering its young men, under the direction of the County Young Men's Christian Association and under the personal supervision of S. Warren Douglas, County Secretary. In the morning the three churches will hold Y. M. C. A. meetings at which the speakers will give an outline of the work carried on by that Association the world over, the speakers being S. Warren Douglas, County Secretary of Fresno and C. Gaines, chairman of the County Y. M. C. A.

In the afternoon at 2:30 there will be a Union meeting held in the United Presbyterian church, the speaker for the afternoon being W. E. Henderson, Executive Secretary, of the "Gideons." He will speak on the topic "The Difference." In the evening a Union meeting will be held in the Easton United Presbyterian church at which the work of the County Young Men's Christian Association will be presented under the direction of the county secretary. Various members of the county committee will assist in the services of the day.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhoea Remedy the world would be much better off and the percentage of suffering greatly reduced," writes Lindsay Scott of Temple, Ind. For sale by all dealers.

SAYS GOOD ROAD NOW TO NEW IDRIA MINES

Mendota Objects to Plan to Build New Highway From Coalinga.

Editor Republican:—Referring to an article in your paper of this morning, stating that the Chamber of Commerce of Coalinga is urging a county road to be built by Fresno county from Coalinga to the Idria mines in San Benito county, exception is taken to their reasons as follows:

First. The statement that the Idria mine employs 500 men is very much exaggerated, as less than half that number are employed.

Second. The distance given from Coalinga to the Idria mine as thirty-five miles should read forty miles.

Third. The statement that the distance from Idria to Mendota is fifty-five miles is likewise incorrect; the actual distance from Idria to Mendota is but thirty-eight miles, and a good road is already established.

Mendota is the nearest and most convenient place, or outlet, for the people at the Idria mine, both as to passenger travel as well as freighting. A few hundred dollars spent annually on the road, from here to the county line of San Benito county, ten miles this side of Idria, will keep the road in good shape and retain the trade from Idria, both for Mendota and Fresno, while all money spent on a road from Coalinga to Idria would but in a small degree, aid Coalinga trade.

The Idria Quicksilver Company and other companies developing oil in the vicinity of Idria have at their own expense built and now maintain the road from India to where the San Benito county road joins Fresno county, and hence are not likely to adopt a longer distance of hauling freight, or paying a larger sum for railroad travel, and paying an increased freight charge.

ISAAC MEYER.

Mendota, Oct. 19, 1911.

RAILROAD WILL BOOST CALIFORNIA'S RESOURCES.

Motion Pictures to Show What State Has to Offer at Chicago.

The Southern Pacific Company is preparing for the exertion of unusual efforts to exploit the resources of California at the United States Land and Irrigation Exposition in Chicago next month.

Arrangements were made yesterday by the passenger department of the railway whereby it secures a lease of 3000 square feet of space at the exposition, which will be used for moving-picture illustrations of California views and for lectures to be given upon the natural advantages of the state. In addition, the Southern Pacific has offered to transport the exhibits of any counties in the state to and from the exposition free of charge.

Mr. W. S. Gunsalus, a farmer living near Fleming, Pa., says he has used Chamberlain's Colic, Cholera and Diarrhoea Remedy in his family for fourteen years, and that he has found it to be an excellent remedy, and takes pleasure in recommending it. For sale by all dealers.

House of comfort, Hotel Manx, the popular headquarters for Fresnoites while in San Francisco.

News From Central California

COALINGA ELKS PLAN WILD GAME BARBECUE

Big Affair Will Be Held in Ochs Ranch in Jacalitos Canyon.

COALINGA, Oct. 20—The committee of Elks is arranging for the big wild game barbecue for the Elks and their lady friends Sunday at the Ochs ranch in the Jacalitos canyon. The Elk hunters have been going out daily with their guns and bags and bringing the latter home filled to overflowing with ducks and quail and the guns blackened with powder. There are at present nearly 100 large fat ducks in cold storage waiting the hot irons and the forks of the steward. An automobile load of hunters went out again this evening for the purpose of swelling the mess of quails so that each one who attends the big feed will have an opportunity to have all he wants of the luscious birds. A large order of clams in the shells has been received from San Francisco and while the game is simmering over the glowing coals the shell fish will be roasting over big fires. There will also be an abundance of barbecued beef and plenty of coffee and other refreshments.

Those who are in charge of the entertainment have been whispering among themselves very mysteriously and it is expected that the entertainment committee will pull off something for the amusement of the pit likers that will make the day's outing long to be remembered. They say that the stunts that will be indulged in will be of the most amusing and exciting nature and something that the ladies as well as the men can enjoy.

Free automobile transportation will be furnished to those who desire to attend and will leave the Pleasant Valley hotel at 12:30 and 1:30 Sunday returning again to Coalinga before dark. Every Elk in the community and his wife sister, mother or sweetheart will be in attendance and preparations are being made to accommodate upwards of one hundred.

It is a common saying that wherever there are a bunch of Elks gathered together there is a good time in evidence and it is not amiss to say that those who attend the outing Sunday will have the time of their lives.

SANGER TRUSTEES NAME NEW MARSHAL

SANGER, Oct. 20.—At a meeting of the city trustees last evening the resignation of G. B. Campbell, city marshal, was accepted and J. H. Garrison was appointed to his place. Mr. Garrison who assumes his duties on November 1, is well known and is regarded as a good man for the position.

C. R. Garrison has moved but of town, leaving the office of chief of the fire department open. Will Epps was appointed to succeed him. Epps has had much experience as a fireman in Sanger.

DR. BURKS MAKES VISIT TO SANGER

SANGER, Oct. 20.—County Health Officer W. F. Burks visited the high school yesterday. About fifty of the students have been vaccinated satisfactorily and certificates to that effect were given them. He left blank certificates for those who had not been vaccinated, which must be signed by the parent, stating that they are conscientiously opposed to vaccination. Those who have not been vaccinated must leave school when an epidemic breaks out. While in Sanger the health officer ordered several property owners to clean their premises of rubbish.

RABIES OFFICIALLY DIAGNOSED IN CASE OF WANDERING DOG

PORTERVILLE, Oct. 20.—All doubt of the existence of rabies in this community was dispelled today when a message was received from the hygienic laboratory of the state university stating that a skull sent in from this city by Dr. A. F. Lang contained the negri bodies and that the animal was affected beyond question.

That this is a serious situation is shown by the fact that the dog was the property of Chas. Jackson of the Lindsay district and the beast was captured in Springville, after it had been seen swimming about in various portions of this district. How many dogs have been bitten by the rabid animal no one can say. The matter has been brought to the attention of the city council and action will probably be taken looking to ordinances to cover the situation.

ARTICLES ARE FILED FOR LABOR TEMPLE

BAKERSFIELD, Oct. 20—The Bakersfield Hall association, an industrial and social organization, formed by organized labor of Kern county for the purpose of erecting in the not distant future a labor temple, filed articles here today. The organizers are given as Clive Trustee F. L. Gribble, who is past president of the labor council, Wallace Watson, formerly business agent for the carpenters' union; J. H. Dupes, city building inspector; W. H. Connor, J. M. Dupes, C. W. Beardsley and J. L. Love. All are prominent in the local labor world.

WATKINS IS GIVEN YEAR FOR ASSAULT

Pleads Guilty to Making Attack Upon Frank Padgett of Earlimart.

TULARE, Oct. 20.—Everett J. Watkins, who is charged with an assault on Frank Padgett at Earlimart some time ago, was yesterday sentenced to one year in San Quentin by Judge Wallace. His preliminary examination was held in Pixley last week and he was bound over to the Superior Court for trial. A large number of witnesses had been summoned for the case, but Watkins decided to plead guilty.

It will be remembered that Watkins and his wife had some trouble and Mrs. Watkins decided to leave him. She summoned Padgett to carry her trunks to the depot and it was while Padgett was endeavoring to take the trunks there that Watkins assaulted him and threatened to kill him.

PLANT BIG SIMON ESTATE TO ORANGES

DINUBA, Oct. 20.—Chas. Simon, the well known capitalist was here from San Francisco yesterday. He states that he is improving the remaining 1400 acres of the big Simon estate at the north end of Smith Mountain and that in a few years will have the finest orange orchard in the valley. There are several hundred acres of the trees now four years old and they are doing fine. Simons says the family will not allow any more of their fine land to be sold but propose to develop the entire property.

SUICIDES BECAUSE DENIED OPPORTUNITY TO MARRY

LOS ANGELES, Oct. 20.—Sitting on the edge of his bed, Walter Hartung, city passenger agent of the Banning transportation company, placed the muzzle of a shot gun between his eyes and pulled the trigger with his toes, causing instant death today. Hartung who was only 22 years old, is believed to have killed himself because his parents withheld their permission for him to marry on the ground that he was too young.

They admitted that, the police said, but declined to make public the name of the young man's fiancee.

EXPERT FAVORS RESERVE SYSTEM

CHICAGO, Oct. 20. — Prof. J. L. Laughlin of the University of Chicago, chairman of the executive committee of the National Citizens' League, organized to promote sound banking laws, today expressed himself in favor of the Aldrich Central reserve system when he appeared before the sub-committee of the national commission holding session here.

"Business men are more interested in sound banking laws than in any other reform," said Laughlin. "In a panic the first man hit is the business man whose loans are cut off when he most needs to borrow."

RECEIVERSHIP DEMANDED

SEATTLE, Wash., Oct. 20.—Minority stockholders of the Pacific Railroad company a corporation with an authorized capital stock of $2,000,000, organized in Seattle eighteen months ago to build a monorail electric system carrying passengers and freight between Seattle and Tacoma, obtained a writ of mandate today compelling Wm. H. Boyes, president and majority stock owner, to submit for inspection the books of the corporation on Oct. 27 and also to show cause why a receiver should not be appointed.

ORANGES ARE RIPE WHEN THEY ARE RIPE, SAYS DR. WILEY

When Mature Before Picking, "Coloring" Not Open to Objection.

Ruling Will Work in Interest of Citrus Industry, Belief Expressed.

PORTERVILLE, Oct. 20—All hope of assistance from the pure food commission in respect to the marketing of the early oranges was dispelled today when messages were received from Dr. Wiley and Secretary Wilson in which it was stated that the laws of the department of agriculture p ke no provision for the appointment of inspectors who will be empowered to go into the orchards and grade the fruit, picking out that which will be adjudged marketable.

When it was decided by the pure food officials that artificial coloring will be treated as adulteration letters were written to the commission asking them what was meant by "artificial" and the inquiry was made if the department did not admit that in some sections the orange is ripe before it attains the golden color. To these letters the reply was given that it was well understood that in certain localities the oranges were matured in advance of coloring and further they stated that when an orange is mature before picking, it will be allowed to place in the markets, whether or not the color was attained after the packing process. Then the growers attempted to secure from the officials some definite statement as to what constitutes a mature orange. The best that has been secured thus far is a second statement that "some oranges are mature before attaining color, and there will be no restrictions upon the sale of ripe fruit."

To avoid all possibility of fruit being confiscated after its arrival in the east, the orange growers of Central California then asked the department to give them a certain number of orchard inspectors who, would be empowered to go into the groves and there pick out the matured fruit, thus protecting them against possible future loss.

In reply to this there was the message as stated that the law does not give authority for such inspectors and that there is no provision by which they can be paid.

"We are all up in the air over this early shipping," said W. E. Spratt, the general manager of the Exchange, which organization has led the fight to secure the inspectors. "It will mean that we will refuse to take chances and that no fruit will be marketed of which we are not sure. In point of fact the Exchange has been fighting for just this thing in the past few seasons, and the marketing of green oranges early in the fall season has resulted in injury to the industry every time it is done. This year we may be sure, there will be no attempt to sell unripe fruit.

"Judging from the relations between the pure food commission in the past, we are sure that Dr. Wiley will be reasonable in his interpretation of the law, and we feel positive that in the long run the ruling with respect to the unripe fruit will be for the benefit of the growers."

As a result of this stand by the pure food commission, however, the picking and packing season will be, this year, about ten days to two weeks later than normal.

DECIDES HE'S RIGHT, THEN GOES AHEAD

Justice Meadows of Hanford Unites Young Hearts Despite Law Quibbles.

HANFORD, Oct. 20.—Disregarding the opinion of others and taking his own idea strengthened by the recent opinion of Attorney General U. S. Webb, Justice of the Peace G. L. Meadows married Walter B. Gallion and Miss J. Ghir of Bakersfield in Hanford today. He does not believe that he has been amended out of office and will continue to take any and all kinds of business that comes his way.

This is the first marriage ceremony performed by a justice of the peace in this county since the discussion as to whether constitutional amendemnt No. 26 had abolished justice courts and justices of the peace, or not, arose.

HANFORD NEWS

HANFORD, Oct. 20.—Mr. and Mrs. J. M. Blakeley, one of the oldest couples from point of residence in Kings county celebrated their golden wedding today. An elaborate dinner attended by fifty or more old friends and children and grand children was given at noon today.

A. Borres, was arrested today on a warrant issued upon complaint of Night watchman Daniel Conrad charging him with selling liquor without a license. Borres is the keeper of a restaurant and he has never taken out a restaurant liquor license.

The trial of the case of Dixon L. Phillips vs. P. L. Rousseau was completed late this afternoon and the evidence was turned over to the jury. Attorney Phillips is suing P. L. Rousseau for attorney's fee which he alleges are due him, he having appeared in several matters—a divorce proceeding among others for Rousseau.

METHODISTS TENDER PASTOR RECEPTION

PORTEVILLE, Oct. 20.—More than 300 of the members and friends of the First Methodist Church met at the church building last evening for a formal reception tendered to Rev. and Mrs. George Steed, the affair being an expression of the pleasure of the church that Mr. Steed has been again returned to the pastorate by the conference which just closed.

In the early hours of the evening a very fine musical program was rendered, after which addresses of welcome were made by Rev. J. J. Ronch, of the First Baptist church and Rev. C. N. Flanders, who represented the Congregational people.

After a fitting response by Mr. Steed a general social hour followed and refreshments were served at the close of the evening in the church parlors.

GET OUT PAPER, THEN SEEK PARSON AND ARE MARRIED

DINUBA, Oct. 20. The announcement last night of the wedding of Miss Helen Johnson and W. P. D'Armin came as a great surprise to the many friends of this young lady. Mr. D'Armin has been an employee of the Advocate office here for some time, as has also his bride. Tuesday evening after the paper had gone to press, they called on Rev. E. P. Shier of the local Presbyterian church and were married.

Mrs. D'Armin is the daughter of Mrs. E. M. Johnson of this city and well known here where she has resided for years. She has been an active worker in the Presbyterian church. Mr. and Mrs. D'Armin left for Los Angeles and from there go to Scranton, Pa., where they will remain for a time.

ASK MORE PAVING IN BUSINESS DIS'T

PORTERVILLE, Oct. 20.—Preparations are now being made to petition the council for the paving of Main street north from Cleveland street and three blocks of Second street which adjoins the business district on the east.

Officials of the Taylor estate, who own some hundred or less of the Main street frontage, made the condition in signing the petition for the original paving of Main south of Cleveland, that the city delay paving north of that street for a year at least. They are asking that the city pave the remainder of Main street and also state they will sign up their frontage on Second street as well.

TULARE SOCIAL NOTES

TULARE, Oct. 20—Miss Olive Dornbergh of Kansas and George Norwood of Porterville were married this afternoon at the home of the bride's sister, Mrs. Earnest Baxley, one mile northeast of this city, at 3 o'clock. The ceremony was performed by Rev. Smith of the Christian church. Mr. Norwood is a well known driller and has prepared a comfortable home for his bride at Porterville, where they will take up their future residence. Miss Dornbergh is a school teacher, and recently came from Kansas.

It was a large and appreciative audience that greeted Miss Frieda Peycho in her original songs and phonologues at Library hall last evening under the auspices of the Lorelei Club of this city. The young lady is an accomplished musician, and it did not take the audience of last night long to find it out. She pleased from the very first time she sat down to the piano until the closing number, and she cheerfully responded to numerous encores.

The ladies of the Sewing Club met this afternoon at the home of Mrs. A. W. Wheeler. The club was organized last winter, and will be continued through the coming season. Light refreshments were served and a general social good time was enjoyed. The following ladies comprise the club: Mrs. F. Newcity, Mrs. C. E. Elsworth, Mrs. W. Triplett, Mrs. E. C. Meyer, Mrs. Dolly Gray, Grace and Edyth Linder, Mrs. F. Alderson, Mrs. A. W. Wheeler.

TORPEDO TARGET PRACTICE.

NORFOLK, Va., Oct. 20—It was unofficially stated last night that after several attempts the cruiser Montgomery yesterday afternoon fired almost entirely through the recently constructed steel caisson that was towed to Hampton several days ago to become the target in torpedo tests.

The topedo, which was fired at a distance of 500 yards along a cable, failed to reach the target, on two occasions stopping half way between the cruiser and the caisson.

WEEVIL IS BOTTLED TO SHOW FARMERS

Unique Precautionary Measure Taken Against Utah Alfalfa Pest.

TULARE, Oct. 20—County Horticultural Commissioner P. D. Fowler this morning received from the state horticultural commissioner three Utah alfalfa weevils enclosed in a glass bottle. They are sent out to all the commissioners in the state in order that farmers can see them and know exactly what they look like and be prepared to report if any of them are discovered in this section. As Mr. Fowler is not always to be found, he has made arrangements with U. S. Schoenemann to show the pest at his real estate office on Tulare street.

The specimens received by Mr. Fowler are called the hard shell snout beetle. It is oval in shape and brown in color. The larvae are little green worms with black head and they feed on the foliage and lay in half circles. They bore into the stems of the plant and also feed on the buds of the alfalfa.

This insect is entirely different from the little weevil that bores into the seed of the alfalfa and is sometimes found in this locality. This local insect is a little black fly, the larvae of which bore into the seed while soft and cause the holes which are sometimes found, but they are not nearly as destructive as the Utah weevil, which is now quarantined from the entire state of California.

SANGER SIFTINGS

SANGER, Oct. 20.—Last evening the ladies of the Guild gave their "Chestnut" entertainment. Several old songs were sung by the audience and there was a pretty flag drill by a number of girls. Mrs. I. B. Bennet sang a vocal solo. Roasted chestnuts were served for luncheon.

Three or four men are engaged in killing the squirrels on the old Hazelton estate in the foothills east of Sanger. The estate comprises some 7,000 acres, but as Mr. W. B. Hazelton has killed the squirrels every year it will not be such a large task as it otherwise might have been.

Archie Da Mant has just returned from a trip to Visalia.

Earl Lester left yesterday for Exeter to take a position.

D. V. Lester and wife have returned from Hume.

Frank Taylor is building a five-room frame house in Sanger.

START BRIDGE WORK OVER TULE RIVER

PORTERVILLE, Oct. 20.—Work started this morning on the excavation for the piling of the bridge over the river south of this city, which is part of the enterprise of extending the Main street of Porterville through to Terra Bella and Ducor.

Work of widening the street through the first two blocks south of the former Olive street terminus has already been completed and with the exception of the right of way through one or two other pieces of property the street is ready to be forced through the remainder of the way.

The bridge over the Tule is to be made long enough and high enough that no high water will ever endanger it.

SHORTAGE OF BOOKS IN LOCAL SCHOOLS NO LONGER EXISTS

State Printing Office Comes to Rescue of Pupils After Long Wait.

Dealers at Last Receive Supply and Teachers Sigh in Relief.

The shortage of text books in the local public schools no longer exists, according to book-sellers. Relief was furnished by the state printing office, which was unable to print six different text books in time for the opening of the schools.

Before the term began, local dealers sent in their early orders. These were returned with the money and the dealers were informed by State Printer Shannon that the much-wanted books could not be printed for weeks and perhaps months.

This reply gave little encouragement to the dealers, who were besieged daily by anxious parents and pupils. Day after day and week after week inquiries were made but no books arrived from the state printing office. The teachers were handicapped by the shortage of books and the pupils were forced to return to last year's lessons in many cases.

The dealers could have ordered the same books from the original publishers, but this would have done them no good as the school children cannot use any but state text books, with a few exceptions. The school laws of the state upon any teacher who permits his or her lessons from any text book not issued from the state printing office. For this reason, local dealers did not order the much-wanted books from the publishers, but waited patiently until the state printer sent word here that the books are available.

As a result, dealers, teachers, pupils and parents have received a sign of relief and there will probably be no further shortage of text books during the present term.

MISS ALICE SMITH HOSTESS AT PARTY

Miss Alice R. Smith, who resides on M street, last night entertained in honor of the members of her Sunday school class of the First Presbyterian church.

Those present were: Miss Hazel Wilkinson, Miss Dora Carnine, Miss Marion Lynes, Miss Augusta Darling, Miss Dorothy Louch, Miss Swift, Mrs. Bloomer, Mrs. Nonkes, Mrs. Smith, Burson Harman, Neil Keifer, Donald Keifer, Claude Wilson, Reginald Louch and Homer Ivers. A very enjoyable evening was spent and solos were rendered by Miss Marion Lynes and Donald Keifer. Light refreshments were served during the evening.

REPORT I STREET PAVING SHY ON ASPHALT; TO SECURE EXPERT

Trustees Consider Chemical Test Made on Block Ordered Resurfaced.

Percentage Only 8.8 When Specifications Call for 12 to 15.

That the percentage of asphalt was only 8.8 in the I street resurfacing job when 12 to 15 was required, was the report made to the city trustees last night.

City Engineer Jensen received yesterday the report from Smith, Emery & Co. of San Francisco of the chemical analysis made of a sample.

The report showed as ingredients in the pavement surface.

Asphalt	8.8
Aggregate	91.2
Per cent	100.0

Departures were also pointed out in the variances in the screenings, the specifications calling only for the percentages noted in the second column of figures for the respective sized screens.

One thing the chemical test report set at rest was the intimation that the pavement surface had perhaps been "overlooked" in the mixing process thus had lost its cohesive and binding efficiency.

According to the specifications the sand used in the pavement mixture is heated in the driers to a temperature of between 300 and 375 degrees Fahrenheit. The hot sand and necessary quantity of asphaltic cement and lime dust previously heated to 250—300 degrees is then or should according to the specifications be mixed until every sand particle is thoroughly coated with a thin layer of asphaltic cement. In no case is the asphalt cement to be heated above 325 degrees. The material when it leaves the temperature should have a temperature between 250 and 325 degrees and be not colder than 250, or hotter than 325 when it reaches the street to be put down and rolled.

The board considered the matter at some length and the resolution was that inasmuch as the property owners will be required to pay for the cost of resurfacing it is the desire to have everyone satisfied with the work. The mayor was asked to invite Mr. Vail, who was the engineerin charge of the reconstruction of the Fresno Traction Co.'s system and is an expert in asphalt pavement to come to Fresno and inspect the work done on I street. Upon his decision will depend the future action of the board. The board was of the opinion that notwithstanding technical departures from the specifications the work will pass muster.

The board decided in this connection also on the paving of Fresno street to have an inspector on the work when the asphalt pavement is being put down.

HIGH SCHOOL SENATE IN LIVELY SESSION

Officers Are Nominated to Be Voted for on Next Friday Night.

One of the most enthusiastic meetings ever held in the High School Senate chamber was the one presided over last night by Prior of Delaware. Thirty active and honorary senators were in attendance, and twenty-two visitors filled the back of the room.

The debate for November 3 will be: "Resolved, That a Central National Bank should be established in the United States."

The subject before the house for debate last night was, "Resolved, That the government of California should have charge of all waterways in the state." The question was finally lost by a vote of 9 to 21. One of the most convincing arguments for the negative side was advanced by Drew of Maryland, an honorary senator. The substance of his point was that citizens in one part of the state should not tolerate the control of their individual water rights by voters in other districts.

Nomination of officers for the next term of eight weeks was in order last night. The young solons have formed various political parties and have adopted suitable platforms. A group calling themselves Socialists, in fun, are expected to make a clean sweep of the available offices on next Friday night. The Socialists nominees are: Kemper of Georgia, president; Wakefield of Michigan, vice president; Hammond of Montana, secretary; McDowell of Nebraska, treasurer; Owen of Louisiana, librarian; Malcolm of Wisconsin, sergeant at arms.

The Republicans, who are next in strength, will support Clark of Idaho, president; Hopkins of Iowa, vice president; Gede of Wisconsin, secretary; Bolton of Kentucky, treasurer; Crawford of Pennsylvania, librarian; Lewis of Maine, sergeant at arms.

The Democratic ticket is: Prescott of Kansas, president; Ferguson of New Jersey, vice president; Austin of Alabama, secretary; Byrd of Utah, librarian; Prior of Delaware, sergeant at arms.

POLICE JUDGE BRIGGS SHOWS MUCH LENIENCY

Wife Beater and Peace Disturber Given Chance to Reform.

Upon the promise that he would leave the city in a few days and would not bother his wife, Police Judge Briggs yesterday afternoon withheld the commitment in the case of Harry E. Haugh, who pleaded guilty to a charge of disturbing the peace. Haugh was arrested on complaint of his wife, who stated that her husband bothered her. She said that they didn't live together. Haugh when first brought into court pleaded not guilty but changed his plea and was given time to leave the city.

W. W. Johnson, charged with beating his wife, pleaded guilty but sentence in his case was postponed indefinitely. Johnson yesterday told his side of the domestic trouble, and while the police magistrate does not believe that a man should beat his wife, he realized that here were two sides of the case. The case will be dropped unless Mrs. Johnson and her husband should again need the police to separate them. Z. T. Bartelson was fined $5 for drunkenness.

AGED MAN IS JAILED FOR PETIT LARCENY

Second-Hand Dealer Accused of Violating City Ordinance.

Thomas Rilkovich, an aged Armenian, was arrested yesterday afternoon by Patrolmen David and Broad and charged with petit larceny. The proprietor of a lodging house on G street had been allowing the old man to sleep in a wood shed in the rear of his establishment. Small articles had been missed from the place for some time and yesterday the Armenian was caught in the act of selling a pair of pinchers at a second hand store. He was then taken to jail.

G. H. Simmonian, proprietor of a second hand store, was arested by Police Detective Goehring and Patrolmen Davis and Enos and charged with violating a city ordinance. He was arraigned in court and given until this morning to enter his plea. Simmonian is charged with having failed to keep a record of sales and purchases made in his store. The arrest was made in connection with the arrest of Rilkovich.

ALUMNI MEETING POORLY ATTENDED

Another Gathering to Discuss Scholarship Plan Called for November 2nd.

A poorly attended meeting of the Fresno High School Alumni association was held in the school auditorium last night. Although the general lack of interest shown by the absence of so many members could not help but dampen the enthusiasm of those present, active plans were made to hold another meeting on November 2nd.

President Duncan called the body to order and stated briefly that the business men of Fresno will be glad to aid the society in any feasible effort it may make to establish a scholarship fund. Benjamin Levy was appointed chairman of a committee which will send circular letters to as many members of the alumni body as can be located inviting their attendance at the next association meeting. The committee hopes that in this way it can correct a mistaken idea that the class of 1911 is attempting to manage the organization as it sees fit.

DON'T KNOW SALOONS.

KANSAS CITY, Oct. 20—That ninety-five percent of the Kansas school children have never seen a saloon is the statement made by E. T. Fairchild, state superintendent of public instructions, in a pamphlet issued for the superintendents who are in conference here to determine upon uniform requirements for teachers certificate throughout the United States.

MORROCAN NEGOTIATIONS

PARIS, Oct. 20.—The cabinet council today approved certain additional instructions to the French Ambassador at Berlin, Cambon, relative to the French concessions to Germany in the French Congo.

POULTRY MEN DECIDE TO HOLD WINTER SHOW

May Be Held Some Time in January; Another Meeting Friday.

At a meeting of the members of the Fresno Poultry, Pigeon, and Pet Stock Association last night, which was held in Judge Smith's court room, it was definitely decided to hold a poultry show here this winter. The exact date was not set but the majority of the members reported that the second or third week in January would be the most favorable time. Committees were appointed with instructions to make complete arrangements for the show. Another meeting will be held next Friday night at which time the committee will make a report and the subject will be discussed.

It was decided to start a membership campaign as it was reported that number of fanciers in the county had expressed their desire of joining the association as soon as active work was started this year. Five applications for membership were received last night and acted upon.

It was decided that the prizes to be awarded at the show would be cup, ribbon and cash prizes. Members in close touch with the poultrymen of Hanford, Madera, Merced and other nearby counties report that they are heartily in favor of having a winter show here.

ANTIOCH OFFICER ARRESTS WRONG MAN

Although somewhat resembling Albert Castro, who is wanted here on a charge of forgery, the Mexican under arrest at Antioch is the wrong man and Police Detective Charles G. Furnam returned to Fresno yesterday afternoon without his prisoner. When Chief Jones received the message from the city marshal at Antioch the officer stated that he was certain the Mexican in the jail there was Albert Castro.

SENATOR ON HONEYMOON.

LOS ANGELES, Oct. 20—United States Senator Jeff Davis of Arkansas and his bride, who was Miss Lelia Carter, daughter of Dr. W. A. Carter, of Ozark, Ark., are in Los Angeles on their honeymoon. After a few days here they will go to San Francisco.

Bigger Better Bargains

In Our "Make Room" Sale

We have to make room for new shoes which our buyer is going to purchase in the big factories in the East. Our store is as full of shoes as it can be now; there is very little spare room. In order to have a place for the new arrivals we must dispose of a large part of these we have on the shelves. That is why we are offering these wonderful bargains. It's a great chance for those who need shoes.

$1.25 Kid Slippers 89c

Ladies' kid Juliettes are extremely pretty. These are well worth $1.25 and are worth far more than we are asking. Come in and see them. You are certain to like them.

$2 Juliettes 89c

These are ladies' felt Juliettes. They are samples that we have received. They are extraordinary values at this price. Think of this reduction. From $2 to 89c. A real bargain.

$2.50 Oxfords $1

These are just the thing for the house. They are gray suede Oxfords and pumps. They are as pretty as they can be and every woman that sees them is highly pleased with their beauty.

$3.50 Button Shoes $1.95

They come in either button or lace styles. They have low heels and are made of patent leather and gun metal.

$2.25 Felt Slippers $1.45

These slippers come in colors wine, blue, black and gray. They have heels and are trimmed with ribbons.

$3 Cloth Top Shoes at $1.95

They are cloth top shoes, button style. They are made of patent leather, welt, and have wing tips. They are stylish shoes and very good values.

$3.50 Gun Metal $2.15

These gun metal shoes come in both button and lace styles. They are welt shoes worth $3.50. We are selling them at a special price now.

$3 Gun Metal Shoes $1.65

These regular $3 shoes have low heels and broad toes. They are well made, stylish and comfortable.

Jockey Boots $1.35

These patent jockey boots come in sizes 5 to 8. They are worth far more than we are asking for them.

Boys' and Men's Shoes

Boys' Calf and Gun Metal Shoes, Worth $2.25, at $1.45

These are boys' shoes, made of calf and gun metal. They have the new raised toe that is so popular now. The sizes are 11 to 2. These are just the thing to wear to school.

Boys' $3.50 Patent Shoes $2.45

These are boys' patent button shoes. They are dress and at the same time very serviceable. They wear well and always look well. They are welt shoes and are extra values.

Men's $3 Work Shoes $1.95

These are men's work shoes, in both tan and black leather. They are just the thing to work in and are especially attractive at the price we are asking.

Men's $3.50 Dress Shoes $2.45

Men's dress shoes worth $3.50, but selling at $2.45, are pretty good bargains. They are fancy shoes, made of patent leather and gun metal. They are both button and lace styles and have velvet tops.

Men's $3.50 Shoes $2.45

These are a lot of odds and ends. They are broken lines and odd sizes. All of them are high grade shoes, being worth to $3.50 a pair. If you can find what fits you, it certainly is a bargain at $2.45.

Men's Felt Slippers 69c

He Has Gone for New Bargains

Our buyer, Mr. Mittenthal, has again left for the East to obtain new and greater bargains for the people of Fresno. We have heard of a great sale that is to take place. The Johnson, Rand & McNally Shoe Company and the Peters Shoe Company are going to join and form one company. They will dispose of the immense stock that they have on hand at unusually low prices. These firms are well known as makers of standard quality shoes and the shoes we buy will be standard in every way, yet the prices will be a surprise to all.

Children's $1.50 Shoes at 95c

These patent button shoes for children have pink and red tops. They are exceptionally pretty and wear well, too.

$1.75 Velvet Top Shoes $1.15

These shoes have 3-4 velvet tops. They are patent leather and are worth far more than we are asking. No prettier shoes were ever put on the market.

Odd Sizes 95c

These are an odd lot of children's shoes. They are gun metal kid and calfskin. They are just the thing for children.

$1.25 Juliettes 59c

These are samples that we have received. They are made of red felt and are worth up to $1.25. They certainly are bargains when sold at 59c, less than half of their real values.

California Oil Field News

EXPERT TO COMPLETE WATER LINE NOV. 15

Western Water Company to Deliver Water to West Side Fields.

BAKERSFIELD, Oct. 20.—The Western Water Company promises to have its plant and pipe line in readiness for delivering water to its customers in the vicinity of Taft about November 15th. The company already has its pumping plant installed on the flat near Button Willow, and excellent progress is being made in laying the pipe line. The water is to be piped to two 55,000-barrel tanks on Twenty-six hill, and distributed thence by gravity to the companies operating on Twenty-five hill and elsewhere in the Midway field. Service will be extended to North Midway, about fifteen or twenty days later. The deliveries about Taft will amount to approximately 15,000 barrels daily, but the system will have a capacity of 50,000 barrels daily. The water will come from artesian oil wells and will be forced through the pipe line by the power from two 250-horse power engines. Only one engine is to be used at a time, however, the other being for emergency use to obviate the necessity of shutting down for repairs, a difficulty that has interfered with the service of some of the other water companies that have furnished water to the west side fields.

RUPTURE CURED.

I can cure any curable case of rupture "while you work." Thousands of cases cured. No danger; no cutting; no loss of time. Dr. Hunt, Room 350, Forsyth Bldg.

PALMER STOCKHOLDERS ARE PLANNING MERGER

Tentative Proposition Is Submitted By Palmer Union People.

LOS ANGELES, Oct. 20.—A tentative proposition has been submitted to the stockholders of Palmer Oil, looking to the absorption of that company by the Palmer Union. The latter company has an authorized capital of $6,000,000, and it is proposed to give the stockholders of the Palmer company $2,000,000 in 6 per cent 20 year gold bonds and $2,000,000 in the stock of the new corporation for their property which is capitalized for $2,000,000. It is claimed that the merger would result in a saving of at least $25,000 a year in operating and office expenses, and would give the stockholders of the Palmer company a first lien on the combined properties, including 3260 acres of oil land. It is understood that the dividend on Palmer will be passed this month.

BACK TAXES MUST BE PAID TO CITY

LOS ANGELES, Oct. 20.—According to a decision of the state supreme court, which has just been made public the Western Union Oil Company of Los Angeles must pay into the treasury of this city, the sum of $16,654.24 with interest at 10 per cent for taxes. The decision affirms that of the lower court. The action was brought against the oil company by the city and when the lower court decided in the latter's favor, the oil company appealed.

VALLECITOS OIL IS VERY HIGH GRAVITY

Range 16 Expects to Reach Oil Sand at Depth of About 2200 Feet.

Tests made of oil coming from the Vallecitos field, due north of the Coalinga field, and really an extension of the latter field, show that it is in the neighborhood of 33 degrees Baume. This is a much higher grade of oil than is found in the Coalinga field, although the formations of the two fields are identical. Oil testing 33 degrees is scarce in California, as well as elsewhere, and the demand for it is ever great.

The Range 16 Oil Company, holding 320 acres of the Vallecitos land, struck a showing of oil some time ago at 1,700 feet. Since then the drill has been going slowly but steadily down in the hard brown shale formation and now at 1,960 feet, it is believed by the drillers and geologists that this can over the oil sands is nearly drilled through. Proof of this lies in the fact that the bailer is bringing up larger and larger quantities of the light oil, and the gas pressure of becoming so heavy that the hole has to be kept filled with water to keep it down. It is also a well known fact that wherever big wells are struck, the casing over the sand is filled with oil forced into it by the pressure of the gas, as in the case with the Range 16 well. It is believed the Range 16 will secure a production in the next 300 feet.

Other companies in the Vallecitos are the Union, Sussex and the Vallecitis Development Company. The Union owns 5,000 acres of land in various parts of the field, the largest of the tracts being at the head of the valley and just north of the Sussex property. The Union has sunk several test wells here and got oil every turn of good quantity.

REFINING INDUSTRY OF STATE EXPANDING

Standard at Work on Its New Plant; Union Refinery Is Completed.

LOS ANGELES, Oct. 20.—With the increase in discoveries and development of property containing high gravity oil, together with the increased demand for gasoline and other light oil products of the refineries, a big movement looking to the expansion of the refining industry of the state has been inaugurated.

A close analysis of the situation discloses that the control of the petroleum industry of California lies in the capacity of the marketer to supply all of the commercial products of the oil fields. In the beginning the Standard Oil Company in California, was only a refiner. Then it became a buyer and seller and finally a producer and manufacturer. Had residuum not been introduced as a competitor to crude oil, the present expansion of the refining business would not have been possible.

There are numerous reports and rumors of the contemplated building of new refineries in California and it is too early to say with any degree of certainty, how many of them will develop into actualities. It is known, however, that the Standard Oil Company has broken ground and began the construction of its new refining plant at El Segundo on the coast near Manhattan and is adding largely to its plant located at Point Richmond. The Union Oil Company has completed its new refining plant at Stewart station on the Fullerton-Los Angeles pipe line and the Lost Hills field is fast coming to the front as a producer of refining oil.

It has recently been declared that the Universal Oil Company is to build a pipe line to handle its own production.

Run Down? Ayer's Sarsaparilla is a tonic It does not stimulate. There is not a drop of alcohol in it. You have a steady, even gain, day by day. Ask your doctor about it. Secure his approval first, then go ahead. J. C. Ayer Co., Lowell, Mass.

MIDWAY OIL MAN SUES TO RECOVER $30,000

Articles of Incorporation of Pacific Refining Co. Are Filed.

BAKERSFIELD, Oct. 20.—John Conley, a Midway oil man, has sued the Babcock Oil Company and T. L. Moran for $30,000, claimed to be due on money loaned in February, 1910, with the stipulation that $10,000 should be paid at the end of one year, and $10,000 each six months thereafter. Conley asserts no payments have been made. The Babcock is a Maine corporation with W. C. Huntoon president, and John S. Curdock secretary, and gave a mortgage on the southeast quarter of the southeast quarter of section 23-32-32 to secure the loan. C. L. Claflin is attorney for the plaintiff.

The Pacific Refining Company, which was incorporated in 1901, has just filed its articles showing H. A. Blodget, William Spencer, C. N. Beal, Timothy Spellacy, Ed E. Bush, Frank T. Whorff and James Goodwin as directors.

O. C. Heck and E. P. Heck have sued Henry Radford for $625.69 for oil supplied. T. N. Harvey is their attorney.

MIDWAY FIVE HAS 500 BARREL WELL

BAKERSFIELD, Oct. 20.—The Midway Five Oil Company, operating on the Hale-McLeod lease in the North Midway, has just brought in a 50-barrel well. This property is close to the Midway Premier and is considered a very important strike.

S. B. Blood Syrup removes your pimples and clears your complexion. 50 cents only at Smith Bros.

UNIVERSAL SELLS OIL FOR 50 CENTS, REPORT

Associated Said to Have Bought 250,000 Bbls. in Lost Hills.

It is reported that the Universal Oil Company in the Lost Hills has sold 250,000 barrels of oil to the Associated at 50 cents a barrel. The company's production which is nearly the entire production of the Lost Hills, is estimated all the way from 1,000 barrels to 3,000 barrels a day. Opinions differ as to the staying qualities of the earliest wells in this field and there is no way to prove either contention as the lack of transportation and storage facilities have thus far prevented the wells from being pumped continuously for any great length of time.

BRIEF OIL NOTES FROM BAKERSFIELD

McKITTRICK, Oct. 20.—The Dominion Oil Company operating on section 15, 32-22 is meeting with such good success that it is announced dividends will be paid January 1st, next.

Material for a rig for the Successus Oil company, a Bakersfield corporation composed of James Curran, Fred E. Mannel, L. V. Olcese and others, for a well to be drilled on the North McKittrick front is now being delivered.

The K. T. & O. is perforating its well No. 26 at the north end of the field and has just spudded in well No. 142.

The Oakland-McKittrick Oil Company operating on section 25 is down 1500 feet and has encountered three strata of oil sand aggregating ninety feet.

A new string of pipe is being put down in well No. 3 of the Kern River company. The electrice motors are ready to be put into operation.

The Mahaska Oil Company on the front is going to pull out the old ring of 6 5-8 inch and 8-inch pipe and recement and re-drill the well. The Mahaska plans an extensive drilling campaign upon the finishing of No. 3 well.

VENTURA CO. HAS OIL AT 100 FEET

VENTURA, Oct. 20.—The Montebello Oil Company, operating on the Shell lease in Ventura county has brought in a well at 100 feet. A stream of oil ten inches in diameter spouted over the derrick and even after the flow had subsided, the oil remained in the hole within 20 feet of the top of the casing.

It is estimated that the well will continue to produce approximately 100 barrels a day. This well is known as well No. 5, and from all indications will be a money getter.

The oil from this well which it took but six days to drill, nets the refiner $5 a barrel.

FIRE THREATENS COALINGA ROYAL

COALINGA, Oct. 20.—The Coalinga Royal well, on section 5-19-15, is down 1,500 feet and the superintendent, Bert Williams, expects to encounted the oil sand in the next 150 feet. Early in the week, a gas pocket was encountered and the gas caught fire in the pit. For a time it looked as though the rig would be burned, but the drillers succeeded in extinguishing the flames.

TRADERS TO BUILD LARGE RESERVOIR

COALINGA, Oct. 20.—A contract for the construction of a 130,000 barrel concrete reservoir on the Traders' property, section 24-20-14, has just been let to Cheney Bros., and excavation work will start immediately.

The reservoir is to be 180 feet long, 100 feet wide and will be 20 feet deep. The rock for the cement foundation will be taken from Los Gatos creek. The work on the reservoir will be done under the direction of the Traders' company engineer and will be rushed as fast as possible. A large number of men and teams will be put to work the first of next week.

When all others fail, Smith Bros. Ague Remedy, only at Smith Bros.

ESPERANZA HAS BIG GUSHER, IS REPORT

COALINGA, Oct. 20.—It was reported on the street today from good authority that the Esperanza Consolidated has brought in a 4,000-barrel well at 1,200 feet in the Lost Hills. The Esperanza is a J. Barneson company, and Mary Corey, a local oil man, has charge of the drilling.

IDITAROD GOLD OUTPUT REPORTED VERY HEAVY

SEATTLE, Wash., Oct. 20.—The output of Iditarod, Alaska, gold camp during the season just closing will total close to $3,500,000, according to Thomas J. Nestor, a banker who has just arrived here. Nestor said that the Iditarod has made the best first year record of any gold camp in Alaska. There was a shortage of men near the end of the season and operators paid wages of $7 a day as against $6 earlier in the summer. The present population of the camp is estimated at 3500 and Mr. Nestor believes that at least 2,000 will spend the winter there. He looks for a prosperous season in the Iditarod next year.

LOOK BEFORE YOU LEAP

The J. G. James Co., respectfully asks the attention of the public to its Tranquillity Colony, located five miles from Jamesan, Fresno Co., on the Fresno and Fish Sloughs. This Colony is backed by the best of soil, and water rights from the Kings and San Joaquin Rivers, and has one of the most perfect canal systems in the state.

The Hanford Summit Lake Railroad is nearing completion and makes the prosperous town of Tranquillity one of its principal railroad centers.

The land is all checked for wheat farming and practically every forty acre tract has a canal running through it. Many homes are being built and the crops of alfalfa, Egyptian corn, barley, grapes, berries, etc., have all been successful. The J. G. James Company is continuing its extensive canal and levy work and everything is booming.

Why not come here and have a look before buying elsewhere? IT PAYS TO LOOK BEFORE YOU LEAP.

Don't listen to what other people have to say—Come and see for yourself. We feel confident that you will like our country and we know that we can fit your wants as to price and terms.

Address, W. C. Graves, Jr., Tranquillity, Fresno Co., Calif.

BIG FREIGHT RATE STRUGGLE AHEAD IN EAST; FRESNO RELIEF MAY NOT COME FOR 2 YEARS

Inter-Mountain Ruling of Commission to Be Carried First to Commerce Court and Then to Supreme Court of United States.

That the railroad rate situation is in a muddle and that the recent decision giving Fresno, among other interior cities, virtually terminal rates, is likely to be tied up in the courts for at least two years, is the opinion of Ernest G. Walker, a Washington correspondent. Writing to the Sacramento Bee from Washington, he gives the following interesting account of the present railroad rate situation:

Instead of being cleared up last spring, as many hoped they would be, and for a time believed they had been, the transcontinental freight rates appear to be as badly tangled as ever. This situation develops from the recent filing of tariffs increasing class rates from the East to Pacific Coast terminals, followed by rumors that other important transcontinental rates will be raised. The order of the Commerce Court enjoining the enforcement of the Interstate Commerce Commission's ruling reducing from $20 to $7.50 per car the charge for refrigerating transcontinental shipments of citrus fruits, the appeals to the court from the commission's order in the Reno and San Francisco rate cases, the commission's investigation of wool rates, and the handling of cases under the fourth section, or long and short haul clause of the Mann-Elkins interstate commerce law all add to the conviction that there is a big rate struggle ahead.

COAST RATES INCREASED

The new tariffs filed with the commission by transcontinental roads increase class rates from Eastern territory to Pacific Coast terminals. The first class rate from New York to the Coast is raised from $3 to $3.10 per 100 pounds and other classes proportionately. These changes will become effective November 1st, unless the commission decides to suspend the tariffs which also abolish all less than carload rates on commodities to California Coast and interior terminals, like San Francisco and Sacramento. The effect of this abolition is to make small shipments of commodities pay class rates. This particular change proposed is regarded by well-informed officials of the Interstate Commerce Commission as a large-sized bluff by the railroads, because they say the water carriers will move less than carload shipments of commodities at less than fair rates. Water carriers may also move class freight, in view of the proposed class rate increase. However it is with the class goods, commission officials believe that water competition will soon force the railroads to establish less than carload commodity rates to the terminals.

20 PERCENT RAISE

It is reported that the proposed class rate increase to the Coast will be followed by commodity rate increases to the Coast averaging 20 percent, and by increases in both class and commodity rates to intermediate points in the intermountain section, such as Reno, Salt Lake, Spokane, etc. This may be the ultimate intention of the railroads, but it is stated that it cannot be carried out wholly at this time, unless the courts reverse orders of the commission now in force. Whatever the intention of the roads, tariffs have not yet been filed to carry them out.

It would be possible for the roads to propose rate increases to certain intermountain territory now, but not to Reno and other Nevada points, because the commission in deciding the Reno case fixed the scale of class rates based on a $3.60 per 100 pounds rate on first class goods from New York to Reno. That order was issued before the fourth section of the new law went into effect, and the decision was made without regard to the long and short haul matter. The order went into effect January 2, 1911, and remains effective for two years from that date, unless reversed by the courts. Proceedings to procure such reversal were instituted by the Southern Pacific and other railroads before the Commerce Court some time ago, and the appeal will be argued before long.

COMMODITY RATE TANGLED

When the commodity rate situation is considered there are many complications. Under the long and short haul law, the commission last spring decided that the commodity rates to Reno and other intermountain points might exceed commodity rates to Pacific Coast terminals by from 7 percent to 25 percent, according to the point of origin of shipments. From the Missouri river westward, the commission held that rates to intermediate points must not exceed terminal rates. From Chicago intermediate rates might exceed terminal rates by 7 percent, and so on up to 25 percent from New York. This sibling scale was based upon the theory that water competition existed and is a powerful factor in the rate situation between coast and coast, but that it cuts little figure on shipments to intermediate points from inland Middle Western territory.

The orders of the commission in these proceedings were to become effective November 15th. The carriers have asked the comission to suspend its orders. This the commission has declined to do. The carriers then appealed to the Commerce Court for an injunction against the commission's orders, which matter is pending before the court. It is expected that the court will grant a temporary injunction. If it does, the commission will appeal to the Supreme Court. Such appeals are expected to be taken in the Reno class rate case, the San Francisco case and other big cases pending. By the time the Supreme Court passes upon these appeals there may be little left of the two-year period within which commission orders are supposed to be effective under the law.

If the order under the long and short haul section in the Reno case stands the test of the courts it will prevent increases in intermountain commodity rates, it is said, because they are dependent upon terminal rates, and the latter can not be advanced without encouraging water competition. By advancing the terminal rates the roads could advance intermediate rates. The rail lines are said not to fear water competition much on class rates, provided they are kept within certain bounds, because the water lines handle chiefly bulky freight, which gets comparatively low commodity rail rates.

LONG AND SHORT HAUL

The relation of the long and short haul law to class rates will come up for consideration upon the expiration of the commission's order fixing class rates to the intermountain territory in 1913, if not before. Under the present intermountain scale of class rates and the proposed terminal class rates, it is pointed out that the long and short haul law will not be violated, since the first class rate is $3.50 to Reno and $3.70 to San Francisco and other Coast terminals. However, the railroads are said to wish to charge higher class rates to intermediate points than to the Coast. The question whether water competition figures much in making class rates must be considered in this connection. Perhaps the commission may decide that the carriers are entitled to certain relief from the fourth section on class rates, as it held they were on commodity rates. There are several thousand commodity rates now in effect on transcontinental traffic, covering many thousands of articles. If the proposed class rates to the terminals are permitted to become effective and are not later condemned by the commission, and if that body should decide that relief under the fourth section should be granted the transcontinental carriers on class rates as well as commodity rates, and on the same basis, then the first class rate from New York to Reno might be advanced to a point 25 percent in excess of the $3.70 coast rate, or to $4.62½, compared with the existing $3.50 rate.

APPEAL TO SUPREME COURT

The Department of Justice will take an appeal for the commission, from the Commerce Court's injunction to the Supreme Court, in the Arlington Heights Fruit Exchange case, or the Ignon rate case, as it is commonly called. That injunction has the effect of making California citrus fruit growers pay the $20 rate for refrigerating a carload of fruit, which rate the commission found excessive.

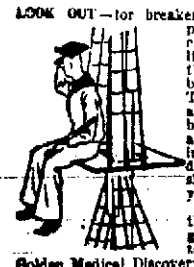

In the transcontinental rate situation the long and short haul law figures constantly. For instance, in connection with the general investigation of wool rates, which the commission began last spring, there have been discovered numerous violations of the long and short haul law on wool shipments from Western producing territory to Eastern markets. The railroads have filed applications for relief from the law, so far as these wool rates are concerned. The commission has set about twenty-five of these applications for hearing at Chicago on October 24, before Commissioner Prouty, who has charge of the wool rate investigation.

MANY RELIEF APPLICATIONS

A number of applications for relief from the fourth section will be taken up for hearing, with a view to considering whether permanent relief shall be granted before long. Up to date, the mission, except in the transcontinental rate cases, has not as a rule considered permanent relief, but temporary relief from the long and short haul law has been granted in hundreds of cases. Over 5,500 applications for relief have been received. About 1,000 of these have been acted upon, they having been covered by 300 orders under the fourth section. The work under this section is in charge of a board called the fourth section board, created by the commission. At its head is Henry Thurtell, formerly a member of the Nevada Railroad Commission, and an expert in transcontinental rates. Much of the board's and the commission's time and attention under the fourth section has been given to passenger fares and baggage rates. Relief has been granted as to thousands of these rates and fares. Relief has been denied as to through passenger fares which were made in violation of law merely for the accommodation of the carriers which decide generally to have their passenger fares end in 0 or 5. The custom has been to make passenger fares in multiples of 5, thus 25, 30, 35, etc. The commission will not stand for this where such a system leads to disregard of the fourth section. The commission has also refused relief where tariffs appear to violate the law as a result of clerical errors. In consideration of some effect that state 2-cent-a-mile passenger laws may have upon interstate rates, the commission has permitted carriers to disregard the fourth section in making interstate fares from points in states that enforce 2-cent fare laws. Relief has also been granted as to passenger fares via circuitous routes where made to meet competition from direct routes, provided the circuitous route is 15 percent longer than the direct route; also as to fares to certain points which are part of joint rates; also as to rates between points in different passenger territories.

For the first time in several years, no member of the California or Nevada Railroad Commission has attended the convention of railroad commissioners, which has been in session here for several days.

LOOK OUT—for breakers ahead when pimples, boils, carbuncles and like manifestations of impure blood appear. They wouldn't appear if your blood were pure and your system in the right condition. They show you what you need—a good blood-purifier; that's what you get when you take Dr. Pierce's Golden Medical Discovery.

It carries health with it, for it invigorates the liver, purifies and enriches the blood, and rouses every organ into healthful action. It cures the most stubborn forms of Skin Diseases, such as Salt-rheum, Eczema, Tetter, Erysipelas, Carbuncles, and kindred ailments, and Scrofula in every shape, and all blood-taints.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

THE GIRL OF THE GOLDEN WEST NEXT TUESDAY

Play of the Gold Excitement Days of '49 in California.

The attraction at the Barton next Tuesday evening will be Frederick Belasco's Alcazar Theater Company, which he is sending out on a special tour, with Evelyn Vaughan and Bertram Lytell in David Belasco's ever lasting play, "The Girl of the Golden West." Another strong feature in the cast will be Will R. Walling in his original part of the sheriff. Of the play much has been written during the last four years, since it was first produced, but its story is ever entertaining to theater goers. Its time is set in the gold excitement days in California. Its scenes are laid in and near a mining camp. The characters are miners, the usual hangers-on in such communities, and The Girl, a child woman, who could have developed nowhere but in the surroundings depicted.

The play opens with a fleeting panorama of Cloudy Mountain, the dirty little cabin near its summit, the Polka saloon, a marvel of stage realism. We see The Girl serving her rough customers while from the adjoining dance hall emanate the sounds of a mining camp orchestra and light glares in through the open door. In the second act The Girl's home is revealed, and the third act shows the interior of a dance hall, where The Girl is teaching her "boys" the rudiments of an English education. But the greatest picture is reserved for the last act. It is another panorama, a California prairie, the mountain in the distance, in the foreground a camp-fire and red blanket tepee in which The Girl is sleeping. The sun rises, over the peaks. The Girl awakes, bids farewell to the place that had been her home and then turns her face resolutely east to that new home the man is to make for her. The seat sale for this engagement will open this morning at 9 o'clock.

GUNBOAT SMITH IS SEEKING HIS WIFE

Heavyweight Boxer Who Made His "Rep" By Knocking Out Jack Johnson Is in Trouble.

"Gunboat" Smith, ex-prizefighter who made his reputation by knocking out Jack Johnson while the colored champion was training for his frame-up bout with Stanley Ketchel, is in a peck of trouble. Thursday, he reported to Chief of Police Arnold of Richmond that Mrs. "Gunboat" Smith had mysteriously disappeared from home. With her went Mrs. C. Crozo, a friend. The former pugilist told the police that there was no reason why his wife should leave him as they had been on the best of terms.

"The Gunboat," as he is known in the boxing world, is mystified over his wife's absence and wants the Richmond police to help him solve the problem. Tuesday afternoon, Mrs. Smith and her married friend went to Oakland to do some shopping. They have not been seen since.

"Gunboat" Smith is known in Fresno and Coalinga. On two occasions, he has boxed before Eddie Burns' Athletic Club in the oil fields.

For gas and sour stomach, M. A. C. has no equal. Guaranteed only by Smith Bros.

MUSICAL PROGRAM, UNITARIAN CHURCH

At the Unitarian church tomorrow evening, beginning at 7:45, a musical program will be given and the public is invited. Rev. Thomas Clayton will deliver an address on the Manchu dynasty. The program follows:

Piano solo, "On Wings of Music" ..... Mendelssohn-Liszt
Prof. T. J. Irwin.
Song ..... Miss Zoe Redden
Accompanist Mrs. Rosalind Davies.
Piano and violin Sonata, Mendelssohn Op. 4. In three movements.
Profs. Purt and Irwin.
Address, "The Story of the Manchu Dynasty in China."
Rev. Thomas Clayton.
Song ..... Mr. Fred Stebinger
Accompanist Mrs. R. Davies.
Violin Solo, Goniollera, Ries Op. 34....
Prof. Bela Purt, Accompanist, Mr. Irwin.

FINDS ABRAMS GUILTY OF EMBEZZLING FUNDS

Discovery of $200 Check Changes Aspect on Trial of the Case.

The jury in the case of Sidney H. Abrams, broker and promoter, yesterday returned through its foreman, D. D. Allison, a verdict of guilty, finding the sum of money embezzled $400.

"I want to thank the jury, believing you all arrived conscientiously at this verdict, even though I cannot agree with you as to its correctness," said Attorney L. H. Smith, addressing the jurors after they had been polled and each one had answered that he agreed in the verdict.

Pronouncing of sentence was set for Monday next, but it is doubtful whether it will be then, because the defendant has resolved to take his case up on appeal.

When the trial was resumed yesterday forenoon, Judge Austin denied the motion which was argued on Thursday at such length asking for an instruction to the jury to acquit the prisoner. The more formidable of the three points involved in the motion was whether the court had jurisdiction of the offense and whether under the proof the embezzlement was not committed in Los Angeles after his departure from Fresno.

Assistant District Attorney McCormick, who had closed for the people, asked that the case be reopened and his request having been granted he offered testimony, which it is conceded materially changed the completion of the case. The testimony was discovered and brought to his attention since the adjournment of the case on Thursday.

The exhibit was a check found and put away in the safe of the Consolidated Brokerage Company of which Abrams was the head and front. The check was dated July 18, 1910 for $200 payable by Abrams to Mrs. Julia Lindahl in one year with 10 per cent interest. The importance of the testimony was to show that the appropriation of the embezzled $400 in July, 1910, covered by the charge on trial was in this county, and that the money paid over into his hands was used in his own behalf and for a purpose other than had been agreed upon.

Mrs. Julia Lindahl, who had nursed Abrams in an illness, let him have $600 to invest so that it should return her 10 per cent, whether while out on investment or while in his hands. Of this sum $205 was repaid by check.

A BAD SMASHUP NARROWLY AVERTED

A wagon load of house plants in charge of J. A. Pigo and belonging to the Marshall Nurseries was crossing the Santa Fe tracks a mile north of Fresno on Blackstone avenue, on the way to their salesyard.

Had Mr. Pigo been four hours later, the west bound overland just then leaving Bakersfield might have struck the wagon, but by whipping up the team he got across just in time.

The loss would have been considerable had the wagon been struck.

These plants are now on sale at the corner of Tulare and P streets.

QUARANTINE AGAINST ALFALFA WEEVIL

California Officials Fear Pest Will Be Brought in From Utah.

SACRAMENTO, Oct. 20.—To protect the alfalfa fields of this state from a threatened invasion of the alfalfa weevil, which is ruining the crops in the state of Utah, the state commissioner of horticulture has declared a quarantine on all alfalfa seed brought into the state from any locality where there may be a possibility of infection.

The forty-five quarantine deputies working under the commission's order in this state have been instructed to maintain a careful watch on all imported seed and to confiscate any which are under suspicion.

To warn the farmers of the danger, State Horticultural Commissioner Jeffrey has had prepared an exhibit of the destructive weevil, which he will distribute to various counties of the state so that the farmers can take necessary precautions.

ARRESTED FOR CARRYING PISTOL AT WASHINGTON

WASHINGTON, Oct. 20.—Ferdinand Berberich, claiming to be from Atlanta, was arrested at the Treasury Department today charged with carrying a pistol. He denied he intended using the weapon, but said he wanted to see Chief Wilkie of the secret service about securing a position and carried the gun for protection on the train.

SANTA CLARA LINE

SACRAMENTO, Oct. 20.—The San Jose and Almaden Railroad Company, which will build a twenty mile railroad from San Jose southwesterly to New Almaden in Santa Clara county, filed articles of incorporation with the secretary of state, Frank Jordan, today. The company is incorporated for $120,000 by Charles A. Nones, C. F. Anderson, D. M. Burnett and J. F. Tatham, all of San Jose.

BATTLESHIP IN COLLISION.

KIEL, Germany, Oct. 20.—The German battleship Hessen was rammed last night by the Norwegian steamer Argo. The damage to the battleship was very slight. The steamer's bow was crushed in, but she returned to Kiel unaided.

ONCE MURDERER; NOW COUNTERFEITER

SEATTLE, Wash., Oct. 20.—R. A. Faulker who on May 11, 1910 stabbed and killed Bert Harbin, a boiler maker and was not prosecuted, was arrested last night charged with having counterfeit money in his possession. Faulker arrived from Vancouver during the afternoon and soon afterward is alleged to have passed a $20 counterfeit bill of the Virginia treasury series. He was arrested soon afterward and a roll of the bills was found under a seat which he had occupied at the theatre.

He came into notoriety in the Spring of 1910 by kidnapping his three old child Bessie and taking her to Spokane and secreting her there. He was arrested for kidnapping and threatening to kill the mother. He was released from jail on May 11 and seven hours later, while the police were seeking to arrest him on account of new threats to kill his wife, he entered a house where Bert Harbin, a friend of Mrs. Faulkner, was sleeping and stabbed him to death. He was arrested but was released by the state attorney.

BIG DEMAND FOR HIGHWAY BONDS

State Treasurer Roberts Will Sell $400,000 of Them Saturday.

SACRAMENTO, Oct. 20.—The sale of the first $400,000 of the $18,000,000 state highway bonds will be held in the office of State Treasurer Roberts at the capitol at 10 o'clock Saturday. According to Roberts, a great deal of interest is being taken by bond houses and business men looking for a financial investment in bonds. These bonds are attracting attention in the East as well as in California, more than twenty inquiries having been received from the East.

The sale of these bonds will place at the disposal of the state highway commissioners ready money for the prosecution of their work and will make it particularly possible to begin in a short time surveys which are the necessary preliminary basis of the whole project.

PACIFIC FLEET NOTES

VALLEJO, Oct. 20.—The cruiser Maryland received orders today to join the Pacific fleet for maneuvers off San Diego on October 29th.

The tug Iroquois was placed in commission at the yard today, and will sail for San Diego tomorrow towing a target raft for the fleet.

WEEKLY REVIEW OF COUNTRY'S TRADE

Retail Business in Larger Cities Expands With Cooler Weather.

NEW YORK, Oct. 20.—Bradstreet's tomorrow will say:

Thirteen trade failed to show little definite change. It is probably true that retail business in the large cities has expanded in consequence with cooler weather and the advance of the season. Yet this improvement is by no means uniform, too much rain in the Northwest and along the Atlantic seaboard having hampered shopping while low cotton prices have affected Southern trade and collections.

Incidentally the country districts as a whole report that retail business in this respect is rather slow. Returns as to jobbing and wholesale lines tell of a reasonable degree of activity in dry-goods, furniture, shoes and the like, but it is claimed that interior distributors continue to buy on a hand to mouth basis.

Trade in leather holds up well, with a firm price undertone. All grades of leather are active and firm, with export trade a feature. There is more doing in holiday goods and manufacturing confectioners are busy.

Trade in finished steel is unsatisfactory, not so much because of a paucity of orders, but particularly because prices have again receded so low as to threaten very small profits. Competition is keen and manufacturers in the Central West have requested the railways to reduce freight rates on raw materials, apparently preferring to save in this direction than to cut wages.

Business failures in the United States for the week ending October 19 were 258 against 212 last week and 191 in the like period of 1910, 241 in 1909, 231 in 1908 and 220 in 1907.

Business failures in Canada number 24, which compares with 19 last week and 34 for the corresponding week in 1910.

Wheat, including flour, exports from the United States and Canada for the week ending October 19 aggregate 2,541,604 bushels against 3,726,048 last week and 2,544,675 this week last year.

Corn exports for the week were 631,628 bushels against 754,749 last week and 815,688 in 1910.

NEW YORK, Oct. 20.—Dun's weekly Review of Trade tomorrow will say:

Immediate requirements to replenish depleted stocks, coupled with lowest prices are responsible for a continued increase in trade activity. The improvement is conservative but steady.

Weakness is still pronounced in pig iron, with sales of from 10 to 15,000 tons of foundry grades reported in Eastern territory, partly for early delivery. In plates and structural materials sharper competition is noted, and while new business is keeping up at the expense of values, orders for railroad equipments and steel cars are stimulated by the low prices. Wire products are moving in good volume and several additional contracts have been placed for pipe.

That the drygoods trade is expanding steadily is shown by the increased operations of mills and manufacturers of different drygoods specialities.

Bleached cottons are quiet, but staple prints are well under order and several lines of ginghams are sold for spring. Export cotton goods trade has received a setback because of the complications in China, but local trade holds up the business with other markets.

Buyers in footwear show a disposition to place larger contracts to cover future needs, and manufacturers are asking advances to cover higher cost for leather. The leather trade also displays a spirit among the buyers of willingness to operate.

Hides active and strong.

LYMAN ATTEMPTS TO BRIBE JAILER

Offers $2500 for Successful Escape From Cell at Portland.

PORTLAND, Ore., Oct. 20.—According to the story of Dave Fuller, night jailer at the county jail, who has had charge of Dr. John Grant Lyman awaiting transfer to California on a charge of conspiracy in connection with his escape from an Oakland, Cal., hospital, he was offered $2500 by Lyman last night if he would permit him to walk out of the jail, and was promised an additional $1000 if he reached Vancouver, B. C. safely. Fuller told the story to a deputy United States marshal who communicated the facts to United States Marshal Leslie M. Scott. Lyman was immediately ordered transferred to a steel cell, his crutches were taken from him and other precautions taken to frustrate any possible attempt of Lyman to escape.

Lyman will be taken to California tonight. Owing to the boldness of the prisoner, he will be carefully watched from the moment he leaves the county jail here until he is turned over to the authorities in California.

DERNA IS BOMBARDED BY AN ITALIAN FORCE

TRIPOLI, Oct. 20.—Derna was bombarded by the Italians on October 16th. A heavy sea which was running prevented the landing of forces.

2,500 WOMEN REGISTER IN SAN DIEGO COUNTY

SAN DIEGO, Oct. 20.—Registration of voters for the bond election to be held November 14th closed tonight. County Clerk Butler, who at first refused to register women, but changed his mind when he found that other county clerks were enrolling them, estimates that 2,500 women have been registered here this week.

GET YOUR NEXT HAT AT GOODMAN'S

REGAINS CHILD ON HABEAS CORPUS WRIT

ANDERSON, Cal., Oct. 20.—Fred Pickett of Tehama regained possession of his 9-year-old daughter by a writ of habeas corpus yesterday. He recently got possession of her but was pursued to Cottonwood by Constable G. H. Martin, who fired three shots at the automobile in which Pickett was attempting to escape with the girl. Pickett drove from Tehama to Anderson Tuesday night and took the child from its grandmother, Mrs. W. M. Clark, to whom it had been given by its mother. He was intercepted at Cottonwood by Constable Martin, who returned the child to Mrs. Clark. The father has been given temporary custody of his daughter, the case to be decided in the Superior Court at Redding Saturday.

PACIFIC LUMBER TRADE ACTIVE

Mills in Northwest Are Running to Their Full Capacity.

SEATTLE, Oct. 20.—The lumber trade in the Pacific Northwest shows marked improvement, according to reports from mills gathered by the West Coast Lumber Manufacturers' Association, which includes virtually all the large rail and cargo mills in Western Washington and Oregon, as well as many in British Columbia. The reports show that a large percentage of the lumbermen are shipping direct from the saw and that stocks are far below those ordinarily carried by the manufacturers. The volume of rail business is increasing so fast that manufacturers would not be surprised at an increase in prices.

The California retail trade is brisk and cargo mills in Oregon and Washington that are operating are cutting close to capacity. The demand for lumber from Australia, China and the West coast continues brisk.

Several fair-sized government contracts are to be awarded on November 1 for approximately 3,000,000 feet for shipment to the Philippine Islands and one for about a million feet shipment to Panama.

DEMAND REPORT OF EXPRESS BUSINESS

Interstate Commerce Commission Prepares to Investigate Rates.

WASHINGTON, Oct. 20.—In its investigation of express rates practices, accounts and revenues, the Interstate Commerce Commission today ordered all express companies operating in the United States to furnish to the commission on or before December 1st information in detail of all their operations. These details include names of officers and stockholders, amounts of issues of stocks and bonds, descriptions of property, copies of contracts with railroads or other common carriers, revenues from every source, contracts with the government or with other parties, including foreign nations, number of packages of newspapers and magazines handled and total charges assessed, number of miles of railroad on which business is conducted, agreements among the various express companies, list of securities held, changes in express rates during the last twenty years, any considerations paid to railway officials to induce the execution of contracts and amounts to railroads for the year ending June 30, 1911, with complete details of the payments.

In its effort to re-adjust the express business, the commission will use this information in preparation for a general hearing, when the express companies will be afforded opportunity to seek to justify their present operations and rates.

WILL TURKS TREAT AVIATORS AS SPIES?

ROME, Oct. 20.—An interesting discussion is being held in military circles as to how the Turks will be likely to treat the Italian military aviators if the latter fall into their hands. It is recalled that the passengers of five French balloons captured by the Prussians in 1870 were considered spies by Bismarck. In the present case, the aviators wear military uniforms and do not conceal their identity in reconnoitering the enemy's position. Accordingly the Italians think that if captured the aviators should be accorded the protection of prisoners of war.

FATALLY INJURED BY BURGLARS

SKAGWAY, Alaska, Oct. 20.—Clyde B. Guptill, city agent of the Alaska steamship company, was assaulted and probably fatally injured in his office in which there was a large account of money. It is supposed that the assailant, who evidently was familiar with the room, committed the assault in order to get this money, yet none of it was touched. Guptill slept in a room behind the office. He is unconscious and physicians say he cannot recover.

FREDERICK ADEN BENNETT, NEWSPAPERMAN, IS DEAD

BERKELEY, Oct. 20.—Frederick Aden Bennett, a well known California newspaper writer, died at his home here today, as the result of a stroke of apoplexy a year ago. He is survived by a wife and three children.

Bennett was formerly editor of the San Diego News, the San Diego Tribune and the Lower Californian at Ensenada. More recently he has been connected with San Francisco newspapers. He was 45 years of age.

WASHINGTON, Oct. 20.—Pino Suarez, candidate for vice president of Mexico on the ticket with Francisco I. Madero, has been elected by a substantial majority, according to formal announcement telegraphed to the state department by Ambassador Wilson at Mexico City today. Ambassador Wilson returned to his post a few days ago after several months' stay in this country.

"Arkay" Fall Suits With Two Pairs of Trousers $15

A Suit Value You Can't Match Anywhere
All-Wool Fabrics and Blue Serge
Every Suit Hand-Tailored and Beautifully Finished

We've made a ten-strike with these superb "Arkay" suits with two pairs of trousers at $15. It's the greatest value in men's suits ever offered by any store, as you can easily prove for yourself.

We don't believe in asking enormous profits, as some stores do. It's not our way of doing business. We keep prices down to keep our business going up, and the fact that our business in men's clothing greatly increases each season shows that our close cash-selling-margin-of-profit system is appreciated. This is the reason why we can sell you suits of the regular $20 standard of quality at $15 and give you an extra pair of trousers to match the suit you buy.

"Arkay" suits are hand tailored in the cleverest new styles. They're made of the best imported and domestic wool fabrics. Materials, linings and workmanship are of the highest grade. Slip into one of the suits and see how splendidly it fits—how handsome it is in appearance. We urge you to come and examine these suits today.

A high class new fall suit with 2 PAIRS OF TROUSERS at THE BIG SORE at the low price of $15

YOUTHFUL AVIATOR GLIDES ACROSS RIVER

Successful Flight of Home-Made Machines Ends in Disaster.

OGDEN, Utah, Oct. 20.—The first flight of Ogden's first aviator resulted in disaster yesterday afternoon. Fired by the accounts of the experiments of the Wright brothers in North Carolina, Ray Irwin, 14 years old, constructed a biplane glider with a wing spread of twenty-six feet mounted on the wheels secretly removed from the perambulator of his little baby brother.

With the assistance of his business manager, Sam Bullouch, and his mechanician, Joseph Deis, both aged 15, he arranged an exhibition flight yesterday afternoon before a crowd of 300 spectators.

Starting from the top of a sand ridge he took the air easily and sailed across the Weber river. After a glide of about 300 feet, however, the machine plunged to the earth, throwing the young aviator into the large sage brush. He escaped with slight injuries.

MEXICANS STRIKE FOR EMERGENCY WAGES

TUCSON, Ariz., Oct. 20.—After being paid $2.50 gold a day for emergency work in clearing away the wreckage caused by the recent storm along the Southern Pacific of Mexico's line in Sonora, hundreds of Mexican laborers are striking as a protest against the desire of the railroad to have them return to their regular track work at the old scale of wages. Daily strikes of this nature have delayed the reopening of the west coast line, but the officials stated today that despite all drawbacks they expected to have it ready for traffic again in ten days.

Special Rates

TO THE

Hunting Grounds

During the open season 1911-12 the Southern Pacific Company will sell special round trip tickets, good Saturday to Monday, between Fresno and Los Banos, Oxalis, Firebaugh and intermediates at one and one-third fare for the round trip.

N. Y.-Philadelphia Game Off for Third Time

RAIN LEADS BOTH TEAMS IN FIGHT FOR TITLE

Three Straight for Jupiter Pluvius; Wet Grounds Today's Forecast.

PHILADELPHIA, Oct. 20.—The outlook for clear weather tomorrow which would permit the playing of the fourth game of the world's series between the New York Giants and the Athletics is by no means encouraging tonight. Rain, which began falling last Tuesday night and caused the postponement of Wednesday's game, and has continued almost incessantly ever since, does not show any signs of abating.

Even should the weather clear tonight, wet grounds probably would prevent the game tomorrow.

Manager McGraw took his team to the National League ball grounds today and gave it some practice in batting and throwing the ball. After about an hour and a half's work the men were driven to cover by a heavy rain.

MATTY VS. BENDER

It is reasonably sure that either Mathewson or Marquard will pitch the next game for New York—most likely the former. Marquard, in that case, will be saved for the fifth game in New York.

There is little doubt that Manager Mack will send Bender to the mound in the fourth game, and probably Coombs in the fifth.

PHILADELPHIA, Oct. 20.—Jupiter Pluvius still holds the advantage in the series for the baseball championship of the world. For three days the rain god has prevented the Philadelphia Americans and the New York Nationals from getting together for their fourth game for the premier baseball honors. Today opened as dark and gloomy as did Wednesday and when the umpires saw that there was no prospect of the weather clearing they again decided not to wait until later in the day and called the game at 9:10 o'clock.

The game goes over until tomorrow. Umpire Klem after an inspection of the field, gave it as his opinion that there will have to be an early and radical change in the weather if there is to be a game here tomorrow.

HOBSON IS PRAISED IN 'FRISCO FOR HIS "RUN"

Warren Made Great Showing; 7 Cars in Hands of A. A. A. Men.

SAN FRANCISCO, Oct. 20.—Yesterday morning the seven cars that took part in the Los Angeles endurance run were subjected to a critical examination at the hands of the technical committee, consisting of "Jim" Keenan, George Nelson and a third expert. The cars were gone over from stem to stern, and all the inefficiencies were noted down. The penalties will be allotted according to the schedule of the American Automobile Association, and it is understood that the final report will be completed today.

The two American boys, Gkwne and Parry, drove their usual dashing races, always seeking to be first in controls and getting a goodly share of the honors in this regard. The work of the little Flanders cars, in spite of their troubles, attracted attention. The little fellows piled along with the big ones and asked no favors. On the rough spots perhaps they had a little the best of it, and on the level they fairly burned up the road. Chester Weaver, the Studebaker general manager, met them in Los Angeles and was well pleased at the showing of the little fellows.

Columbus Hobson of Fresno piloted the Warren consistently all the way to Los Angeles and back to Fresno, where he relinquished the wheel to W. W. Sargent, who drove the car into San Francisco on Wednesday afternoon among the first three.

CRUCIAL GAME IN FRESNO LEAGUE TOMORROW

Roscoe Ford Has an Array of 6 Pitchers to Frighten Bittels.

The tie for first place in the City League will be played off tomorrow afternoon at Recreation Park with the Tigers and Bittels providing the amusement card. The game is to be called at 2:30 o'clock with Umpire Klein behind the plate and Umpire Burleigh on the bases. Nine innings will be played and the fans are figuring on seeing one of the fastest games of the season.

Much depends on the outcome. If the Bittels win there will be no post-season series and the handsome Spalding Trophy will become the property of Bill Badger's boys. If the Tigers win a post-season series of three games will follow to decide the baseball championship of the city. In the first half, the Bittels won in a walk and tied the Tigers for first place in the second half after occupying the cellar position for a month.

Southpaw Massow will do the pitching for the Bittels and if the boy is right the Tigers will have to go some to grab the bacon. Manager Ford of the Tigers will probably use Grover Brandt on the mound although Cayler Donald's name has been mentioned. This week, six Tiger pitchers have been warming up for tomorrow's crucial battle. The array of pitching talent consists of the following: Ike Teits, Clark Smith, Ray Duncan, Earl Preston, Cayler Leonard and Grover Brandt. Manager Ford is still undecided and he may use all of them against the Bittels. Massow and Hill are the only pitchers carried by the Bittels.

BIG FOOTBALL BOUT IS ON TODAY IN THE EAST

Yale Eleven Will Try to Wipe Out Defeat at Hands of West Point.

WEST POINT, N. Y., Oct. 20—Realizing that Yale will come here tomorrow with a bulldog determination to wipe out the recollection of the 9 to 3 defeat last year, the Cadets conserved their energies today and indulged in light practice only. The game will be the first real test of the Yale team, as well as that of West Point. Each eleven will go into the contest without having been scored upon this season.

The game is generally regarded as the leading mid-season event in the football world.

WEST POINT, N. Y., Oct. 20. — The Yale-West Point battle tomorrow marks the beginning of that one month of real football, wherein the important battles of the year will be fought and the championship of 1911 decided.

The present outlook justifies the prediction that the game will be one of the best fought of the many games played by Yale and West Point elevens.

Captain Howes' team has been making steady progress since the season opened and is generally regarded as the strongest contender for championship honors.

RUGBY PRACTICE IS STARTED; MANY BOYS OUT

Coach Drew Puts Squad Through Primary Course of New Football.

Rushy practice was held for the first time on the high school grounds yesterday, and Coach Drew put twenty of his young wards through a primary course of sprouts. After ten minutes' exercise of the limbs and chest, Drew lined his men up to show them the relative position of each player in the squad.

The method of handling the ball in the new game is so different in every way from that of American football that most of last year's veterans have a difficult lesson cut out for them. Drew is to drill his men thoroughly in every phase of the second work before he lays too much stress on team play. He lined the boys up for a moment merely to show them the relative position of each player. The practice hour under the new regime is short but full of hard work that must be carried out with a snap.

Manager Collins has received offers of games from a number of schools but he will not clinch any dates for several weeks yet.

LAKE CITY ENTRIES

First race, five furlongs, selling, 3 year olds and up—Maidens: Signor, 109; Americus, 109; Rio Joe, Kinfolks, Tony Koch, Angelik, Miss Condon, 106; Reta, 104; Angelus Maid, Selmpre 101.

Second race, six furlongs, selling, 3 year olds and up—Roberta, Lady Elizabeth, Mark Hyde, Passenger, Biskra, 111; Judge Henderson, 110; Funeuil Hall, 107; Twickenham, Maxine, Lesmond, 106; Kid North, 103; Helen Hawkins, 98.

Third race, mile selling, 4 year olds and up—Juan, Miss Alvescott, Tommy McGee, the Poet, Adena, Rosecane, Chanticleer, Gelico, Dr. White, Braxton, 107.

Fourth race, 11-8 miles, Lake City Derby, 3 year olds—White Wool Pawhuska, Irish Gentleman 112; Pay Streak, 109; Dutch Rock, Slim Fleun, 107; Rusty Coat, 104; Heretic, 111.

M'ARDLE USES BIG STICK; BEAVERS DEFEATED

Utility Man Plays First Bag for Seals; Harkness Is Slammed.

SAN FRANCISCO, Oct. 20—Having won the 1911 pennant, Portland evidently decided to take it easy today and San Francisco piled up a 12 to 4 victory. Harkness was the victim of the several batting rallies of the locals and while he actually allowed one less hit than did Browning, he failed to keep the singles scattered.

McArdle's work at bat was a feature of the game. He drew down three hits and scored two runs. Two of his drives were two baggers.

There were nine two base hits during the game. Score:

PORTLAND.

Time of game, 1:19. Umpires, Van Haltren and Hildebrand.

MORE RAIN IS TO FALL TODAY IN THE EAST

Forecaster Bliss Holds Out No Hope for Game at Philadelphia.

PHILADELPHIA, Oct. 20—As the night advanced, rain, which had fallen intermittently all day, increased making it practically certain that the fourth game of the series between the Giants and the Athletics, scheduled for this city tomorrow would again be postponed.

Before departing for New York this afternoon, members of the National commission directed the umpires to go to Shibe Park tomorrow and view the playing field. Their suggestions are to be telegraphed to the National Commission at once so that the game can be called off as early as possible if the grounds are unfit and thus enable out of town spectators to return to their homes.

Local Forecaster Bliss holds out no hope of clearing weather during the night and states that showers will continue in this locality all day tomorrow.

WARREN CAR GOES AFTER RECORD TOMORROW

Hobson and Sargent Plan to Make S. F.-Fresno Run in Six Hours.

Tomorrow morning, Columbus Hobson, with his Warren car, will go after the San Francisco-to-Fresno automobile record. "Hobby," as he is known along auto row, will leave for the Bay city today. He will be accompanied home by W. W. Sargent, who drove the Warren from Fresno to San Francisco in the recent endurance test after Hobson had piloted the car from San Francisco to Los Angeles and return to this city.

Hobson says he drove the Warren down the coast route without once putting the car into the low, and will repeat the stunt for a side wager of $5,000. The Fresno agent declares he had little or no trouble with the Warren, and the only accident was a broken spring, which was due to exceptionally bad roads over which fast time was made. Since the car reached Fresno, Sargent has put new tires on it and he and Hobson will go after the record tomorrow morning.

The Warren is due to leave San Francisco at 5 o'clock, and Hobson expects to get here by 11 o'clock, thus cutting the road record from seven to six hours.

SIOUX CITY, Ia. 20.—Billy Pearce, driving a Colby racing car at a mile a minute pace on the south turn of the Woodland Park track, was instantly killed tonight when his machine crashed into the fence. Pearce was on a practice spin in preparation for the race meet, which opens tomorrow. A bursted tire is supposed to have been the cause.

LAKE CITY RACES

SPOKANE, Oct. 20.—Marburg took the mile event at Lake City today, winning from Fred Mulholland, the favorite, by a nose. In the marathon event, one and a sixteenth miles, Seldin won from Stoneman by a pretty dash at the finish, the field of nine running in a bunch for the entire distance.

RESULTS.

First race, five furlongs, purse—Dudo (d)—Boland, 13 to 5, won; Percy Henderson (Frach), 20 to 1, second; Marjorie Fleming (C. Ross), 25 to 1, third. Time, 1:02 1-5. Mundadero, Lake Tahoe, Volleday Jr., Anna Schneider, Odella, Reporter, Callista Jones, Winnie Wells finished as named.

Second race, six furlongs, selling—Lady Elizabeth (Frach), 9 to 5, won; Hamerway (Fischer), 6 to 1, second; Mossback (C. Ross), 12 to 1, third. Time, 1:15 3-5. Lexington Lady, French Cook, Lord of the Forest, Genova, Birnell, Tillandadene, Ida G., Birdie P. finished as named.

Third race, six furlongs, selling—Waner (Selden), 20 to 1, won; Gilbert Rose (Bullman), 3 to 2, second; Lyte Knight (D. McEwan), 12 to 1, third. Time, 1:15 2-5. Oscuro, Abe Slupskey, Bell of Iroquois, Rey El Tovar, Native Son, Bel Cliff finished as named.

Fourth race, mile and a sixteenth, selling—Elgin (Rosen), 8 to 1, won; Stone (Forsyth), 11 to 5, second; Johnstown (D. McEwan), 8 to 1, third. Time, 1:49 2-5. Edna Stewart, Star Actor, Reene W., Massa Figent, Star Angus, Cabin finished as named.

Fifth race, selling, mile—Marburg (Riddle), 9 to 1, won; Fred Mulholland (Buxton), 4 to 5, second; Quick Trip (Corey), 30 to 1, third. Time, 1:42 3-5. Novgorod, The Monk, New Capital, Sir Fretful, Delena, Special Delivery finished as named.

Sixth race, six furlongs—Venetian (Selden), 9 to 2, won; Chilla (Carter), 11 to 5, second; General Marchmont (Keogh), 50 to 1, third. Time, 1:15. Florence A., Salafi, Royal Tea, Daddy Dip finished as named.

KIT CARSON PROVES SOFT FOR BOYS IN CELLAR

Angels Come to Life and Villagers Fall Hard; Halla Is "Right."

LOS ANGELES, Oct. 20.—Los Angeles again defeated Vernon, winning today's game, their second of the series, by a score of 5 to 2. Carson was hit hard throughout. Five hits in the first inning netted four runs and this was followed by two more hits for one run in the second. Vernon's efforts with the bats were very feeble and their base running was miserable. Score:

San Francisco	92	111	.453
Los Angeles	81	125	.393

SACRAMENTO, Oct. 20—Sacramento came out from behind today in a loosely played game and after Oakland had found Knight and Thompson for four runs in the first three innings, the locals landed on both men for enough hits assisted by Oakland's errors to come out on the long end of a 7 to 4 score. Tiedmann's home run drive over the fence was the only feature. Score:

Time of game, 2:05. Umpire, McGreevy.

CARTWRIGHT IS NOW A SCOUT FOR SPOKANE

Fresno Boy After Massow or Smith; Broke His Ankle in Northwest.

Walter Cartwright, second baseman of the Spokane club of the Northwestern League, was in Fresno yesterday for a few hours visiting with friends. Cartwright looks fine although he had a bad season in the Northwest. In the opening game, he broke his ankle while sliding into the plate. This put him on the bench for a month. For another month he favored the injured ankle and could not play up to his usual form. Later in the season he hurt the ankle again and this kept him on the shelf for another month.

Carty will spend the winter months at his home near Fowler. Yesterday he rode to Fresno on his motorcycle which has been in the "cold barn at home" during the summer. Next season, Brownie will return to Spokane and hopes to have better luck at the getaway. This year he hit the ball hard but his broken ankle kept him out of the game half the time.

Vancouver won the pennant and Spokane finished second. Tacoma landed next to the bottom after sticking around the top for several weeks. Cartwright says Mike Lynch did not get the best out of his players because he fought with them all the time. However, he succeeded in selling Pitchers Annis and Schmutz and Third Baseman Curtis Coleman to the big brush. Annis is a southpaw and a good heaver, according to Carty. Charley Schmutz is a spit-baller. Coleman is the best man on the Tacoma club.

Several players known here played in the Northwest this year. These are Eddie Burns, Sidney Jehl, Nick Williams, Eddie Mensor, Bobbie Coltrin, Spot MacMurdo, Bill Bloomfield, Pearl Casey, Jim Wiggs, Lou Nordyke, Mike Lynch and George Mundorff.

The Tacoma team did part of its spring training in Fresno. Cartwright is on authorized scout for the Spokane club and will try to pick up a likely southpaw before he returns. Carty had his eagle eye on Lefty Massow of the Bittels and Clark Smith of the Tigers.

Cartwright says from what he heard Walt Kuhn has had a great season in the Coast League and his gingery backstopping has been the sensation of the Portland pennant winners. Kuhn has not been hitting the ball very hard but his catching has been of the big league variety.

Clarence Brooks, another Fresno boy, is making good in the Coast League, working behind the bat for Los Angeles. However, Brooks aspires to be an outfielder as he is inclined to "fight the ball" behind the plate. His terrific hitting should earn him a berth in the outfield and probably send him to the big brush.

GET YOUR NEXT HAT AT GOODMAN'S

VIC HANSON READY FOR FIGHT WITH THOMAS

Coalinga Middleweight Cuts Out Training for Tonight's Bout.

COALINGA, Oct. 20.—Vic Hanson completed his training yesterday forenoon at the Coalinga arena with six fast rounds of boxing with his trainers, Green and Harrington. Hanson pronounces himself in the best of condition and confident of a victory over Joe Thomas, the ex-champion middleweight of the world.

The local boxer is very optimistic over his chances to compete for the world's title within the next year should he succeed in beating Thomas tomorrow evening. He has a large following of friends in Coalinga and the other oil fields of the state who are anxiously watching for the outcome of the battle and hoping that he will win, and on the other hand there are many from personal reasons, eager to see him defeated. This fact assures that there will be a large attendance at the arena tomorrow evening that will exceed any house in the history of the club.

Thomas will also be a drawing card, as he is touted to be one of the cleverest men in the modern ring. He is expected to arrive on the late train this evening or tomorrow morning with Eddie Hanlon, who is to referee the go. Thomas has been training hard at Oakland and is of course confident of victory.

The doors will be opened for the event at the usual time and the main event should be one of the classiest bouts that has ever been witnessed in the local arena. A ten-round preliminary will also be up for the amusement of the spectators.

JUDGE GRAHAM OUT AS LEADER OF COASTERS

Al Baum, Sporting Editor of Examiner, Slated for New President.

SAN FRANCISCO, Oct. 20.—Owing to the pressure of his judicial duties, Judge Thomas F. Graham tendered his resignation today as president of the Pacific Coast League. During his administration the league has shown the biggest business in its history. Judge Graham wished to withdraw a year ago, but could not prevail upon the directors to accept his resignation. Judge Graham said that there had been no friction of any kind in the league and it was with great regret that he had parted company with it, but for fear he might be sacrificing the court's business he had been forced to make this move.

While nothing was to be learned officially tonight as to who would succeed Judge Graham, it was stated in baseball circles that Al Baum, a local sporting writer, and a brother of "Spider" Baum of the pitching staff of the Sacramento team, was slated for the place. The election will be held at the November meeting of the league directors, and it is said that Baum's selection would be in line with a recent decision of the board to name as president a man who would devote his entire time to the interests of the league.

AMATEUR BASEBALL

Berryhill's aggregation of ball tossers from Heald's College will journey to Fowler today to cross bat's with Fowler Hi. The Heald's lineup will be as follows: Rugal, P.; Pimentel, C.; Fallon first base; Stafford, 2nd base; Frisch, 3rd base; Berryhill, ss.; Balkwill, left field; Panchi, center field; Burk right field; Van Noy, Hunsaker, subs.

LONDON, Oct. 20.—The Temple handicap of 300 sovereigns for 3-year-olds and upward, distance five furlongs, run at Sandown Park today, was won by J. R. Keene's Runnemede. Biter Bite was second and Beethoven third.

There were fourteen starters.

LOCAL MARKET PRICES ARE STILL UNCHANGED

Prediction Is Made That Sugar Will Take Fall or Two Shortly.

Local market quotations were firm yesterday and no additional changes were noted. The sudden drop in the price of sugar was the feature of the week, the decrease being 25 cents on the 100 pounds. Last week the price was $7.45. Today it is $7.20. The fact that the coming season is over leads to the prediction that another drop or two may be recorded in the near future.

EASTERN QUOTATIONS

NEW YORK, Oct. 20.—Evaporated apples steady; spot fancy 10@10½c; choice 9@9½c; prime 8½@9c.

Prunes firm; quotations range from 7½ for Californias up to 40-50s and 7½@9 13½c for Oregons.

Apricots firm; choice 15½c; extra choice 16@16½c; fancy 17@18c.

Peaches steady; choice 11@11½c; extra choice 11¾@12c; fancy 12½@12¾c.

Raisins quiet; loose Muscatels 6@7½c; choice to fancy seeded 8@8½c; seedless 6@7c; London layers $1.40@$1.45.

CHICAGO.—A new record high prices were made today in wheat. The close, though nervous, was at ⅛@1⅛c net advance. Corn finished 1¼ to 1⅝ above last night. Oats were up ⅝ to ¾ and hog products higher by from 7½ to 10c.

December wheat swung from 1.01 to 1.04½ and closed at 1.02¾@1¾, a gain of 1@1⅛ net.

December corn fluctuated between 63½ and 64⅝; closing at the top point of the day, 1¼@1⅝ higher than last night. Cash grain grades were firmly held with No. 2 yellow quoted at 1½ to 7c.

Upper and lower levels for oats 47½@⅝ with the close ½ net higher at 48@48½.

The provision trade caught enthusiasm from the grain pit and hoisted prices with a vim. At the last pork had risen 22½@25 and other hog products 7½ to 10.

CHICAGO.—Cattle receipts estimated at 2500; market weak; beeves 475@815; Texas steers 440@640; Western steers 425@725; stockers and feeders 325@650; cows and heifers 200@815; calves 500@900.

Hogs—Receipts estimated at 23,000; market slow 5c lower; light 595@642½; mixed 600@685; heavy 600@665; rough 600@620; good to choice heavy 620@665; pig 325@600; bulk of sales 630@680.

Sheep—Receipts estimated at 10,000; market strong 10c up; native 225@375; Western 240; yearlings 380@425; lambs, native 375@600; Western 375@615.

THE NEW YORK STOCK MARKET

NEW YORK, Oct. 20.—Erratic movements characterized the stock market today, although it exhibited a consistently firm undertone. Prices seemed to fluctuate in response to no well defined changes on the opening which remained so throughout the session.

Changes in consequence often could be attributed only to the varying fortunes of large speculative interests whose operations have been expanded considerably in the last few days. The market closed with a substantial gain, ranging from 10 to 2 points among the active stocks, but the advance seemed to represent the temporary advantage of one faction than a general enhancement of market values.

According to the gossip of the street, a large pool was at work in United States Steel. Whether there is any ground for such a report, evidences of speculation in various parts of the list were plain. Bears attacked the market energetically in the early trading, but made little headway. Selling at the outset was active. More than 50,000 shares of United States Steel were thrown on the market within the first few minutes, but although the list weakened somewhat, it soon recovered. After a series of unimportant fluctuations, the market took on a renewed activity before the close and in the last half hour prices were carried up rapidly.

The metals stocks were most conspicuous. Transactions in United States Steel constituted one-half of the total, morning's business. The copper stocks after several months inactivity, became prominent in speculation. Amalgamated Copper advanced 2 points and Anaconda, Tennessee Coper, Utah Coper and American smelting gained a unit or more.

Trading in bonds was on a smaller basis today.

Total sales, $2,500,000. United States bonds were unchanged.

RECORDED DEEDS

JUSTICE SMITH VEXED; GOES ON WAR PATH

Unskilled Artist Paints Mustache and Beard on Pictures.

Justice of the Peace George Washington Smith, who for the past nine years has held that office in Fresno county, is vexed. This statement to the few in this city who are not acquainted with Justice Smith may not seem strange but to those who are intimate with the magistrate it will be a great surprise as he has a county wide fame for his jovial manner. Justice Smith has cause for his ruth and his friends have joined hands with the justice and all are on the "war path."

The cause of the trouble is that when Justice Smith appeared at his office in the Temple Bar building yesterday morning in place of being greeted by the smiling pictures of the many calendars which adorn his wall, he was surprised to see that many of the girls had grown mustaches and long flowing beards during the night. Justice Smith rubbed his eyes, kicked his shins, discovered that he was really awake and upon closer inspection found that some "low bred fellow," as the judge expressed it, had inartistically painted mustaches and beards upon the faces on the calendars.

Justice Smith immediately called his friends over the telephone and they mourned with him. A reward may be offered for the arrest of the culprit and henceforth the magistrate will not believe that every one in Fresno is honorable and at nights when he leaves his office he intends to lock the door.

Justice Smith during his term of office when not engaged with legal work has devoted much of his time to the collection of calendars. In his nine years of office he has gathered calendars from all parts of the United States and they are tacked on the four walls of his room. No one that ever enters the office leaves without stoping to look at one or more of the calendars and it is a sight that they never forget. But Justice Smith is now angry and woe be it unto the guilty party if the judge should ever happen to be called upon to pass judgement in this case.

WILL INVESTIGATE MYSTERIOUS DEATH

Funeral services over S. Kimura, a Japanese pool hall proprietor of Del Rey who was killed in a mysterious manner by a Santa Fe train early Thursday morning, was held yesterday afternoon from the Fresno Buddhist church. Interment was in Mountain View cemetery. Up to the present time there has been no clues found that would lead to the unraveling of the case. According to the testimony of the engineer and fireman Kimura was lying on the track when the train struck him.

He had previously been to Miley to collect $15 and many of his friends are under the impression that he might have been robbed and left on the track to cover up the crime. It has not been learned whether the Japanese reached Miley and collected the money or not. Del Rey Japenese are making an investigation.

LICENSED TO MARRY

License to marry were granted yesterday to the following named:

Frank Bryant, native of Illinois, aged 21, and Lena Pletcher, native of Tennessee aged, 18, city residents.

Bardomiano Estrada, aged 23, and Tomar Palomino, aged 23, natives of Mexico and residents of Clovis.

PERMITS TO BUILD

Permits were issued yesterday to the following named for the construction work described:

E. J. Farr to erect $1800 stable on lots 17-20, city block 196, for Holland & Holland, replacing structures recently destroyed by fire.

Harvey Eikenberry for Church of the Brethren, $500 church building on lots 18-20, block 5 of Belmont, to be erected by Jaywork.

Stanley Lohsra for $500 dwelling on lots 21 and 22, block 257.

F. J. Stone to build brick addition at cost of $1000 to restaurant on lots 30-32, block 83 for Fred Houtsicker.

O. D. Pugh to make alterations and one room addition to dwelling on block 150.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

NOTICE TO WATER USERS.

The annual payments to the Fresno Canal and Irrigation Company under water rights are now due, and if paid before the first day of November, 1911, will carry no interest. If not paid by that time, interest will be charged, thereby increasing the cost, and it is to the interest of all land owners so situated to see that the bills are paid before the time mentioned.

FRESNO CANAL AND IRRIGATION COMPANY,
By L. Montague Drew, Secretary.

ROAD CLOSED.

All traffic between Fresno and Coalinga please go by Elkhorn Grade, as McMullin Grade will be closed from October 15th until further notice, bridges being repaired. Thomas Martin, supervisor.

NOTICE TO CONTRACTORS.

WANTED—Bids for the erection of a two-story frame apartment house. Plans may be seen at the office of Starbuck and Clark, Edgerly Bldg., or at 2219 Merced.

FRUIT PICKERS

Tally tags carried in stock at the Fresno Republican Job Printing office.

S. B. Tonic tones up the entire system, only at Smith Bros.

NOTICE OF ADMINISTRATOR'S SALE OF REAL ESTATE AT PRIVATE SALE.

In the Superior Court of the State of California, in and for the County of Alameda.

No. 14,003. Dept. 4.

In the matter of the estate of Charles Fritz, deceased.

Notice is hereby given that in pursuance of an order of the Superior Court of the State of California, in and for the County of Alameda, made on the 20th day of January, A. D. 1911, in the matter of the estate of Charles Fritz, deceased, the undersigned administrator of the estate of said deceased, will sell at private sale to the highest bidder upon the terms and conditions hereinafter mentioned and subject to the confirmation of the said Superior Court of the State of California, on or after Thursday, the 2nd day of November, 1911, all the right, title and interest and estate of said Charles Fritz, deceased, at the time of his death in and to the real property hereinafter described and all the right, title and interest that the said estate has by operation of law or otherwise acquired other than or in addition to that of said deceased at the time of his death of, in and to that certain lot, piece or parcel of land situate, lying and being in the County of Fresno, State of California, and described as follows:

The Northwest quarter of Section thirty-five (35) in Township Fifteen (15) South of Range Fourteen (14) East M. D. M. in California, containing one hundred sixty (160) acres with the appurtenances thereto.

Terms and conditions of sale: Cash, gold coin of the United States, ten (10) per cent of the purchase price to be paid at the time of sale, balance on confirmation of sale. The purchaser to assume the payment of and take the property purchased by him subject to all municipal, state and county taxes, and all assessments, liens and encumbrances of whatsoever name or nature, which are now or which may become hereafter chargeable to or a lien against the property purchased by him.

All bids or offers must be in writing and may be left at the office of Abe P. Leach attorney for administrator, at room 1113 Union Savings Bank Building, Oakland, California, or may be delivered to said administrator personally in said Alameda County, or may be filed in the office of the Clerk of this Court at any time after the first publication of this notice and before making said sale.

Dated: October 16th, 1911.

H. B. STEINMANN,
Administrator of the estate of Charles Fritz, deceased.

Abe P. Leach, 1113 Union Savings Bank Building, Oakland, California, attorney for administrator.

State of California, County of Fresno, ss.

The Liberty Canal Company, corporation. Principal place of business Liberty; Fresno County, California. Location of property Fresno County, California.

Notice is hereby given that at a meeting of the Board of Directors of said company, held on the 12th day of Sept., 1911, an assessment (No. 46) of ten dollars ($10.00) per share, was levied upon the capital stock of said corporation payable immediately to the treasurer, Farmers' National Bank, Fresno, California. Any stock upon which this assessment shall remain unpaid on Oct. 21st, 1911, will be delinquent and advertised for sale at public auction at the Liberty school house, Fresno County, and unless payment is made before, will be sold on Nov. 18th, 1911, at 10 o'clock a. m., to pay the delinquent assessments, together with the costs of advertising and expenses of sale.

C. L. ADAMS,
Secretary of said Corporation.
Dated Fresno, Cal., Sept. 12th, 1911.

EWING-McDANIEL CO., 1038 J St.

IF YOU HAVE LOOKED at the rest and have not been suited, my advice to you is, see this. It is so different. We could without effort, fill this entire column, extolling the virtues and merits of this very different bungalow. Sufficient, however, to say that in our entire listing it is the best for the cost that we have to offer. It is beautiful; it is good; it is honest. The price, $3150, and terms if you wish. We are always happy to show it.

BAKERSFIELD OFFICIAL IS HERE FOR A STRIKE CONFERENCE

J. Scheleberge Says Yards in South Are Quiet With Many Men.

Another Engine Is Sent to Fresno; Geo. Aye Is Still With Job.

J. Scheleberge, who is in charge of the Southern Pacific yards at Bakersfield during the strike, made a flying trip to Fresno yesterday for a conference with Assistant Superintendent Dodds and George Aye, roundhouse foreman. Scheleberge arrived here at 12:30 o'clock yesterday morning and returned at 5:10. He made the trip on the engines of the two trains and stated last night over the railroad telephone to Dodds that he found both locomotives to be in excellent condition.

Scheleberge stated that all is as quiet as a graveyard at Bakersfield and there is not more disorder there than in the Fresno yards. All of the railroad guards at Bakersfield are deputy sheriffs and peace has been maintained since the day the strike was called. According to Scheleberge, 350 men are being fed and housed in quarters in the Bakersfield yards.

Yesterday in Fresno ninety-one men ate at the railroad hotel in the stockade near the roundhouse. Work was started yesterday on two additional bunk houses in the stockade. These are to be 25 by 60 feet in size with city water and sewer connections and hot and cold tub and shower baths.

MOVING PICTURE SHOW.

The proposed moving picture show for the entertainment of the strike-breakers will be given nightly in one of these houses. Scheleberge stated that a moving picture show will also be given at Bakersfield.

AYE DID NOT QUIT

George Aye, the roundhouse foreman, who was reported by the strikers to have quit his job and left the yards in sympathy with the union men, was at work yesterday. He declared he had no more intention of leaving his position than he had of flying without an aeroplane. The strikers reported that Foreman Aye and seven other roundhouse employes had walked out on a sympathetic strike. Both Aye and Assistant Superintendent Dodds denied this report.

ANOTHER ENGINE HERE

Another engine arrived here last night from Bakersfield, making a total of twenty-two now "stabled" in the local roundhouse. This is the fourth engine to be turned out of the Bakersfield shops since the strike began. The non-union machinists, blacksmiths and boilermakers at the roundhouse are caught up on all the work and the present force is believed by railroad officials to be adequate to handle all repairing.

A majority of the trains were on time last night. Railroad officials say the service has not been impaired in any way as the company has all the men it needs to handle trains here. Applications are being received daily from local men who are out of work. Several have been accepted and given free transportation to Bakersfield where there are still a few vacancies to be filled.

RESIDENTS OF THE HILL WANT NEW SCHOOL; ALSO CARS

Annexation of Arlington Heights to Fresno City Is Discussed.

Committee Named to Confer With School Board and Traction Officials.

Members of the Arlington Heights Improvement Association, at their regular meeting last Thursday evening, unanimously decided that Arlington Heights addition is imperatively in need of a school, with the primary grades, so that their small children will not be compelled to go to the different schools, miles away from their homes, and after considerable discussion as to the best way to get results, President E. A. Sweet of the association apointed T. L. McNeece and Russell Usher as a committee to wait upon the school board and see what could be done in the matter and to report their findings back to the association at their regular meeting Tuesday, October 31.

Much complaint was expressed against the winery, located near "The Hill," and after considerable discussion President Sweet was instructed to file complaint against the winery for maintaining a nuisance, the members him their moral and finacial support.

Realizing the rapid growth of "The Hill," it was decided to make earnest efforts to induce the Fresno Traction Company to extend their car line so as to include all of "The Hill." It was pointed out that the extension of the Tulare street line to Fifth avenue and then on Fifth to Belmont, thence west to Angus thence down Angus to Tulare, would form a belt line and take in a district that is badly in need of a street car service. A committee, J. M. Hancock and S. Searles were appointed as a committee to talk the matter over with the management of the traction company in an effort to get this needed extension.

The property owners of "The Hill" will also make an effort to have the water and gas mains extended, tapping a thriving and rapidly growing suburb.

It was pointed out that if the city limits were extended so as to take in "The Hill" into the city of Fresno the addition would receive the benefits of sewerage, and within the near future it is expected that an effort will be made with this object in view.

STUDENT AFFAIRS BOARD IN SESSION

Yesterday afternoon, at the high school President Stanford called a meeting of the Students' Affairs executive board for the purpose of transacting several business matters of immediate importance.

Joe Collins was made the authorized manager of the football team and Manager Collins was allowed $5 for the purchase of a new Rugby ball.

It was decided that thirty-eight block "F"s and fifteen German "F"s should be purchased at once. The emblems will be awarded to qualified members of the last year's first and second teams, respectively.

J. W. Werner, athletic director, was given a warrant for $4.50 with which he will buy a net for the tennis court.

MANY PACKERS SEEKING TO REJECT RAISINS ON DELIVERY

Dropping of Price Causes Quality of Goods to Deteriorate.

Commission Plan for All Disputes Meets With General Favor.

Now that there has been a little falling off in the price of raisins, a number of local packers are endeavoring to get out of paying their 4½-cent contracts, made when the season was more rushing, by rejecting goods. The action of the packers in trying to find fault with all 4½-cent goods delivered to them, is common talk on the street and many growers are telling of personal experiences where packers have inspected every box delivered in an effort to find some good excuse for not taking them, or at least taking them at lower figures.

Among the firms doing this to a great extent, growing report the Phoenix Packing Company and Castle Bros. One grower said yesterday that every effort possible was made by H. A. Pratt of the Phoenix to reject his goods or get them at a lower figure. He reported an instance where another grower who had made a contract with the Phoenix for "standard" raisins at 4½ cents, was obliged to sell them for 3½ cents.

CROP IS GOOD

Packers who have not endeavored to reject any goods say the crop this year is as good in quality as in any other year, and that all the goods they have received have been in fine condition.

Growers who have not had occasion to be questioned about their reasons in talking about the wholesale rejections that are now being attempted, remarked yesterday that this was only an excuse of the packers to get out of paying 4½ cents.

Because of these attempts to reject, the suggestion made editorially by the Republican several weeks ago that a commission be chosen to pass on all goods about which the packers have doubts, has met with general approval.

Several packers yesterday remarked that the commission idea would go a long way toward settling difficulties that arise at such a time as this, when some packers are anxious to buck down on their contracts.

By the commission plan, all raisins would be submitted to this board of unbiased arbiters, where there has been any question as to their quality. Recourse to the courts is possible despite a decision of the commission, but it is not believed that there would be very many appeals from its decision and that it would in the long run prove far more satisfactory for every one.

It was remarked yesterday that the rejection of goods because prices take a little drop is becoming more and more a menace in the raisin business and that there ought to be some way whereby a stop could be put to this kind of work.

"No one expects a packer to pay for raisins that are not standard," said one man, "but the decision as to the quality should not be left altogether with him. The grower should have as much right to show his side of the matter outside of the courts as well as within."

This attitude, expressed by one man, was also the expressed attitude of several others.

MARKET STRONGER

There are a number of packing firms in the city that are making no effort whatever to reject goods unless they are unusually poor in grade and it was among these men that the sentiment favoring the establishing of a commission was found.

"If the packers want raisins they will pay 4½ cents for anything and not think of rejecting goods," said one grower.

There is a strong undercurrent to the Eastern market, according to advices received, although the demand is not as active as it might be at this time. One packer told of receiving an offer for ten cars of goods at good prices, deliveries to be made in two-car lots for five months.

The East is without the goods, and the optimistic ones point out that it is only a question of a short time before they will be clamoring for goods. If the growers maintain their demands for not less than 4½ cents, one packer said yesterday, there is no doubt but that the time is coming when this price will be received. He also pointed out that the majority of the packers who are bearing the market are short, and told of one firm that is short more than 200 tons.

WINERIES ALMOST DONE WITH CRUSHING OF BLACK GRAPES

About One-Fourth of Output Remains Untouched, Say Wine Men.

Second Crop Muscats Are Not Yet Ready to Be Delivered.

Another two weeks will in all probability see the finish of the crushing of black grapes at the wineries around Fresno. It was estimated yesterday that about three-fourths of the black grapes have been crushed.

Many of the wine men who bought outside grapes, crushed these first and are now working on their own grapes, which they expect to soon clean up.

Although the crop this year was somewhat late, it is said that the production has been about equal to that of former years, and that the vintage will be about the same. The grapes were of good quality.

None of the wineries have yet started on second crop muscats, and it is believed that it will be some time before they are ready for crushing.

The late first crop has necessarily made the second crop late, and the wineries expect a longer run this season than usual.

It is believed that the wineries will crush as many second crop muscats this year as in former years. The crop is believed to be as large as in former years, notwithstanding the fact that it is late.

Many of the wine men are not making any efforts whatever to contract for second crop muscats, but expect to buy all that are offered them. The ruling price is $12 per ton, although the price ranges according to the quality of the goods as regards wine-making.

While the frost last spring materially shortened the wine grape crop, especially in the older vineyards, it was stated yesterday that young vineyards that have just come into bearing made up for the deficiency and brought the total production up to what it has been in former years.

DEMENTED WOMAN GAVE MAN $220 TO KILL HER

Mrs. Anna Fenludu Is Still Unconscious; Will Undergo Operation.

It was learned yesterday that Mrs. Anna Fenludu, who is at the Burnett sanitarium, suffering from injuries caused by jumping out of window on a moving Santa Fe train near Hanford while demented, had given a man passenger $220 if he would kill her. It is said that the woman became tired of waiting for the man to carry out his act and jumped through the window. The man gave Mrs. Fenludu a receipt for her money. He later turned the money over to the conductor.

Mrs. Fenludu had not regained consciousness at a late hour last night and her condition is still considered critical. It will probably be necessary to operate to remove parts of the bone from her brain. John Ludu, a brother-in-law, arrived in Fresno yesterday morning from San Francisco and left last night accompanied by Mrs. Fenludu's little son.

STATE POLICEMAN IS ACQUITTED OF BATTERY

Wm. Beck Within Rights When He Hit Fireman, Finding.

William Beck, a member of the state railroad police, was yesterday acquitted of a charge of battery, which was preferred against him by C. L. Lindrose, a city fireman. City Justice Graham, in rendering his judgment, said that the firemen were under the impression that every one must give way to them, which was correct in time of fire, but that it was his opinion that firemen were probably under this impression when they refused to leave the Southern Pacific reservation when ordered to do so.

Beck struck Lindrose on the head when the latter refused to vacate the railroad premises. Lindrose, with three other firemen, attempted to walk through the railroad yards from Tulare street to the depot. They were accosted by a guard who ordered them from the premises. A fight started and Beck ran to the assistance of the guard and struck Lindrose over the head. Attorney L. L. Cory appeared for the defendant.

SOUTHERN RESTAURANT MAN IS IN THIS CITY

Al Levy Looking for Place to Open Cafe Here in Near Future.

Al Levy, of Levy's cafe, one of the largest in Los Angeles, is in Fresno looking for a suitable place to open a high class cafe.

Levy arrived in Fresno Thursday night and spent yesterday going about the city in company with local people looking over conditions here and sizing up various localities, with a view of establishing a place here. He came here expressly for this purpose and it is believed that he will make arrangements for a place before returning to the southern city.

He has no definite plans as yet, as to where or when he will start, but will be ready to fit up a place at once, as soon as he can secure a suitable location.

GOOD FOR WHITE MAN; GOOD ALSO FOR JAPS

Judge Austin Gives an Oriental Benefit of Probationary Parole.

"I am going to try an experiment with this Japanese," remarked Judge Austin from the bench yesterday afternoon, having before him Y. Masaoka, in whose case he had several days ago recalled a sentence of one year in the penitentiary on his plea of guilty to forgery.

"The probationary law has been used heretofore for the benefit of the people of the white race, and I don't see if it is a good thing for the white man why it should not be also for these other fellows," he added.

Being of the mind Masaoka was released on parole for two years, conditionally that during that period he commit no crime and abstain from liquor, there having been showing made that he was drunk when he passed the forged check. Probation Officer Sessions arranged with Masaoka the terms of his probation reports and surveillance.

The accused is a farmer near Raisin City with wife and two minor children. The charge was that he passed on one of the town banks on the 7th of last August a check for $100 payable to M. Johnson and endorsed with the names of Johnson and S. Sakaga.

Masaoka understood enough English to thoroughly appreciate what an escape he had from going for 12 months to San Quentin to work in the jute mill.

OKLAHOMA OFFICER TAKES PRISONER

Under Sheriff W. M. Sloan of Pawhuska county, Okla., arrived in Fresno yesterday from Oregon with a prisoner and left last night for Oklahoma with J. M. Smith, who was arrested here several weeks ago on information from the authorities there. Smith is wanted in Oklahoma for obtaining money under false pretenses. Sloan arrived in Fresno two weeks ago after his prisoner but received word to continue on to Oregon and get another prisoner who had been arrested there. The under sheriff with both prisoners left on the 10 o'clock train for Oklahoma.

THE ADJUSTMENT OF GLASSES

Calls for mechanical training in the skillful use of plyers and a knowledge which comes only from practice.

The proper adjustment of glasses is a hobby with us.

We are satisfied only when we know our patient has the most perfectly fitted frame possible to give him. When your glasses need readjusting just drop in here. Even if you bought them elsewhere, we are glad to be of service to you in an optical way.
